THE EDITOR SAYS—

Let me tell you about the fish fry to be given in Malone Park Friday of this week beginning at 5:30 o'clock. The managers have pledged their word to have sufficient facilities to cook the fish to a turn, to keep it hot until server, and to serve their patrons in order as they come. Before the church people were so rushed and crowded they couldn't give the proper attention to their patrons. Rev. Collins and his wife will watch over the fish fry and promise the best of service and invite a liberal patronage as the money will go toward paying the note they owe on their church.

* * *

The Standard editor was doing a rushing business as long as the old-age assistance application blanks held out. From Tuesday morning until 9:00 Wednesday forenoon 116 of these blanks were givtn out in this office and the supply exhausted. However, a new supply has been called for and there will be sufficient to fill all requests long before the money is available. The Board will meet in Benton Tuesday next, at 1:30 o'clock to pass on applications presented.

* * *

It is with regrets that we have to make a few caustic remarks about quite a few of our laborers of the city who we have been told are doing considerable knocking and criticizing of the official force who they class as "white collared force who draw good pay for doing nothing", while they are not permitted to do "stout backed work." In every undertaking of any magnitude it is necessary to have an organization to prepare plans for the work to be done and especially when the Federal Government is paying the bill. When the four billion dollars appropriation was made available at Washington it was necessary to have organizations throughout the land to handle the projects for which the money was to be used. These district organizations, such as we have in Sikeston, is one of many to handle all projects in the counties composing the districts. The white collared force in the office here was organized to handle the projects in the eight Southeast Missouri Counties, and they have got to perfect the plans before they are sent to the main office in Jefferson City for approved there then to Washington for final approval. This white collared outfit is the busiest place you ever visited and some of the force has been putting in 18 hours a day to get the project plans ready in order to put our laborers to work. To criticise them is wrong and we believe the majority of the laborers are not doing so, but do hope work will soon be available. We believe some of the projects for Sikeston will be ready at an early date.

* * *

It was with sincere regrets that we learned of the death of Mrs. W. H. Deane, Sr., of Matthews, which event occurred in Brandon Hospital, Poplar Bluff, Tuesday morning of this week. To the neighbors and acquaintances of her community she was held in high regard for the Christian life she lived, and to her family she was a true wife and loving mothther. For years she was the Matthews correspondent of The Standard and as such was highly regarded by the management. May her soul rest in peace.

* * *

Kenneth K. Baker came in from the Ozarks Wednesday with a bag of fossils gathered on a recent trip through the hills. A cheerful idiot standing by said he could have gathered several boxes of two-legged fossils without leaving town.

ANNOUNCES RULES FOR DOVE SEASON

Important rules for hunters observing the dove season were announced Wednesday by F. I. Jones of Charleston, game warden for this district. The season opened September 1.

Doves may be shot only from 7 in the morning until sundown, Mr. Jones said. Hunters are limited to ten in the bag and fifteen in possession each day. Persons using automatic shotguns may fire only three shots.

SEMO SCHOOL HEAD TO TEACH AT UNIVERSITY

With his wife and daughters, R. A. Moyers left his home in Cape Girardeau this week to move to Albuquerque, N. Mexico, where he will be assistant professor of history and education at the University of Mexico.

Mr. Moyers has been affiliated with Southeast Missouri schools for thirty years, serving at different times as superintendent in Morley, Oran, Portageville, and Hayti. He has attended the Cape Girardeau teachers' college and Peabody College in Nashville, Tenn. During last year he worked on his doctor's degree at the University of Missouri.

Mrs. Moyer is also a former student at the University of Missouri and at Peabody College. She had taught twelve years, the last five in the primary department at Gray Ridge.

The Moyers' daughters are Misses Marjorie and Montelle.

Miss Marcia Weber of Bloomfield is spending this week as the guest of Mr. and Mrs. Robert Mow, Jr.

Junior Chamber Will Contribute $100 For Armory Building Site

At a regular meeting Tuesday night, members of the Junior Chamber of Commerce voted to set aside $100 as a donation toward buying a lot for a combination armory and community building here providing a proposed WPA project for its construction is approved. The money will also be contributed only if the balance necessary for purchasing a lot is raised here.

The junior chamber is the first organization to announce a donation for an armory tract. Members of the planning board, who recently completed specifications for a $50,000 building for Sikeston, are now considering two lots here. If the project is finally approved and money for it allotted in Washington, they will begin a short drive to secure funds to buy ground.

To raise the money already pledged, the junior chamber will this fall stage a series of entertainments. First will be a dance at the armory, scheduled for Friday, September 13. Jack Stallcup and members of his orchestra will play. Lacy Lewis has charge of arrangements.

Dr. Howard A. Dunaway, president of the chamber on Tuesday appointed Frank Miller as second-vice-president. Mr. Miller succeeds Mr. Dunaway, who was made president when Kemper Bruton resigned.

Councilmen Approve Intoxicating Liquor Act

An ordinance concerning the regulation, sale, and distribution of intoxicating liquor and providing license fees was passed by councilmen Tuesday night.

The new ordinance, which nullifies the present one regulating liquor, was first introduced in July.

Wholesale dealers must pay $50 a year for handling intoxicating liquor containing not more than 5 percent alcohol; $60 for liquor not exceeding 22 per cent; and $100 for handling liquor of all kinds.

Groceries and other businesses that sell 5 per cent liquor in the original package direct to consumer and not for resale or consumption on the premises must pay licenses of $15 a year. Twenty dollars will be charged annually to persons selling 5 per cent liquor by the drink. These licenses will be issued only if applicants do not have permits to sell intoxicating liquor, other than malt, n the original package.

For retailing liquor in the original package residents will pay $100 a year. Holders of such licenses must operate either a drug store, a tobacco store, a general merchandise business or a confectionery and must each have a stock of goods showing a value according to invoices, of at least $1000, exclusive of fixtures and intoxicating liquors.

Violators of these and of additional provisions of the new ordinance may be fined a maximum of $500 and sentenced to ninety days in jail.

At the meeting Tuesday night, councilmen accepted a court order sent by J. Sherwood Smith, clerk of the county court, granting a back tax compromise on a lot in the McCoy-Tanner second addition here. The city will refund $21.38, the amount granted in the order, to the Scott County Building and Loan Association, which paid taxes in full before the compromise was accepted. The lot is owned by Mrs. Carrie Fisher.

Policemen were instructed to notify the Righter Truck Company to have streets and alleys near the terminal kept clean.

Mrs. W. H. Deane, Sr., Dies After Two-Week Illness

Mrs. W. H. Deane, Sr., of Matthews died Tuesday morning in the Brandon hospital at Poplar Bluff, where she had been a patient for ten days.

Mrs. Deane had been ill two weeks, suffering from a complication of diseases, including aheart ailment and an intestinal obstruction. She was 64 years old.

Funeral services were conducted at 2:30 Wednesday afternoon at the Matthews Methodist Episcopal church, of which Mrs. Deane was a member. The Rev. D. M. Margrave officiated. Burial was in the Matthews cemetery.

Mrs. Deane was born at New Madrid on December 25, 1870, the daughter of Mr. and Mrs. Nathan Fox. On December 16, 1901, she was married in Charleston to W. H. Deane, Sr., who survives her. She had spent her entire life in New Madrid county.

Besides her husband, Mrs. Deane is survived by two daughters, Mrs. Willa Alsup and Mrs. Robert Binford, both of Matthews; a son, W. H. Deane, Jr., also of Matthews; a brother, Pleas Fox of New Madrid; a grandson, William Deane, III; a foster daughter, Mrs. Wes Depro of Matthews; a stepson, A. F. Deane of Matthews; and a step-grandson, Ralph Deane, also of Matthews. Albritton service.

Missouri Fills WPA Quota of Projects

JEFFERSON CITY, Sept. 3—Matthew S. Murray, State administrator for the Federal Works Progress Administration, today announced that a total of approximately $63,000,000 in projects in Missouri, representing 78,230 "man years" of employment, had been approved by his office for submission to the WPA in Washington.

He said these projects would complete the quota for his department for WPA work in Missouri. In fact, the projects approved exceed by about $7,000,000 the total of $56,000,000 directly assigned to WPA work in the State. Murray said the excess would be cut down however, by rejections of projects by the Works Progress Administration in Washington.

A total of $95,000,000 was allotted to Missouri from the Federal appropriation of nearly five billion dollars for public works and relief. Of this $95,000,000, Murray said, about $22,000,000 was assigned to Conservation Corps camps, $12,000,000 to highway work, $5,000,000 for miscellaneous purposes and the remainder for the WPA projects.

Murray said a project involving expenditure of $19,559,000 for "feeder" roads, in every county of the State, would be approved today and forwarded to Washington tonight. The construction work will be done on roads not a part of the present State highway system proper, or the supplementary system, but each will connect with the State system or supplementary system, Murray said.

The roads to be built will be gravel surfaced and the work will be broken up into a large number of small projects, Murray said. He estimated this construction would provide 34,594 "man years" of employment.

Projects are to be submitted, he said, for expenditure of approximately $3,000,000 for improvement of the State parks, including construction of roads, trails, cabins, dams, clearing of underbrush, and other improvements. He said these projects would provide a year's work for about 1800 men.

The WPA recently made provision for construction of National Guard armories in 10 cities and towns in Missouri at a cost of not to exceed $25,000 each. Murray today said the number of armories would be increased to 20, but the additional sites have not been selected.

M. U. Attorney Short in Accounts

A discrepancy of $3769 in accounts on Southeast Missouri land which he handled for the University of Missouri resulted in the dismissal Monday of Orville M. Barnett, attorney for the university during the last sixteen years. The shortage was discovered when the government sought to buy part of the university's 40,000 acres of rough land in this district for forestry projects. The university had acquired the land by a federal grant. Barnett did not deny the discrepancy.

Paul Jones, Jr., left Monday for Cape Girardeau, where he will enroll in the Southeast Missouri State Teachers' College.

DR. T. L. CHIDESTER TO OPEN OFFICE SEPT. 16

Dr. Tom L. Chidester will open his dentist's office in the Peoples Bank building on September 16. He will occupy a suite of rooms formerly used by the late Harry A. Smith.

Dr. Chidester is a graduate of St. Louis University. Soon his wife and young daughter will move here from the Chidester home in Camden, Ark.

BAKER RETURNS FROM OZARKS WITH FOSSILS

K. K. Baker returned here Tuesday after an extended visit in several Ozark counties, where he found numerous fossils. The collection he made during his trip is now on display at White's drug store.

Leaving Sikeston on August 13, Mr. Baker went through Stoddard, Wayne, Reynolds, Carter, Butler, and Shannon counties. In the course of walks along Black river and McKenzie creek in Wayne and Logan creek in Reynolds, he discovered many specimens of fossils.

His collection includes a hickory nut shell, snails, hard and soft shell oysters, a bone, and a periwinkle.

MONAN IS FINED AFTER PLEA ON FIGHTING CHARGE

Malcolm Monan was fined $5 and costs Monday afternoon when he appeared in the city police court to plead guilty to a charge of being drunk and fighting, filed against him after his encounter with Bill Thompson August 18. Monan secured the fine.

Disposition of Monna's case was delayed because of injuries he sustained in the fight when Thompson struck his head with a claw hammer. Witnesses said that Monan precipitated the quarrel by resurrecting an old family argument and that Thompson struck only in self-defense after Monan had knocked him down.

Monan recovered at his home. He had been free on a $100 bond signed by C. E. Felker.

VANDUSER CHILD DIES

Gladys Irene McCormick, the 2-year-old daughter of Mr. and Mrs. Edward McCormick, died near Vanduser Tuesday, acute malaira aggravated by acute complications of bronchitis and colitis. The McCormick home is located a mile and a half west of the town. Burial was in the Carpenter cemetery near McMullin, Wednesday.

MISS IRENE NASH'S NIECE WED AT DEXTER SUNDAY

Miss Irene Nash went to Dexter Saturday evening to attend the wedding of her niece, Miss Rubye Allen to Gordon Ford of Louisville, Ky.

The ceremony was performed at 8 o'clock Sunday morning by the Rev. Ford at the home of the bride's mother, Mrs. G. C. Allen. Only relatives and close friends attended.

Immediately after the marriage, a wedding breakfast was served. Mr. and Mrs. Ford left Sunday for a thirty day trip to California. Next month they will be at home in Louisville, where Mr. Ford is an accountant.

Mrs. Ford is a graduate of the Dexter high school and was formerly a student at Business University in Bowling Green, Ky., where she met Mr. Ford. Before her marriage she left her position in the state school superintendent's office at Jefferson City.

Son Born to Henry Killians

A nine-pound son was born at 4:55 o'clock Monday afternoon to Mr. and Mrs. Henry Killian.

Spark Causes Roof Damage

A spark from the flue caused minor roof damage Tuesday afternoon at the Boyd Scillian home at 309 Kathleen avenue. Firemen extinguished the flames with a small hand pumper.

The Sikeston Standard $2 per year

Five WPA Projects For Scott County Approved

Five WPA projects for Scott county are among those for which federal funds totaling $302,000 have been allotted. The projects were sent to Washington after their approval here by C. L. Blanton, Jr., ninth area WPA director, and in Jefferson City by Matthew S. Murray, state administrator.

Allocation of $12,608 has been made for the construction of a concrete storage reservoir at the municipal light and water plant and $5320 for laying water mains here.

Other projects approved for Scott county are in Chaffee which was granted $7400 for cleaning 6381 yards of ditches and for cutting a new ditch in the town; Miner Switch, $464 for painting and repairing the community building; and Oran, $6000 for cleaning off sluff and widening ditches within the town.

Only one other project was approved for WPA work in the ninth area: School and athletic ground improvements at Malden, which was granted $4400. Dunklin county will contribute $224.

The reservoir project which will be undertaken here is one proposed last December for completion under the FERA. It will be constructed in front of the Plant on East Center street.

According to specifications made last winter, the reservoir will be 12 feet deep, 112 feet long, and 45 feet wide. Workmen will excavate only 10 feet, since the tank will protrude 2 feet above the ground. The tank will have a 400,000 capacity and will be fitted with a reinforced concrete top and 12-inch walls.

Use of the tank will serve three purposes: It will make the plant engines carry a more uniform load; it will save fuel; and it will provide better fire protection. When it is built, water will be pumped into the reservoir from the city well between 12 midnight and 7 o'clock in the morning when the power load is comparatively light. Before it is placed in the tank, water will be run through the filtration system.

Now water must be pumped all day from the well, then into the filter and immediately to the tower. Approval of the project will permit engineers to pump water to the tower only in the daytime. Since enough filtered water to last twenty-four hours will be put in the eank each night.

The water main project grant will aid the city in completing extension of lines authorized by $15,000 bond issue at the city election last April. Work was started under the FERA.

Gray Ridge Man Given Ten Years For Murder

Virgil Crouch of Gray Ridge was sentenced to ten years in the penitentiary Wednesday when a Stoddard county circuit court jury found him guilty of murdering Jacob Walker after a card game in Gray Ridge, November 4.

Jurors received the case Tuesday afternoon when testimony of defense and state witnesses ended. Crouch's attorneys tried Tuesday to prove a self-defense theory, calling fifteen persons to the stand, most of whom were character witnesses. All men except Crouch who were present at the shooting had testified for the state.

On the stand, Crouch said that he became angry when Walker struck him with a whisky bottle in a dispute during a card game. He left the stock pen, where the game was held, got his revolver, and returned. When he approached, Walker moved as if for a weapon, he said, contending he shot only in self-defense.

Crouch's trial began Monday. Until 10 o'clock that night, when its case was closed, the state sought to prove Walker's murder was in "cold blood". Ten state witnesses said that Crouch and Walker argued about a bottle of whisky and that Walker struck the defendant with the bottle. Crouch left, then returned and fired without warning. Walker lived only a short time.

Cape Corps Wins Again At State Legion Meet; Sikeston Men Return

With a near perfect rating of 98.2 the Cape Girardeau Legion Drum and Bugle corps won the state championship Monday night, for the third successive year.

Their score, seven-tenths of a point higher than last fall's, set a new high record for the state. The contest was held during the state Legion convention in Columbia this week.

The Joplin corps won second place with 92.7; the Independence group, third with 92.6; and Greater St. Louis, fourth with 86.9.

The Cape Girardeau corps will compete at the national Legion convention in St. Louis from September 23 to 26.

Marshall captured the Class B championship with a score of 74.7 points. The St. Louis county group, only other entrant, left the contest field without completing its maneuver.

The Sikeston corps, which had planned to compete, did not enter chiefly because proper substitutes were not available to take the places of three regulars who were unable to attend the convention. Further, members were unable to stay in Columbia until the contest was ended since they were forced to leave at 6:30 Monday afternoon in order to reach Sikeston in time for work Tuesday morning. They arrived at 4:30 in their chartered bus.

Earl Johnson was elected district committeeman and Harry C. Blanton was chosen as a delegate to the national convention during business sessions of the state meeting. Earl H. Shackleford of Hannibal was elected state commander, succeeding William A. Kitchen of Kansas City.

Delegates to the national convention, besides Mr. Blanton; the commander, and the retiring commander, are Lowell Johnson of Kansas City; Brigadier-General E. M. Stayton of Kansas City, commander of the Missouri national guard; Jesse W. Barrett of St. Louis; Senator Harry S. Truman of Independence; Dan Nee and O. A. Armstrong of Springfield; B. Marvin Casteel of St. Joseph, head of the state highway patrol; Richard R. Nacy of Jefferson City, state treasurer; and Mayor Bernard Dickmann of St. Louis.

The 1936 state convention will be held in Springfield.

M. U. To Open Monday; 3 To Enroll As Freshmen

The University of Missouri will begin its 96th annual session in Columbia Monday.

At 10 o'clock in the morning freshmen will gather at Jesse auditorium for their first convocation, and in the afternoon they will take aptitude tests. In the evening they will attend a mass meeting and later a dance. Registration and additional pre-school activities will be held Tuesday and Wednesday. Class work will start Thursday.

Sorority rush parties began yesterday afternoon and will end Sunday afternoon with pledging. Fraternity rushing will be held for scarcely more than twenty-four hours, beginning Saturday noon.

All students who enroll in the university this fall as freshmen will be seniors during the centennial celebration of the founding of the oldest state university west of the Mississippi, when the 100th anniversary of the University is celebrated four years from now.

Charles McMullin and Bill Donnell left for Columbia by train early Wednesday morning; and John Wilson left Thursday afternoon. He went to St. Louis with Don Robinson, who later this month will attend Central College in Fayette. McMullin, Donnell, and Wilson will enroll as freshmen at the university.

Mrs. Milton Mann, Mr. and Mrs. Wash Howard and Mr. and Mrs. Hal Hunter, all of New Madrid, were in Sikeston Tuesday.

Born to Mr. and Mrs. Dan McCoy, Jr., last Saturday, a son, who has been named Dan McCoy, III. Mrs. McCoy and son are at the St. Francis Hospital in Cape Girardeau.

Relief Clients to Get Identification Cards Tuesday for WPA Work

All certified relief clients who expect to secure employment on works progress administration projects are urged to report at the city hall Tuesday morning to receive identification cards.

E. R. Ryan, the Scott county representative of the national re-employment service, will be in the city hall lobby from 9 until 12 o'clock Tuesday to issue cards to relief workers living in the Sikeston district. A former FERA associate well-acquainted with clients will remain with him to identify them.

Issuance of cards will constitute the first step toward assigning men to work on WPA projects. All clients must obtan cards before they can secure employment.

School Enrollment To Near 1500 This Term

More students than ever before were enrolled in the grammar and high schools Tuesdays, Superintendent Roy V. Ellise announced.

On that day 657 pupils were entered in courses at each of the schools, making a total of 1314. Last year's first month enrollment was 1284 and the peak for the white schools by the middle of the year was only 1313.

Total enrollment this fall will near 1500, Mr. Ellise said. One hundred and twenty negro students are attending the Sunset school.

The present high school enrollment of 330 is 40 above last year's. Enrollment by classes is listed below.

Senior, 70; junior, 90; sophomore, 88; freshmen, 82; eighth grade, 99; seventh, 123; sixth, 105; fifth, 139; fourth, 109; third 151; second, 130; and first, 128.

Between 40 and 50 students are attending the St. Francis Xavier school, which also opened Monday.

GEOLOGICAL SURVEY OF STATE APPROVED

An allotment of $279,727 out of federal works funds has been approved by President Roosevelt for a geological engineering and mineral research project in Missouri.

The survey, which will be under the direction of Dr. H. A. Buehler, state geologist, will be divided into three divisions. They will be investigation of mineral resources in which mineral district will be outlined ; investigation of of ground water resources; and completing topographical maps started under the FERA and under which about one-third of the work was finished.

The project will furnish a year's work to 262 engineers, chemists, computers, geologists and draftsmen. The total cost will be $333,863, of which Missouri will pay $54,137.

TAKES LARGE SPLINTER FROM SWOLLEN FOOT

Dr. Howard A. Dunaway Wednesday morning removed a large thick splinter that had been imbedded in James Cohen's right foot during the last four weeks.

The splinter about an inch and a half long, entered Cohen's foot directly beneath the large toe when e stumbled on a plank while he was walking at his farm home near Crowder.

In trying to remove the splintr, Mrs. J. H. Cohen, James' mother, broke the wood. Members of the family thought the entire splinter had been taken out, however, until the foot began to swell noticeably.

NEW MADRID NEGROES CHARGED WITH ROBBERY

R. L. Harris and Noah L. Farr, New Madrid county negroes, were bound to the Cape Girardeau county circuit court Wednesday when they waived preliminaries on charges of highway robbery. They were placed in the Jackson jail.

Farr and Harris are accused of stealing $25 from a third negro, Ed Dunn, near his house on Highway 74 Monday night after they had held him up with a shotgun. The two negroes had played at a picnic Dunn gave at his residence Monday evening.

Harris was arrested at Portageville and Farr at New Madrid.

Day Appeals to Supreme Court

William Day of Cape Girardeau, formerly of Sikeston was granted an appeal to the supreme court Tuesday after Judge Frank Kelly had refused a motion for a new trial in the Mississippi county circuit court on a charge of receiving stolen property. Day was found guilty of the charge in July and was sentenced to two years in prison. Day was accused of buying stolen cigarettes from negroes.

John McCray was critically injured in an automobile accident in Kalamazoo, Mich., While in an ambulance en route to the hospital he asked an accompanying police officer to take a bit of dictation. On the back of an envelope the officer wrote McCray's will, leaving his entire estate to his wife, except $1 to a daughter he had not seen in 15 years.

Assault Charges Filed Against 3 After Fight

Assault and battery charges were filed Wednesday against R. B. Oliver, Alfred Carter and Grover Jenkins following a fight near a Frisco cafe the night before. Oliver is recovering from severe stab wounds on his left shoulder and face.

The fight was allegedly started because of an argument about a woman. The three men were arrested by W. M. Masterson, who took them to Judge Joseph W. Myers' court, where preliminaries will be held next Thursday.

Jenkins is charged with assault and battery with a knife; Carter with assault and battery on Jenkins; and Oliver with disturbing the peace by fighting and rioting. Carter and Olicer are free on $50 bonds, Carter's signed by C. C. White and Buck Carter and Oliver's by himself and Roy Oliver. Jenkins bond was set at $100 since he supposedly cut Oliver with a knife. It was signed by himself, J. S. Wallace, and Walter Hughes.

Dr. Howard A. Dunaway closed Oliver's wounds with fifteen stitches.

OWNER HAS RESPONSIBILITY

Landlord Must Contribute Share of Tax Certificates

Any landowner having an interest in cotton to be marketed must contribute his portion of the tax exemption certificates issued to him in the same proportion as the cotton crop is divided between landlord and tenant, says County Agent Broom on recent advice from Washington.

Rules and regulations under the Cotton Act of April 21, 1935 provide a penalty in the event any landlord fails to surrender his proportional share of tax exemption certificates in lieu of tax payment. Failure to comply with this provision may result in temporary or permanent cancellation by the State Allotment Board would be followed by the reissuance of such certificates to the tenant or share cropper operating the producer unit for which the certificates were originally issued to the Landlord.

Grant Sought for Cleaning Lake

Mississippi countians have prepared a WPA project for clearing Brewer's Lake of stumps and brush, according to F. I. Jones of Charleston, Southeast Missouri game warden. Sponsors are seeking a grant of $15,000 for the work. The project has been submitted to the ninth area WPA office here.

Living costs in the United States in July was 1 per cent less than in June, the National Industrial Conference Board announces. Living costs at this time are 17.4 per cent less than in July, 1929.

Bank Statements $10.00
Yearly subscription in Scott and the adjoining counties .. $2.00
Yearly subscription elsewhere in the United States $2.50

Aunt Jane Peal, of Blodgett was one of the many who attended the Baptist Association in Sikeston during the week. It was our pleasure to have a visit from her Tuesday afternoon. Though she is 84 years of age, her eyes are as keen and bright as ever and her cheerful disposition sheds sunshine wherever she goes.

J. F. Altom, of the McMullin vicinity, raised some extra choice watermelons this season, these great big striped fellows. Four of them were presented to The Standard editor, who shared them with Harry in St. Louis and Ben in Kansas City. It was a nice remembrance and duly appreciated.

* * *

Funny things happen to some men when they begin to grow old. We have never contacted one that didn't like to gaze upon a pretty girl, and some not so pretty, but the story goes that a posmaster not a thousand miles from Sikeston and who is in the above class, became so absent minded, or something, that he gave 50 3-cent stamps too many to a beauty.

* * *

Bingo, a 6-year-old French bulldog, died last week, one of the most famous dogs in America. Owned by Dr. and Mrs. Edward P. Thomas of Frederick, Md., he gained wide publicity a few years ago when his mistress took him to a veterinarian one day to be treated for an infected ear. For the next two weeks Bingo made daily unaccompanied trips to the doctor for treatment and when the infection healed, quit his visits voluntarily. Last week he was killed by an automobile.

Personal and Society News From Oran

Mr. and Mrs. Duckworth and daughter, Miss Helen, of Tuscaloose, Alabama, are visiting at the Clemson home.

Chas. Hansford and Leon Driskill, Jr., were in Morley one nite last week attending the revival at the Methodist church.

The Hansford family and Leon Driskill were in Cape Girardeau attending the picnic at Ellis Park Friday, given for the ministers of this district. They report a delightful time and an abundance of eats.

Miss Mildred Carr returned to Festus last Sunday with her sister and family, Mrs. Ollie Scott.

Mrs. Kirk and children left Sunday morning for St. Louis where they will make their home.

Miss Madge Mason, Mrs. Della Poe, Mrs. Cathleen Baty and Mrs. Chas. Burrus had Benton business Thursday of last week.

Otto Perdue and family will occupy the Leo Phefferkorn property vacated by the Kirk family.

Murray Myers left Thursday of last week for St. Louis where he will teach history in the Bayless high school south of the city. Miss Honora McCarty also left for her work in St. Louis county. She is teaching northwest of the city.

Mr. and Mrs. Jake Smith and daughter, Miss Eula and Allen Magner of Chaffee attended the Homecomer's celebration at Jackson last week.

Personal And Society Items From Vanduser

There were several friends and relatives gathered at the L. P. Woodward home Sunday, to attend a birthday dinner given in honor of their daughter-in-law, Mrs. Francis Hale Woodward, all reported a nice time.

Mr. and Mrs. Raymond Hency and children of West Frankfort, Ill., spent a few days with the former's parents, Mr. and Mrs. W. W. Hency.

Mr. and Mrs. Glendon Stafford returned home Sunday, after a week's visit with the latter's parents, Mr. and Mrs. Oscar Mize.

The filling station that was formerly operated by Mr. Bullinger, has changed hands. It is now being operated by Mr. Price. We are glad to welcome these people in our town.

Lola Stafford of Commerce has come to Vanduser to attend hign school. She is boarding with Mrs. Moody.

The following persons attended a home coming of the Chaney family at the Oscar Mize home, Friday: Mr. J. C. Chaney of Grisham, Mo.; Mr. and Mrs. Joe Chaney and children of Flint, Mich.; Mr. A. A. Chaney of Pickins, Miss.; Mr. and Mrs. Evert Killian and sons, J. E. and Charles of Sikeston: Martha Killian of Sikeston; Mr. and Mrs. Glendon Stafford of Commerce; Mr. and Mrs. Oscar Mize and children, R. V. and Beatrice and Ray of Vanduser, this is the first reunion of the family in fifteen years.

Mr. and Mrs. L. O. Williams motored to Williamsville Sunday to take their daughter Lila, back to resume her duties as teacher there, this will be her fourth term teaching there.

Elmer Prindle and family came down from St. Louis to spent the holliday with the former's parents, Mr. and Mrs. Prendle.

School started here Monday, September 2 with a large attendance. We are hoping there will still be a better school than in the past.

There is to be a quartett from Anderson, Ind., here at the Church of God Tuesday night. Come out and hear some good singing.

The revival will start at the Methodist church here at Vanduser Sunday, September 8. Everyone is invited to attend.

There were several from here attended the East Prairie camp meeting last Sunday and all had a real good time.

Personal and Society News from Landers Ridge

Bill Bohannon, Raymond and Edwyna Johnson and Zelma Kem spent Sunday evening at Bertrand.

Mr. and Mrs. A. J. Heuiser and children and Mr. and Mrs. Walter Crowell spent Sunday afternoon with Mr. and Mrs. Fritz Chism and children, of Blodgett.

Mr. and Mrs. Walter Crowell spent Sunday evening with Mr. and Mrs. A. J. Heuiser and children.

HESSIAN FLY MENACE TO WHEAT IN SEMO

The Southern two-thirds of the state is in the Hessian fly danger zone and offers at the present time a threat to the wheat crop of 1936. The "Fly free date" for New Madrid county is October 18. The southern third and the southeastern part particularly are badly infested.

How to control Hessian fly and reduce its damage to a minimum:

1. Plow ground early and prepare good seed bed.
2. Keep down volunteer wheat.
3. Delay seeding wheat until "fly free date."
4. Get neighbor wheat grower to delay seeding until right time.
5. Where grain crops are to be used for fall pastures use barley or rye since the fly does not tend to build up as badly in these grain crops as in wheat.. People who plan to follow the crops department suggestion in the year round pasture program should be urged to follow the recommendations and use barley or rye.

THE BUCKNER RAGSDALE CO. QUALITY PLACE SIKESTON, MO.

Ask For Poll Parrot Money

Buckner-Ragsdale BRINGS TO WOMEN OF SIKESTON THE SHOE SENSATION THAT IS SWEEPING AMERICA!

HOLLYWOOD SAYS IT'S "STAR" STYLE!

PAULA STONE AMONG SCREEN STARS THRILLED BY RHYTHM STEP

"It's a New Sensation, So Amazingly Light! So Buoyant" . . . exclaimed smart young Miss Stone.

"Your Rhythm Step Styling is the Smartest I Have Ever Seen"

SAYS . . . FAMOUS DANCING DAUGHTER OF FRED STONE

WHEN Rhythm Step shoes made their Premiere appearance in Hollywood smart young stars agreed that this was "big time" style. But even blasé Hollywood was amazed to discover that there was something really new in shoes—a dual personality! "I'd never dream such light lovely shoes could be health shoes until I learned how Invisible Rhythm Treads support the foot at three strain points in every stride" was Paula Stone's surprised comment! Young dancing stars, who guard their twinkling toes with care, were especially enthusiastic in their praise of a shoe that could actually play the lead in style and cushion the foot so gently that you get a sensation of amazing, delightful buoyancy that really rests the foot in action. And it's a new pace in style and thrilling comfort that any smart woman can afford to follow, now!

Rhythm Step Shoes Introduce Revolutionary Comfort in the Smartest of Styles with Invisible Rhythm Treads!

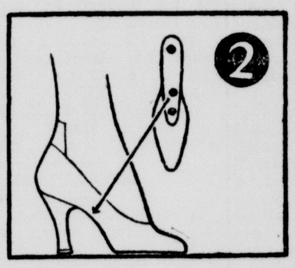

"I SEEM TO BE FLOATING ALONG! *It Takes the Pavement Pounding Out of Walking"*

How Invisible Rhythm Treads Support the Foot at Three Strain Points in Every Stride

As your heel pounds the pavement Rhythm Treads cushion the shock and protect delicate nerve centers.

As weight shifts to your arch all strain is absorbed and cushioned . . . in addition to the usual built-in arch.

As full weight centers on ball of foot the metatarsal arch is supported, keeping delicate bones in position.

ONE...TWO...THREE STEP *Is Newest Way to Walk!*

Modern pavement pounding has been ruining women's nerves, tiring their feet and entire bodies long enough, decided the makers of Rhythm Step shoes. So they invented the one, two, three step that acts as a shock absorber to the foot and entire nervous system—Invisible Rhythm Treads. Circled numbers show how your foot is protected, at the three important strain points. Gone is that tiring pound, pound . . . instead it's like walking on clouds and you can one, two, three step on Invisible Rhythm Treads for hours without feeling fatigue.

SAYS GOODBYE TO "COMFORT" SHOES LAUGHS OFF FRIEND'S WARNING!

IT'S NEWS *For the Fashion Magazines*

Announced in Vogue and Harper's Bazaar, the thrilling news of Rhythm Step shoes will be read by America's smartest women from New York to Hollywood. And now you too can wear these smart shoes that are bringing a new sensation in comfort to fashion-right women everywhere—in styles that are perfect complements to all the newest fall fashions.

Rhythm STEP STYLE and HEALTH SHOES

Starts New "WOMAN'S QUESTION"

Young women who have their eyes wide open for the latest fashions state very firmly that Rhythm Step is a style shoe. Older women who couldn't be fitted comfortably in anything but a health shoe insist it's a comfort shoe! And both are right! Daughters can walk in trim young style and actually protect their feet from the effects of strain and mothers can keep in step with daughter's idea of style, with comfort! You'll revel in the style and enjoy the comfort of Rhythm Steps—call them what you will!

Phoenix and Belle-Sharmeer Hose in all the New Shades

THOUSANDS WELCOME NEW "FREE FEELING" MINUS THAT OLD TIME "SENSIBLE" LOOK!

Tired feet or heavy sensible shoes? That's an out-of-date question with women of today! The "lure" of trim, dainty footwear is no longer a peril to foot health now that Rhythm Steps are here! In appearance you can't tell them from the frivolous affairs that were made to be looked at—and not walked in! But what a difference there is! Three extra comfort features—besides the usual built-in arch—give the foot additional support and make thick leathers, blocky heels and heavy shanks unnecessary to ease the strain of body weight. Women who have been wearing comfort shoes for years will turn to Rhythm Steps with enthusiasm. And women who demand the most dashing of styles will greet them with cheers of delight!

Exclusive with **BUCKNER RAGSDALE** SIKESTON MISSOURI

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Greer avenue from the east line of South Johnson Street, commonly known as U. S. Highway 61 to the west line of Lion Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Greer Avenue from the east line of South Johnson Street, commonly known as U. S. Highway 61 to the west line of Lion Street all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1265, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Scott Street from the south line of Malone Avenue to the North line of Gladys Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Scott Street from the South line of Malone Avenue to the north line of Gladys Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1285, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

A resolution declaring it necessary to pave, curb, and gutter North Prairie Avenue from the North line of Center Street to the South line of Lake Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Prairie Avenue from the north line of Center Street to the south line of Lake Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1276, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Moore Avenue from the South line of Hunter Street to the North line of Tanner Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Moore Avenue from the south line of Hunter Street to the north line of Tanner Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1300, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Explains Two-Bale Certificates

Special two-bale cotton tax exemption certificates will be issued to producers on those farms in New Madrid county that have produced no more than an average of two bales a year during the base period of 1928 to 1932, says County Agent Broom.

These two-bale certificates are printed on a different colored paper from other certificates and are plainly marked "non-transferable." Ginners will not accept these special certificates from any person other than the one to whom they were originally issued or to his duly authorized agent.

If any producer receiving such a certificate has any surplus certificate poundage which remains unused after his entire crop has been ginned, he may request the issuance of a new transferable certificate for the unused portion. Such a request should be made to the assistant in cotton adjustment who is located in the County Agent's office.

New Boston, a town of Mercer county, on the Mississippi River, was invaded by Mormon flies the night of July 28 and they were so thick that motorists were unable to see the front of their cars and progress was halted as the wheels says the Nauvo (Ill.) Independent. spun upon the slippery pavement, Sunday morning eleven wagon loads of bugs were hauled off two blocks—LaPlata Home-Press.

Carol Ann Barry, 7-year-old pianist prodigy of Altadena, Cal., was the victim of an unusual accident. A hunter, far up the canyon from her playground, shot and killed a bobcat. The bullet pierced the head of the animal and continued on, striking the girl in the head and killing her almost instantly.

Bank clearings again show a considerable increase. The total for leading cities for the week ended Wednesday, August 21, as reported by Dun and Bradstreet, Inc., was $5,086,968,000, against $4,191,207,000 a year ago, an increase of 21.4 per cent. For the preceding week the advance was 7.2 per cent.

SYNOPSIS: *Toni Martin, vacationing in the Sierras with her father, an author, has, with the aid of Bob Alden, a forest ranger, (now a little in love with Toni) taken a young fawn, Malibu, and a lion cub, Gato, to raise together. Her father is writing a book about the interesting experiment. Then Malibu and Gato start battling and Martin is compelled to break some bad news to Toni. She is waiting to hear what he has to say.*

DEATH IN THE NIGHT
Chapter Four

"Toni," Martin continued gravely, "do you know what Gato *really* means?" Toni shook her head. "It means, 'Outlaw — murderer!'"

Toni gasped. "But Bob said—"

"I know. But he was wrong. I happened to be looking through an old reference book just now and ran across it."

Toni's chin went up. "Well, let's forget it. It's a nice name anyway." She went to the two animals and shoved them together. "Come on now—kiss and make up. *You're* going to redeem that name of yours," she told Gato determinedly. But even as she spoke, Gato made a quick nasty little move at the fawn.

A few months later, Bergman stood before his open-front chicken coop, ruefully inspecting some recent damage to it. "If you'd a'layed them traps like I told you," he growled at Joe, "this wouldn't a' happened."

Joe pointed. "I did — but looka' here. There's his tracks. Smart, that's what he is. He stepped right over it."

Some time later Gato made his silent return again through Sang Soo's window.

"Aw—what's the use of arguin'—" Bergman said angrily, "I'm goin' out and get him.

That afternoon, in the woods, Bergman stood frowning over some footprints of a year old puma, cursing softly as he lost the tracks at the side of a brook. He looked up to see Alden on horseback nearby.

"Hello," he called. "Seen anything of a puma around here?"

The only one's I've seen are those you've collected bounty on." Alden answered. "Don't tell me you've missed one."

Bergman nodded morosely. "Yeah, and a smart one too. Raided my chicken coop last night and I'm out for him."

'About how old would you say he was?" Alden asked. His eyes had narrowed.

Bergman indicated the footprints. "I'd judge around a year from his tracks. Wish you'd pass the word along to the boys to keep an eye out for 'im. Maybe they can get a line on his hideout. I ain't had much luck."

"I'll get busy on it," Alden said, with over-readiness. "So long." He rode off, half convinced that Bergman's poacher might be Gato, and as he thought of Toni, his concern mounted.

That night Martin was lazily taking his rest on the front porch.

The peace of the night was broken however, by the even hoofbeats of a horse. In a moment Alden had ridden up, and was swinging off his horse.

"How's Toni?"

"Fine as ever."

"And — Malibu?"

Martin chuckled, sensing what Alden was driving at. "Nearly ready for high school. And — " there was a twinkle in his eye, "Gato's all right too, in case you don't care." He leaned forward. "Seriously, Bob, you'd be surprised. Gato's gentle as a kitten. Toni actually had him on a vegetable diet for a week."

Alden picked his next words carefully. "Don't you ever figure he might—suddenly *revert to type* — and hurt somebody?"

Martin gestured. "Not a chance. He's been raised a gentleman."

"A puma raided Bergman's chicken coop last night," Alden stated with studied nonchalance.

"Yes?"

"Yes!"

Martin laughed lightly. "Too bad he didn't have Gato's education." He stopped abruptly. "Listen Bob," he said, perturbed, "you don't seriously think — wait — come on over here and look at something." He drew Alden to the window.

Through it, they could see Malibu licking his chops as if in anticipation, while stretched out almost full-length on the rug, lay Gato, taking his ease.

Toni now placed three dishes of ice cream on the table, each with a burning candle in the center. "Look what I have for you gentlemen," she announced grandly, then knelt before them with the ice cream. "Happy birthday to you," she sang "and you—and one for me"

Then, as eagerly as a child, she dug her spoon into the ice-cream, and ate it with obvious relish.

Malibu was lapping away at his dish in such haste to devour the delicacy that his plate was nearly overturned. Toni reached out to straighten it. "Umm. Good," she said to him.

Then, to her complete amazement, she noticed Gato. He was watching her, a completely bored expression on his face. It seemed to say, "Such childish things are not for men like me."

She could hardly believe her eyes. "Gato!" she exclaimed, "that's ice cream." She was almost tearful. "Why you *love* ice cream!" But Gato merely turned over and yawned. 'What's the matter Gato?" Toni pleaded, "don't you feel well? You haven't eaten a thing for the last three days."

At this, Alden nudged Martin significantly.

Toni continued to rebuke Gato. "Very well," she said with simulated severity, "I am not going to *make* you eat it. And don't sulk, because the *big* surprise is yet to come." Gato just licked his left foot contemplatively. Toni now brought out a box and a toy balloon. She placed the balloon before Gato and the box in front of Malibu.

As the jack popped out of the box Malibu shied away in fright, but when Toni had opened it a few times, he began to sniff at it curiously.

Gato had turned his attention to the balloon. As his sharp claws dug into it, it exploded in his face with a loud report. He stood still, in startled surprise, then fastened his gaze on Toni.

She scratched the fawn's neck, at the same time stifling a slight yawn. 'I think it's time for all good little boys to be in bed. Off you go!" Malibu started off. "Come on." Toni beckoned to Gato who did not move. She tweaked his ear. "If I let you sleep here tonight," she said, "remember—no snoring."

When she had left, Martin faced Alden with a troubled look on his face. "Just because the poor cat didn't want his ice cream doesn't prove anything."

Alden ignored this. "See that Gato *is shut in tonight*, will you, Mr. Martin?"

"You won't say anything to Toni?"

No," Alden answered unhappily, "not until I have to. Goodnight."

It was well past midnight and the living room was alternately streaked with darkness and bright moonlight. Seemingly, the room was deserted until Gato moved out into the light. Sniffing first at one closed window and then at another, he moved against the kitchen door and opened it. Here again, he encountered a closed window. Walking away from it, his great cat's body disappeared for a moment into the darkness. Only his eyes could be seen, gleaming like red hot coals.

Now he had found the door to Sang Soos bedroom, where the Chinese cook and his baby slept peacefully. With one leap Gato was at the window sill and out of the open window into the night.

Padding swiftly over the ground, he was soon crouched on the roof of the low shed on Bergman's ranch. Some pigs could be heard squealing and stirring restlessly. With a silent feline movement Gato dived in under the shelter. The next second there was the scream of a pig in agony.

Some time later, Gato made his silent return again through Sang Soo's window. Just as he was about to pass through the door, he suddenly turned, and crawling along the baby's bed sniffed it long and carefully. Then, with a swift twist of his body, he moved lightly over Sang Soo's bed until, his eyes dilated and glistening, he brought his face down, closer and closer to that of Sang Soo.

(Gato has attacked once in the night. Is he about to justify his name of 'murderer' completely by killing the Chinese cook? Be sure to read tomorrow's thrilling installment).

NEW CAREERS FOR BREAD CRUMBS!

"Living off the crumbs" would not be such a bad living at that, since bread and its crumbs have adopted so many interesting occupations. Bread has proved to be amazingly versatile, and its long-established position on the bread plate at meals is now only one of its many interests.

This we discovered recently, by chance, when we received in the mail a new recipe book from a large manufacturer of bread. A recipe book of dishes using bread didn't sound very promising to us, but what a wide range we discovered, from canapes to bread-and milk!

There were hot and cold sandwiches, gay party favors made of bread, sauces and soups made with bread crumbs, as well as muffins, stuffings, croquettes, cutlets, fritters, casserole dishes, puddings, pie crusts, frozen desserts, baked desserts, and cookies! There were even eight recipes for toast!

One of the things that interested us most was that crumbled bread can be used to make a good white sauce, a pie crust and a frozen tortoni!

Scalded milk cooked with bread crumbs and seasoned with butter, salt and pepper makes an excellent white sauce for casserole dishes and vegetables. Bread crumbs with butter and powdered sugar make a fine pie-crust, patted into the bottom and around the sides of a buttered pie-tin and placed in a hot oven for 15 minutes. Bread crumbs also make a very fine frozen pudding, in the freezing trays of the automatic refrigerator.

It takes very little "dressing" to make bread look as though it's going to a party. When a cookie cutter and a smooth, fine-textured piece of white bread get together, you hardly recognize the result as just plain bread, especially after a pastry tube and garnishes have worked their theatrical effects.

A bowl of soup is thrice appetizing, if its butter-dapplied surface has a few crisp, golden brown croutons floating upon it. Not just squares, but interesting shapes such as diamonds, clubs and hearts can be cut out of bread with tiny garnish cutters before they are dried and browned in the oven, or sauteed in butter, or fried in deep fat.

A most attractive way to serve hot creamed dishes or an Irish stew is in the attractive bread baskets made from a whole, unsliced loaf of white bread. Cut the crusts from the sides and top of the loaf and hollow out the inside of the loaf, leaving a thick shell. Use for a filling any combination of seafood, ham, veal, pork or vegetables with white sauce which you choose, or which department of refrigerator leftovers seems to recommend. Brush outside of the loaf with melted butter before filling it with the piping hot mixture. Then place the "basket" in a hot oven until it has browned.

Little "boxes" of white bread hollowed out of two-inch thick slices, then brushed with butter and browned in the same way, are called "croustades", and make attractive cases for individual servings of any hot creamed mixture.

Baked Stuffed Tomatoes

Do not peel tomatoes. Scoop out center and cut the center meat fine. Add finely chopped onion and celery and blend in bread bread crumbs and one egg beaten light. Heat through and until egg has thickened. Stuff back into tomatoes and cover with buttered bread crumbs. Bake in moderate oven until tomatoes are tender.

Brown Betty

Put a layer of dry bread which has been broken in to small pieces in a pudding pan. Over this a layer of tart apples sliced thin. Dot with butter and springle with brown sugar and a little cinnamon. Repeat until dish is full. If bread is very dry, a little water or milk may be added. Cover tightly and bake in a moderate oven one hour. Serve with caramel or lemon sauce.

Fried Stuffed Carrots

Select rather short, thick carrots. Scrape and cook in boiling salted water until tender. Cool to handle, remove center with apple corer and stuff with the following mixture: 1 tbsp, melted butter, 2 tbsp, minced parsley, 1 beaten egg. Brown onion in butter and add other ingredients. Stuff carrots and roll in flour, then beaten egg and last the sifted bread crumbs. Brown in deep fat and serve hot.

The wife of William Larson, 47, of Chicago believes there is a limit to indulging a husband. It was bad enough when he was plain drunk around the house, but when he pawned her false teeth and spent the proceeds for whisky, she had him arrested. He was fined $200.

Some Whole Wheat Recipes

In many parts of the country people are using whole wheat, either home-grown or bought at the feed store, to help feed the family at low cost. Whole wheat is a very nutritious food, since it contains proteins, minerals, and vitamins in addition to the proteins and carbohydrates that are the chief constituents of white flour. It is recommended especially for vitamin B. To save time and fuetl in cooking, the wheat may be cracked. Perhaps the feed store will crack it. At home a coffee grinder or a meat grinder can be used. If the whole grain is used, soak it overnight and then boil gently for 3 or 4 hours to make it tender. The cracked wheat can be cooked in a shorter time and needs no soaking.

For the recipe of beef and whole wheat, cooked whole wheat is used. Cracked or ground wheat is used for the scrapple and muffins.

Beef and Whole Wheat

2 cups finely ground whole wheat.
2 tsp baking powder
1-2 tsp salt
3 tbsp brown sugar
1 egg
3-4 cup milk
2 tbsp melted fat

Melt the fat and cook the onion a few minutes, then add the meat which has been lightly rolled in flour. When the meat has browned somewhat add water. Partly cover and simmer until the meat is tender. Stir in the chili pepper and the wheat, and add salt to taste.

Whole Wheat Muffins

2 tbsp fat
4 tbsp chopped onion
1 lb of beef diced
Flour
3 cups water
1-4 of a chili pepper .
2 cups of cooked whole wheat
Salt.

Mix all the ingredients thoroughly. Beat the egg, add the milk, and stir with the fat into the dry ingredients. Do not stir the batter any more than is necessary. Bake in greased muffin pans for 25 to 30 minutes in a hot oven (400 to 425 degrees F). If desired omit the egg and increase the milk to 1 cup.

OUTSTANDING EVENTS IN U. S. NAVAL HISTORY

Battle of Jutland, May 31, 1916 —Greatest naval battle of World War. Admiral Scheer planned to reduce British Naval strength by a raid in the North Sea. A crusier bombardment of the English coast was to draw out a portion of the British fleet which would be trapped and destroyed by the entire German fleet. He planned to have zeppelins with his fleet to warn him of the approach of the British main fleet; but on the day of the battle the weather was too bad for them to operate. To avoid having his fleet destroyed by the entire British fleet, if he should meet them, he carefully drilled his ships in a maneuver in which they could retreat by all reversing their courses at the same time. Admiral Jellico was warned of the German activities by the large number of radios which they sent; and so he put to sea with the entire British fleet. On May 31, 1916 the visibility was poor and the advance forces of the two fleet met by accident. The German advance force, under Vice-Admiral Hipper, retreated, leading Vice-Admiral Beatty and his battle cruisers into range of the main German fleet. Then Beatty retreated and brought the German fleet into contact with the main British fleet. Twice Jellico started to lead his ships across the head of the German fleet but each time Scheer escaped by having all his ships reverse their courses at the same time. Both times this maneuver was a complete surprise to the British. At dark the two fleets separated and Scheer led his ships back to their base with no opposition save for a few intermittent engagements with the British light forces. The British lost 3 battle cruisers, 3 armored cruisers, and 8 destroyers, while the Germans lost only 1 battle cruiser, 1 predreadnaught, 4 light cruisers, and 5 destroyers. However, the British retained control of the sea, the loss of which would have probably meant the loss of the World War.

"Tropical Valley" in Canada's Northland Found on Flight

WINNIPEG, Man., Aug. 31—Stories which have become almost legends tell of a mysterious valley in Canada's northland where warm springs feed the verdure and there is luxuriant vegetation while all around is a wilderness of ice and snow.

Now comes at least a partial verification from Dr. Charles Camsell, deputy minister of mines and natural resources for the Dominion. He has returned from flights over the "Forbidden Territory" in the course of which he landed close to the tropical valley and explored it to some extent.

It is "forbidden territory" only because nature has closed it in with almost unscalable mountains Dr. Camsell for more than a month has been flying and mapping the territory which is virtually unexplored. Within the last 20 years there have been several single and two or three men expeditions, but they brought back practically no records.

In his latest trip, Dr. Camsell said that he not only had established the existence of a "tropical valley" but had found that there were three or four of them.

One of Dr. Camsell's principal purposes on his flights was to map the northerly end of the Rocky Mountains. It has been supposed generally that the great Rocky Mountain Range carried on somewhat indefinitely to the north, but the topographical pictures taken and the exploration work done by Dr. Camsell will show, he said, that the Rocky Mountains lose themselves in a plateau while two degrees to the east of a new range commences, the McKenzie Mountains.

Numerous construction projects to cost hundreds of thousands of dollars are being advanced in Missouri towns and cities. Columbia is planning water and light plant improvements costing $281,-000; Kirksville will build a light and power plant at a cost of $639,-000; Iron County wants a new $127,000 courthouse; Hayti plans a $40,000 sewer system; Clarksdale is asking for a city hall to cost $15,273; Cole County is preparing to build a $65,000 jail; and Gallatin wants a new high school building costing $59,968. All will be made possible by federal funds.

There were 157,058 fewer families on relief rolls in the United States in July than in June of this year. The reduction from 3,822,-252 to 2,655,194 in one month's period saved the government $9,500,-000.

For the first seven months of this year new residential construction in the United States amounted to 42,026 family dwelling units, which was 146 per cent greater than the number of home units provided in the corresponding period in 1934. This volume of residential building is more than 10,-000 dwelling units in excess of the grand total of all residential units constructed in the entire year of 1934.

MOSQUITOES CAUSE MANY DEATHS IN U. S.

Yellow fever is gone but Malaria still takes big toll—Sir Patrick Manson Estimates the Affliction causes more deaths than all other parasitic diseases combined.

Because so much publicity has been given to the remarkable eradication of yellow fever thruout the world by control of the particular mosquito which causes that disease, the erroneous belief has sprung up that mosquitoes no longer are important agents of disease, points out the American Institute of Sanitation.

"Close to 3,000 persons in the United States die annually from malaria, which is caused solely from the bite of anopheline mosquitoes whereby microscopic parasites are introduced in the body to live in the red blood cells," says the institute.

"But the death rate from malaria is no true index of the human misery caused by mosquitoes. For every person who dies from malaria there are dozens who are partially incapacitated by the affliction. A person may suffer from the disease the greater part of his life with reduction of productive capacity of 50 per cent or more, yet he finally succumbs to an entirely different ailment. Although rarely fatal, malaria undermines the constitution and resistence, with the result that the victim easily contracts other ills. Many of the chronic ailments of older age may be due to malaria," continues the institute. "Thus the death rate while impressive, represents only a fraction of the deaths that can be traced to the mosquito in this country.

"After many years study of malaria in various parts of the world, Sir Patrick Manson declared that the disease causes more deaths, directly and indirectly, than the total of all other parasitic diseases to which human flesh is heir.

"Although there are more than 1,500 species of mosquitoes in the world, fortunately only a few are carriers of disease." However, comments the institute, "the bite of any mosquito stings and is annoying, and should be avoided if only for personal comfort."

Neighborhood Personal News From Big Opening

Mr. and Mrs. Ray Pine and family of Iowa, visited Mr. and Mrs. Jodie Kem and family Monday afternoon.

Among those who shopped in Sikeston were Mr. and Mrs. Roy Crawford, Mr. and Mrs. Jerald Akers and family, Mrs. Charles Calhoun, Mr. and Mrs. Ferrell Bradford, Mrs. Mary Brown.

Mrs. Emeral Duke and Miss Ruby Brewer visited Mrs. Levi Sneed Monday afternoon.

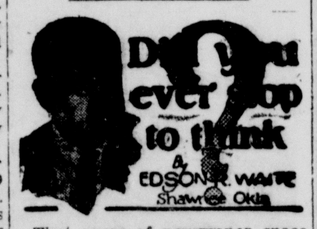

Margie York visited Mabel Moore Sunday.

Mr. Henry Yamitz returned to his home Friday night, from Flat River, where he has been transacting busines.

Mr. and Mrs. Joe Settles visited friends and relatives in this community Sunday.

Mr. and Mrs. Jodie Kem visited Mr. and Mrs. Roy Crawford Sunday afternoon.

Mr. and Mrs. Richard Pearcy and family of near Charleston visited Mr. and Mrs. Willie Pearcy and family, Sunday.

That users of newspaper space always reap good returns.

Ads produce sales.

Well written ads always give the public a good impression of the business that it advertises.

People who realize the value of a dollar always read the ads; they know they save by buying advertised goods.

People know the business concern that advertises sells the largest amount of quality goods to the greatest number of people and by having a big turnover they are able to sell at the lowest possible price.

There never was or never will be any form of advertising as good as newspaper advertising.

The greatest service in business is newspaper advertisements. They serve both the buyer and the seller.

Successful business men attribute a large amount of their success to the proper use of newspaper space.

Steady, consistent advertising backed by reliable merchandise always makes a successful business.

Time lost can never be regained. Don't lose time. Keep busy. Advertise.

W. R. Caruthers, editor of the Whitehorse (Yukon Territory) Star, says:

"Few people ever stop to think of the work that goes to make the newspaper the most effective advertising medium yet devised in this up-to-the- minute world of ours.

"A newspaper is a welcome visitor in every home because it carries such a varied and descriptive interpretation of every day and world news. Local happenings are vividly read by the hometowners at home and away from home.

"A newspaper is the most effective advertising medium because it creates a responsive reception for the advertising it carries. That people are more susceptible to the buying urge in their own paper is a factor that is many times overlooked.

"Remember—It takes time, money, effort and organization to keep the newspaper the most effective medium yet devised."

City Proposes to Pave 31 Streets Under WPA

Plans to seek approval of WPA projects for paving Sikeston streets were made this week by councilmen and residents who attended meetings at the city hall on Monday, Tuesday and Wednesday evenings.

By late yesterday, plans and specifications for surfacing a total of thirty-one streets were to be completed so that proposed projects might be submitted to the ninth area WPA office by the deadline this afternon. Curb and guttering projects will also be sponsored.

Since early last week, when announcement was made that property owners might secure cement bound macadam pavement for $1.-10 a front foot, residents have been busy circulating petitions requesting submission of projects for work on their streets. At a council meeting Monday evening ten petition were read and a movement started for securing others.

C. L. Blanton, Jr., area WPA director, advised councilmen to designate streets they want paved, to hire an engineer to prepare plans, and to determine a method of financing the property owners' share of the work.

On the recommendations of Murray Phillips, E. H. Smith, and Lynn Waggener, a committee appointed by Dr. G. W. Presnell, Harry Kerr, final plans engineer at the division office of the state highway department, and Harvey Johnson were engaged to complete measuring work and specifications for inclusion in projects to be sent to the WPA office.

A. W. Swacker, J. Otto Hahs, and Hubert Boyer, members of a finance committee, will determine a finance plan as soon as they learn definitely the projects' total cost to property owners, if they are approved and the amount that will be paid in cash at once. Tax bills will be issued after resolutions are published for two weeks if a majority of property owners does not object to the proposed paving and curb and guttering work.

No tax bill can be issued, however, until each improvement is finished and accepted by the council. Consequently, projects that are approved must be underwritten for the period between the start and completion of work since the owners' share of the total cost must be given to the works progress administration before projects can be started. Mr. Swacker intends to go next week to St. Louis to confer with loan agents about financial aid.

At Monday night's meeting, petitions carrying the names of a majority of property owners who asked that these streets be paved: Trotter from South Kingshighway to Scott; North Kingshighway from Center to Tanner; Gladys; Greer avenue; North street from North Kingshighway to North New Madrid; Park avenue; North Ranney; Matthews from South Prairie to Highway 61; Moore from Hunter to Highway 60; Kendall.

On Tuesday evening, councilmen designated these streets for paving under the WPA: North street from North New Madrid to the Frisco railroad tracks; Ruth; New street; Kathleen from Highway 61 to Lion; Kathleen from South Kingshighway to Highway 61; School from Prosperity to Dorothy; Scott from Malone to Dorothy; South New Madrid from end of the pavement to Gladys; North Prairie from Center to Tanner; Gladys from Highway 61 to Lion; South Ranney from Malone to Greer; Greer from Highway 61 to Lion; Matthews from Highway 61 to Lion; Lake from North Kingshighway to Highway 61; Harris from North New Madrid to Cleveland avenue; the alley running between North New Madrid to North Kingshighway behind the Bank of Sikeston.

When councilmen met Wednesday night to pass resolutions ordering paving done, proposals for this additional work were submitted: Widening Malone ten feet from Prairie to forty feet east of the Frisco tracks; Dorothy from New to Delmar; Williams from New to Delmar, Daniel from New to Delmar; Lake from Highway 61 to a point 400 feet east of Cleveland from Harris to North Kingshighway; the alley running behind the city hall between New Madrid and Kingshighway.

The cost to property owners of curbing and guttering along streets here will be 13 cents a front foot. Curbing and guttering projects have already been submitted to Jefferson City for a consideration are for Park, Moore, Ranney, North, Greer, Matthews, Kathleen, Ruth, Gladys Dorothy, School, Scott, New Madrid, New, Shelby, Prairie, East, Wakefield, Daniel, and Williams. Additional curb and guttering projects proposed by residents and councilmen Monday night were for all other streets to be paved except two which have curbs.

The property owners' share of the cost could be paid either when projects are completed or during a several-year period. Cement bound macadam is built by spreading and compacting coarse stone to a desired depth, filling open spaces in the gravel with cement grout, and finishing the surface as on any other concrete pavement. The cost of $1.10 a front foot is for a thirty-foot street and would include alley entrances and intersections. Residents living on more narrow streets would be asked to pay less. Labor and the remainder of the cost would be furnished by the works progress administration.

THREE GROUPS REQUEST PWA GRANTS FOR SEMO

Applications for public works administration loans and grants in three Southeast Missouri counties were received in the St. Louis office Wednesday, twenty-four hours before the deadline for submitting projects.

Cape Girardeau is seeking approval for construction of a $132,-971 sanitary sewer system; the Butler county school district, a school building to cost $38,100; and the Dunklin county school district a school structure to cost $112,700.

Oran planned this week to apply for a PWA grant of $21,000 for a waterworks system. Residents approved a $26,000 bond issue as the city's share at an election Tuesday.

Sinclair Station to Be Built Here

With the closing of a deal Thursday for purchase of the northwest corner of Center and North Kingshighway, preparations are being made for starting construction of a new service station. Workmen will begins this morning to move the former Tanner home about fifty feet north to clear the corner for the station.

Bought by L. F. Brenneisen of Cape Girardeau, the lot will be leased to the Sinclair Oil Company for erection of a building exactly like the one shown above, located in St. Louis at the corner of Delmar and Hanley. Seven weeks will be required to complete the work.

MRS. LOU BOWDEN WEDS OKLAHOMA RESIDENT

Mrs. Lou Bowden of Sikeston and Jack Robertson of Oklahoma City, Okla., were married in New Madrid last Thursday morning. Mrs. Robertson, a daughter of Mrs. Friendly Thomas of Kennett, was formerly employed at Graber's here. Mr. Robertson is a traveling representative of a stove company. Immediately after the wedding, Mr. and Mrs. Robertson left for Oklahoma City, where they will live.

MISS COLLEEN CONVERSE WED TO AMOS HARGRAVES

Miss Colleen Converse was married in St. Louis Monday afternoon to Amos Hargrave.

The service was read by the Rev. H. H. Brower, pastor of the Lafayette Park Methodist church. Mr. and Mrs. Everett Hargrave of St. Louis, a brother and sister-in-law of the bridegroom, were the only attendants.

Mrs. Hargrave is a daughter of Arthur B. Converse of San Francisco, Calif., and a granddaughter of Mrs. N. A. Martin of Charleston. She is a graduate of the Charleston high school and of a Cape Girardeau beauty academy and is now employed at Sam Graham's beauty shop.

Mr. Hargrave, a son of Mrs. Maud Hargrave, works at the International shoe factory. He and Mrs. Hargrave are now at home at 222 Kathleen avenue.

NAZARENE CHURCH WORK TO BE COMPLETED SOON

Plastering and painting at the Church of the Nazarene will be started as soon as present debts are settled, the Rev. C. F. Transue said Thursday.

The cost of remodeling now totals $3100, all of which has been paid except a $675 lumber bill. For this debt, members last Sunday pladged $400 to be contributed in next month. During the same period they will secure the remainder from additional pledges.

Crowds are rapidly increasing since carpentering work was finished recently. A congregation larger than any in three months attended strvices Sunday night.

7 TO ATTEND NAZARENE ASSEMBLY IN ST. LOUIS

Seven members of the Church of the Nazarene will leave Monday for St. Louis, where they will attend sessions of a woman's missionary society convention and of a district assembly.

The missionary society meeting will be held at the First Church of the Nazarene from Monday evening until Tuesday night, when the assembly will convene. Although the assembly will extend through Sunday, Sikestonians will return Saturday.

Members of the party will be the Rev. and Mrs. C. F. Transue, Mrs. George Johnson, Miss Marie Price, Curtis Cline, and Mr. and Mrs. Herbert Finney.

On account o f a large number of resolutions in this issue, local and personal items were left out.

Miss Marcia Weber of Bloomfield is spending this week as the guest of Mr. and Mrs. Robert Mow, Jr.

Slack Buys Corner Lot

T. A. Slack late Thursday afternoon closed a deal for purchase of a lot and a half at the northwest corner of Prairie and Lake streets. The ground was bought from Maggie Tanner estate.

The transaction involves a lot 120 by 145 feet, on which is one house. Mr. Slack plans to build three modern residences on it next spring.

Christian Ladies Aid to Meet

Members of the Christian church Ladies' Aid society will meet at the church at 2:30 next Thursday afternoon, Mrs. Glenn Matthews, the president, has announced. Thursday will be annual dues day. Plans for winter work will be discussed. All members are urged to attend.

Gust Zacher will leave Sunday for Fulton, Mo., where he will enroll in Wesminster College. He will be taken to Fulton by Mr. and Mrs. Gust Zacher.

SPECIAL MUSIC TO BE SUNG AT M. E. CHURCH

A special musical program will be given during the morning services Sunday at the Methodist church. The choir, under the direction of Mrs. R. A. Moore, will sing Jordan's anthem, "In Thee O Lord Do I Put My Trust". Mrs. Clarence Keaton of Cairo will be soloist Sunday, singing "Fear Not Ye O Isreal" by Dudley Buck.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Moore Avenue from the North line of Center Street to the North line of Malone Avenue, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Moore Avenue from the north line of Center Street to the north line of Malone Avenue, otherwise known as U. S. Highway 61, all constituting a continuous imprivement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1302, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Matthews Avenue from the east line of Prairie Avenue to the west line of South Johnson Street, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Matthews Avenue from the east line of Prairie Avenue to the west line of South Johnson Avenue, otherwise known as U. S. Highway 61, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1295, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter South New Madrid Street from the north line of South Street to the North line of Gladys Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter South New Madrid Street from the north line of South Street to the north line of Gladys Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1290, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1272, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4: That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second and third times and passed and approved this 4th day of September, 1935.

Approved: G. W. H. Presnell,
Mayor.

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter a strip 10 feet wide off the South side of the Missouri Pacific right-of-way on Malone avenue from the east line of Prairie avenue to a point 40 feet east of the main tracks of the St. Louis & San Francisco Railroad.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter a strip 10 feet wide off the south side of the Missouri Pacific right-of-way on Malone Avenue from the east line of Prairie Avenue to a point 40 feet esst of the main track of the St. Louis & San Francisco railroad, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1298, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefit therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second and third times and passed and approved this 4th day of September, 1935.

Approved: G. W. H. Presnell,
Mayor.

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Gladys Street from the Property owned by the St. Louis & San Francisco Railroad to the west line of South Kingshighway.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Gladys Street from the property owned by the St. Louis & San Francisco railroad to the west line of South Kingshighway, all constituting a continuous improvement.

SECTION 2; The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing thereon a six inch layer of crushed rock, and then placing thereon a 1½to 2 inch layer of cement. For a further and fulller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1306, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering and engineering expense shall be done at the expense of the owners of property deriving benefit therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4: That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second and third times and passed and approved this 4th day of September, 1935.

Approved: G. W. H. Presnell,
Mayor.

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter North Ranney Street from the south line of Center Street to the Missouri Pacific Railroad tracks.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Ranney Street from the south line of Center Street to the Missouri Pacific Railroad tracks, all constituting a continuous improvement.

SECTION 2; The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing thereon a six inch layer of crushed rock, and then placing thereon a 1½to 2 inch layer of cement. For a further and fulller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1305, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering and engineering expense shall be done at the expense of the owners of property deriving benefit therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4: That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second and third times and passed and approved this 4th day of September, 1935.

Approved: G. W. H. Presnell,
Mayor.

THERE'S NOTHING LIKE FINDING OUT FOR SURE

Trial of One Alleged Carlton Killer Begins

The Scott county circuit courtroom was filled Thursday morning when the state began questioning witnesses in its trial of Floyd Smith of Cape Girardeau, who is charged with murdering W. T. Carlton on May 8.

Smith is the first of three defendants to be tried on murder charges. His hearing was begun Thursday morning after a jury had been chosen the day before. By noon Thursday, four state witnesses had testified and although the state expected to complete its case by late Thursday, many believed testimony would necessarily extend into today.

A mild sensation was caused in court Thursday when Prosecutor W. P. Wilkerson and Stephen Barton of Benton, state's representatives, introduced as evidence the door and door frame thru which Carlton was shot to death. The door and frame were taken into court to show jurors how bullets were fired through the closed door into Carlton's body.

The evidence was introduced chiefly to counteract the defense contention that Smith shot in self-defense when he thought Carlton intended to kill him. Evidence at the trial Thursday was given to prove that Smith fired to kill without knowing whether Carlton had a gun. Splinters in the door were found only on the side on which Smith was standing.

Mrs. W. T. Carlton, Miss Juanita Carlton, and Mr. and Mrs. Wiley Silcox, neighbors of the Carltons, testified for the State Thursday morning, relating incidents about the murder.

Carlton, a Cotton Belt railroad pumping station operator was killed when he returned home at night and surprised men waiting to rob Mrs. Carlton of $425 she carried with her constantly. He was shot in the station as he started to open a side door into the house living room to investigate noises his wife had heard. While he lay dying, Mrs. Carlton, their daughter, Juanita and later Mr. and Mrs. Silcox, were held prisoners for more than half an hour by one bandit who made them execute various errands for him.

The day following the murder, Smith, Claude McGee and John B. Manor, and Ira Collins were arrested in Cape Girardeau and charged with the murder. Collins, Manor, and McGee made written confessions admitting the attempted robbery and the killing and implicating Smith. Later Collins was charged with burglary and larceny since he was not directly involved in the shooting.

Six damage suits filed in court against the Scott County Milling Company as an outgrowth o a collision of the Benton school bus and a milling truck last spring will be taken from the Scott court on a change of venue, probably to New Madrid county. Plaintiffs are Charles Bollinger, Jr., Leola Bertrand, James M. Kurn, Harold Woolridge and R. H. Venable .

WPA DISTRICT REQUESTS AID FOR PENSION BOARDS

A project for old age assistance clerical help in the ninth area has been approved in Jefferson City, Matthew S. Murray, State WPA administrator, announced Wednesday. The district has asked a grant of $7032, furnishing eight man years, for assistants to aid county boards in their work. Final approval must be secured in Washington.

Among other projects Murray has recommended are two in Cape Girardeau: a home-making project involving $2054 in federal money and furnishing thre e man years; and razing the old Lorimer school building and grading the grounds. The grant sought for this project is $19,248. It would furnish thirty-seven man years.

By this week Murray had approved and sent to Washington 450 projects to cost a total of $54,739,093 and to furnish a year's work for 79,045 persons. Statewide projects costing $37,330,230 constitute the largest unit.

Included in it are projects for repairing the state capitol and eleemosynary and penal institutions; state park improvements; professional and clerical aid, state planning board research; educational work; national guard armories; sewing centers; and farm-to-market roads.

Thirty-one projects involving a cost of $2,303,769 and furnishing 4338 man years in the ninth area have been approved by Murray. Only one other district in the State at Kansas City has had projects approved totaling more money. Rapid co-operation of C. L. Blanton, Jr., area WPA director, with the Jefferson City office is responsible for approval of such a large expenditure.

The SNAPSHOT GUILD

Prove Your Angling Ability

TODAY'S Snapshot Guild is directed to all wives, husbands, daughters and sons who follow the great outdoor sport of fishing. What has fishing to do with amateur photography? Just this. The Chicago Izaak Walton League, according to news dispatches, has included in its curriculum, in the fishing school conducted in Wisconsin, a "course of truthfulness." War has been declared against the angler who persists in telling about the "big one that got away." The law of the Izaak Walton League of Chicago regarding this phase of the art of fishing is very brief and to the point. Here it is. "Get your fish, *take his picture* or keep quiet."

No one in particular is being accused of telling little white lies about the "whopper" that got away but Chicago's Izaak Walton League law should be recognized throughout the country. "The old adage about the cake might be revised to—"You *can* have your fish and eat it too" for although the fish may end its days in frying pan or broiler, a picture of it will live forever.

There is one thing to remember in taking snapshots on fishing trips. Just as you use different kinds of bait for catching various species of fish so you must vary your methods of taking snapshots under different lighting conditions.

Suppose, for instance, that you are deep sea fishing or out in the middle of a lake under the glare of a mid-July sun. One of your party gets that long-hoped-for jerk on his line. If you have one of the average folding cameras it should be ready for action with the diaphragm opening set at *f*.11 and the shutter speed set at 1/100 of a second. This setting of the diaphragm and shutter will serve two purposes. First—you will have the proper exposure and second—at 1/100 of a second you will stop the action as your lucky angler friend pulls the fish out of the water and into the boat.

If you have a box type camera use the second stop opening. In snapping the picture with this type of camera you will get the best results if you wait until the fish is safely in the boat and then snap the picture after the catch and when your subject is not in motion.

Let me caution you, however, against a common error. Don't forget to set your camera for distance if it is of the focusing type. If you have a fixed focus camera don't get closer to your subject than about eight feet unless you use a portrait attachment.

Now—suppose you are fishing on a river where the trees obstruct much of the light. Snapshooting under such conditions requires a different technic. Unless you have a camera with an *f*.6.3 lens or faster you had better forget about fast action pictures and confine your efforts to taking your subjects when not in rapid motion.

If you have a box type camera you should open it to a large stop and with the average folding camera open the diaphragm to *f*.8 or *f*.11 and set the shutter speed at 1/25 of a second. And remember—"Get your fish, *take his picture* or keep quiet."

JOHN VAN GUILDER.

"Distortion is possible if you want it (left) or it can easily be avoided"

WHAT would your girl friend or wife say if you made your appearance with her picture after the Sunday outing, showing her with enormous feet such as those in the picture to the left?

War would probably be declared when you made the familiar statement, "Well, dear, the camera never lies." But the truth is that the camera *didn't* lie for it caught just what the lens saw.

Evidently the amateur who took this picture held the camera quite low, and probably less than three feet from the two feet of the attractive young lady. Her head and shoulders were at the right distance from the camera to give good perspective but her feet were perhaps thirty-six inches nearer the lens.

Perspective in a picture is determined by the point of view from which the lens makes the picture, so after all the camera did not tell a little white lie, but portrayed exactly what it saw and just about what the eye would see if one looked at the subject from the same point of view.

True, this is a much exaggerated example of bad perspective, but in making portraits, or indeed, "close-ups" of any object, we should be careful to see that no part of the subject is very much nearer the camera than the rest.

In making portraits we are sometimes likely to permit our subject to place a hand well forward on the arm of the chair. If working within three or four feet from your subject the hand will appear abnormally large. Better have the hands in the lap in a natural position and close to the body, with most of the fingers folded under.

Now you should know how and how not to get distortion in your portraits so let your conscience be your guide.

JOHN VAN GUILDER.

RECOVERY NOTES

Compiled by Dwight H. Brown, Secretary of State

Mexico, Mo., is enjoying a building boom. A $500,000 construction program is now under way in that city, the building industry there experiencing its busiest season in years. Incidentally, Mexico is without a vacant store building at the present time.

Reprts of 260 industrial corporations for the first six months of 1935 showed combined net profits less deficits, of $313,000,000, as compared with $265,000,000 a year ago, a gain of 17.9 per cent. The annual rate of rteurn over the same period was 6.5 per cent, against 5.5 per cent a year ago.

The National Forest Reservation Commission has authorized the purchase of 117,753 acres of forest land in the eight National Forest units of Missouri, announces Paul Kelleter, State Forest Supervisor. The land will cost the federal government $313,160.

Car loadings of revenue freight for the week ending August 24 totaled 514,973 as compared with 506,640 a week ago and 501,319 in the same week a year ago. Virtually every road reported a gain of loading durink the week.

Better times are seen in the near future by Jerome D. Barnum president of the American Newspaper Publishers' Association. "There are definite signs of an upturn for fall in manufacturing and retail lines," he says. "The emergency is over. Business can now go ahead just from the natural demand for goods."

The Missouri State Building Commission has approved plans for a $170,000 administration building at the Algoa Reformatory and work will start on the new structure in the near future. Other projects under consideration are a $52,000 cottage at the Carrolton Children's Home and the fireproofing of two ward wings at the St. Joseph State Hospital at a cost of $107.000.

Business failures in the United States continue to show a falling off. The total for the week ending August 22, as reported to Dun & Bradstreet, was 198. These figures compared with 203 in the preceeding week and 218 for the corresponding week in 1934.

St. Louis, Mo., Sept. 4— Jimmie Wilson's battling Philadelphia Phillies, whose victories over the New York Giants during August were of material aid to the Cardinals in their recent spurt to first place in the National League pennant race, will come to Sportsman's Park next Sunday (September 8) for a double-header. The Phillies will also meet the Cardinals on Monday, Tuesday and Wednesday of next week, playing single games.

Although the Cardinals have won 12 out of 17 games from the Phillies this summer, Jimmie Wilson's men have provided plenty of tough opposition for the World Champions and are regarded as far from easy marks.

The Phillies show a lot of power when traveling at top speed and are expected to furnish some close battles here.

Philadelphia will be preceded at Sportsman's park by the Boston Braves who complete their stay here with single games on Friday and Saturday of this week.

The Giants will follow the Phillies here and will be the only team to come to Sportsman's Park this month with a clearly defined edge over the World Champions with a record of 11 victories against 7 defeats. This series promises to be a high spot of the entire season.

The Cardinals will meet the Giants in single games on September 12, 13, 14 and 15, the final game coming on Sunday.

The Brooklyn Dodgers will come to St. Louis next, to play a five game series. The Cinminnati Reds will follow for three games, completing their stay with a double-header on Sunday, September 22. The Pittsburgh Pirates will then pay their second visit of the month, coming here for single games on September 23 and 24. The Chicago Cubs then move in to play single games until the end of the season on Sunday, September 29.

Because of the heavy demand for tickets during September, a special long distance telephone line has been installed in the Cardinal ticket office for the convenience of out-of-town fans. Fans living at a distance can make their reservations by calling Long Distance 99.

Car Catches Fire in Collision

A Plymouth coach driven by E. C. Pancoast, an employe of the state highway department, caught fire Wednesday afternoon when it collided at the corner of Malone avenue and North New Madrid street with a model A Ford driven by an International shoe factory worker. The accident happened as Pancoast started to turn south into New Madrid. Both cars were slightly damaged, but flames in Pancoat's machine were extinguished before members of the fire department arrived.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Harris avenue from the west line of New Madrid street to the South Line of Cleveland avenue.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as Follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Harris Avenue from the west line of New Madrid Street to the south line of Cleveland Avenue, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1282, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter North Street from the west line of North Kingshighway to the east line of North New Madrid Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Street from the west line of North Kingshighway to the east line of North New Madrid Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1280, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, publish in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Scott Street from the south line of Gladys Sreet to the North line of Ruth Sreet.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Scott Street from the south line of Gladys Street to the north line of Ruth Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1287, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter North Ranney Avenue from the south line of Tanner Street to the north line of Center Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Ranney Avenue from the south line of Tanner Street to the north line of Center Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1281, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Gladys Street from the East line of South Kingshighway to the west line of South Johnson Street, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Gladys Street from the east line of South Kingshighway to the west line of South Johnson Street, otherwise known as U. S. Highway 61, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1284, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Scott Street from the East line of North Kingshighway to the West line of North Ranney Street, all constituting a continuous improvement.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Scott Street from the south line of Gladys Street to the South line of Dorothy Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1283, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Lake Street from the east line of North Kingshighway to the West line of North Prairie Street.

Be it resolved by the city council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Lake Street from the east line of North Kingshighway to the west line of North Ranney Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1263, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

NEW WHEAT PLAN IS SAFE

Is So Characterized by Davis, Chief of the Triple-A

In announcing last week that the new wheat contract would call for a reduction from the base acreage of 15 per cent, Chester C. Davis, Administrator of the Agricultural Adjustment Act assured farmers that they need feel no hesitation about signing the new contract because of court cases pending which involve the Adjustment Act. The contract is expected to be ready in final form some time this month. As soon as the contract is available, it will be explained to New Madrid county farmers, according to County Agent Leslie B. Broom. Several reasons why farmers should feel free to sign contracts were emphasized by Mr. Davis as follows:

First, the new amendments to the adjustment act, as passed by both houses of Congress, specifically enact the rates of the processing tax, thus meeting fully the question of delegation of legislative power, which was decisive in every instance in which lower courts held the processing tax provisions of the original act unconstitutional.

Second, the provisions of the new contract permitting termination by the Secretary of Agriculture at the end of any year, and allowing grower withdrawal at the end of the first two years, give ample machinery for ending the program in the event of an adverse decision by the Supreme Court.

Third, signers will be fully protected as to compensation for actual performance of compliance with the contract, up to the time of termination.

"The Government would have both a moral and legal obligation to compensate farmers for performance up to the date of such a decision," Mr. Davis said. "The Government, in fairness and honesty, would pay, and legally would be bound to pay in full for their compliance up to that time, but not beyond that time."

56 BABY SNAKES MET DEATH WHEN MOTHER WAS CRUSHED

When A. G. Booker ran over a snake Monday morning, he had no idea he was to bring about the death of some 56 other reptiles, but on getting out of his car to view the 46-inch long water mocassin, he saw som smaller snakes crawling from the body of the mother snake. His curiosity was aroused and he began counting his little snakes as they came out, and altogether there were 56 of them, all about 11 1-2 inches long. Mr. Booker gathered all of them up in a bucket and brought them into town. With him in his car at the time were his father, T. M. Booker, and a son-in-law, A. D. Hawkins. Sam White and Marshall Gilliam were in a wagon at the bridge over Ditch 75 when the car ran over the snake and witnessed the unusual spectacle. The men all live about 2 1-2 miles southeast of Kennett on "Hemphill Deadening."—Kennett Democrat.

NUDE WOMAN RESCUED IN LONG ISLAND SOUND

Bridgeport, Conn., Sept 2 — A nude woman, swimming but nearly exhausted was rescued by two fishermen far out in Long Island Sound yesterday before dawn. She was four miles from shore.

Police said the woman told them she was Miss Alice Wetzel, 30 years old, and had lived in New York, that she was married and has one child. She refused to say where her husband and child were and would give no other information. She said she went in swimming at Seaside Park, nearly six miles from the scene of her rescue, shortly after midnight but did not explain her action in swimming so far into the Sound. She was taken to Bridgeport Hospital.

FIRST BALE GINNED AT SENATH MONDAY

Bertig's Gin at Senath ginned the first bale of cotton in this county for the 1935 season on Monday. The 1565-pound load of cotton, grown by W. D. Campbell of near Senath, ginned out a 485-pound bale.

Two bales of cotton were ginned on Monday by the Southern Gin Co. gin at Bakerville, the cotton being grown by J. W. Morgan and Harry Robbins, sharecroppers on the Bert Richardson farm, south of Bakerville.—Kennett Democrat.

Girl Rider Is Greatest Of All Equestriennes

HARIETTA, FAMOUS EQUESTRIENNE, AND KI KI

Less than 20 years of age yet the greatest of all the equestienne stars in Spangleland. That is the way "Who's Who" in the realm of "white tops" characterizes Harietta, the dainty Viennese girl whose breath-taking accomplishments on the back of a galloping horse eclipses all riding achievements in the circus world.

The list of Miss Harietta's accomplishments is a long one, but there are two things in which she excels. She is the only rider among either women or men who can do a "forward somersault" on a running steed.

Harietta is of a family of famous riders who compose what is known in the cities of the Austria-Hungary as the "royal riders of the ring". She will be seen in solo riding numbers in which she will perform her most difficult feats, when the Cole Bros.,-Clyde Beatty Circus exhibits in Sikeston, Saturday, September 14.

Harietta will prove the star of a score of other riders who will appear from time to time. Spectators will see her perform somersaults from one galloping horse to another and see her jump to the back of another etshrdluetaoshsn back of others going at swiftest pace with her feet tied in market baskets. And through it all she will smile, smile and smile again. Miss Harietta will appear early in the program. First will come the tremendous spectacle of romance and chivalry, the "Serenade of Spain," with a cast of nearly 1,000 characters. It is the biggest spectacle ever produced in America.

An immense street parade, nearly three miles in length with scores of elaborately carved and gilded allegorical floats and tableau wagons together with nearly 500 horses, will be seen on the downtown streets at 11 a. m., circus day. There will be five trumpeting bands, five herds of elephants and two caravans of humping Siberian and Asiatic camels. Doors to the big show will open at 1 and 7 p. m. The big show starts promptly at 2 and 8 p. m.

NOTICE OF ADMINISTRATION

Notice is hereby given, That Letters of Testamentary on the estate of Amanda J. McKinney, deceased, were granted to the undersigned on the 21st day of August, 1935, by the Probate Court of Scott County, Missouri.

All persons having claims against said estate are required to exhibit them to me for allowance within six months after the date of said letters, or they may be precluded from any benefit of such estate; and if such claims be not exhibited within one year from the date of said letters, they shall be forever barred.

Hazel McGinnis, Excutrix.

Witness my hand and seal of the Probate Court of Scott County.

O. L. Spencer,
Probate Judge.

MILLIONS FOR MISSOURI FARMERS FROM THE AAA

Rental and benefit payments totaling $28,202,878 were made to Missouri farmers cooperating in the agricultural adjustment program during the fiscal year ending June 30, the AAA offices at Washington announces. Signers of corn-hog contracts received $24,293,389 of the Missouri payments. Other payments were as follows: Cotton, $2,237,476; wheat, $1,552,911, and tobacco, $119,100.

The Sikeston Standard $2 per year

Harold Litke, 28, a Chicago gardner, was cycling along the Des Plaines River bridle path when at a turn in the lane he suddenly encountered an equestrian. In order to avoid a collision, he swerved to the right and he and his bicycle catapulted into the river below. His clothes became entangled in the wheels of the vehicle and before guards could reach him he was drowned.

There can be only one FORTUNE'S

—and here's why!

It takes more than fine ingredients to make ice cream like Fortune's. It takes years of experience in blending and freezing by exclusive Fortune methods. This is what gives Fortune's that delicious, distinctive flavor that makes it the daily choice of thousands.

Hollywood Star-Lites

By Chuck Cochard

Hollywood, Calif., September 4—Where do the movies stand right now on color?

Color pictures seem to be definitely on the upgrade in Hollywood. A few knots have yet to be untied, but if these are accomplished you can expect to see the movies adopt color on a large scale.

Color on the screen is, of course, constantly improving and certain producers are convinced of its great future, especially those persons producing short subjects. Harold Lloyd says "The difficulties of photographing color are more than technical. It is necessary to know as much about color as a mural painter. You must avoid disharmonies. If certain matters pertaining to the high cost of colored pictures can be adjusted and this film adapted to studio needs, universal color will soon sweep the screen the way sound did in 1928."

Will Rogers' memory will be perpetually commemorated at the 20th Century-Fox studios where the beloved star worked. By the decision of Rarryl F. Zanuck, vice-president, the new $200,000 sound stage now rising at the Westwood Mills studio will be dedicated to the late Will Rogers.

STAR-LITES — Jeanette MacDonald and Nelson Eddy, the screen's newest singing pair of "Naughty Marietta", will be paired again in what yours truly believes is a "natural". I mean the operetta "Rose Marie" . . . The platinum blonde "pluse increaser", Jean Harlow, tells me she's all thrilled about changing the color of her hair for her new picture, "Riff Raff", in which she is co-starred with Spencer Tracy. She can't decide whether she wants to be a red head or a plain brunette. Personally I think she'll have her hair turned a soft brown . . . The recent heat wave in Hollywood caused Carole Lombard to go stockingless throughout her latest picture "Hands Across the Table". Her skin is so tanned that the camera cannot detect their absence.

BEAUTY HINTS BY JEAN HARLOW—Miss Harlow says that it is a matter of studying yourself in order to keep beautiful in spite of strenuous work. She said, "In matters of food, exercise, recreation, and sleep you have to determine just how much you can take—and how much you can go without." In Jeans diet her don'ts are potatoes and breads. In place of bread she eats Melba toast or rye crisp. Here's her diet:

Breakfast: Fruit juice, coffee, rye crisp and an occasional soft boiled egg.

Lunch: A clear, vegetable meat broth.

Dinner: Two vegetables, a salad, either meat or cottage cheese, a dessert of fruit.

Setting up exercises are tabu with Jean. Golf, tennis, swimming, and dancing are her favorite exercises. Next week Jean Harlow will reveal the secrets of how she keeps her lovely complexion.

DO YOU KNOW: That Fredric March, who plays opposite Greta Garbo in "Anna Karenina", started his career as a commercial photographer's model? He and Norma Shearer first met when both posed for the same artist.

ON PARADE: Mae West just smiling when questioned about who gave her that gorgeous diamond bracelet for her birthday . . Shirley Temple has arrived home from a vacation trip to Hawaii with her parents . . . her next will be "The Littlest Rebel" . . . Dick Powell is taking singing lessons. "I'm not studying to be another Lawrence Tibbett" he explained to me, "but I am taking singing lessons to improve my crooning. I'm a microphone crooner and that's what I want to stay."

INSIDE GOSSIP: That world famous motion picture star I mentioned last week is none other than Mary Pickford and the object of her affection is Buddy Rogers, orchestra leader and film star.

What two famous stars, who are considered the latest screen combination, skipped off to Santa Barbara last week end to do some personal shopping? The young lady is now wearing a large diamond ring, but refuses to answer when asked about who gave it to her. Wait till next week. Thats all for today. Cut.

MAXINE SELLARDS TO COMPETE IN NEIGHBOR DAY QUEEN CONTEST

Miss Maxine Sellards, a senior at the high school was chosen Tuesday morning as Sikeston's candidate for the Benton neighbor day queen's crown. Miss Sellards was selected by her classmates.

This (Friday) evening she will compete for the title of queen at the Scott county courthouse with other high school sudents from throughout the county. The successful candidate will preside at the neighbor day celebration in Benton, October 3.

Miss Henrietta Moore is the only Sikeston resident who has been selected queen during the ten years of neighbor day's existence. Miss Moore reigned in 1932.

This afternoon, members of the Sikeston high school band will give a short concert in Benton.

Softball Game Called Off

The Sikeston-Cape Girardeau Lions clubs softball game, scheduled for Tuesday, has been called off, according to Clay Mitchell. The action was taken because of work which will be done immediately on the high school athletic field for the opening of the football season.

Mr. and Mrs. J. Ben Blanton, Mr. and Mrs. Gilcrest, and Mr. and Mrs. Banroff Terry of Kansas City were the week-end guests of Mr. and Mrs. C. L. Blanton, Sr.

Big Show That Is Truly Different

Presenting Very Latest in Sensational Circus Acts

The "World's Best Amusement Institution"—thus it has been officially acclaimed. Internationally famous, favored beyond all compare, Sterling Brothers Circus and Capt. William Seils Trained Wild Animal Shows Combined stands by itself as a gigantic entertainment for circus patrons. The merging of these two great shows comes as great news. To the Sterling Brothers, sole managers and directors of this Great Enterprise, the consolidation stands as the realization of a life-long ambition; to gather all that is wonderful and all that is novel in circus achievements into one vast ensemble and present it on a single program.

Day after day, in town after town, the Combined Shows exhibit such marvels as the world has never seen before. Fifty cars are required to transport its thousands of wonders. Yet with all the immensity of it—in spite of the fact that Capt. William Seils Trained Animal Exhibition has now been added for good measure—all is presented for the price of one single admission ticket!

The Seils-Sterling Circus has come to be the accepted circus. It is the standard circus, the all satisfying circus. The public turns to it for its amusement. The newspapers of America devote many columns each year describing the marvels of it, and often dwell upon its many wonders on their editorial pages. It is a circus that is truly different.

Miss Rose Heller, "Riding Sensation of the Age', will give local circus fans a thrill when Seils-Sterling Circus plays Sikeston on Monday, September 9, afternoon and night.

The newest European sensation first time in America and can only be seen with this all feature circus. Mlle. Donzelle, in her daring graceful and difficult achievement, The Plunge of Death.

Personal And Society Items From Morehouse

Mr. and Mrs. Harry Chatron and children of St. Louis visited the latter's parents, Mr. and Mrs. George McFarling, over the week end.

Mr. and Mrs. Clifford Pinkstaff of Risco and Miss Edna Evans of Cape Girardeau visited his parents here Saturday, and called on Mrs. Lucretia Vick.

STRIKE OF COTTON PICKERS THREATENED

MEMPHIS, Tenn., Sept. 2—H. L. Mitchell, secretary, said today the executive council of the Southern Tenant Farmers' Union had decided upon a strike of day labor cotton pickers, but growers evidenced no concern over such a move.

Mitchell said the union did not set a definite date for ta walkout but left that up to local srike committees. He said that 11,186 of 13,500 union members answering a questionnaire voted in favor of a strike and 450 opposed it.

Workers in Arkansas, Oklahoma and Texas would be affected, he said.

At Burdette, Ark., however, J. S. Tompkins, a cotton grower said, "I don't think we're going to have any trouble at all." Of the strike he said, "We haven't heard anything about it.'" No day labor picking will start for about 10 days in that area, he reported.

It was reported that cotton picking wages of $1 per 100 pounds would be asked for. Cotton pickers, said the union leader, have been offered from 50 to 60 cents per hundred pounds of picked cotton this year, with some planters offering up to 75 cents.

Mr. and Mrs. H. G. Cathy, Judge and Mrs. X. Caverno and Miss Ellen Caverno of Canalou shopped in Sikeston Tuesday.

Sikeston's thirty-mile-an-hour speed limit on city streets will be enforced, councilmen decided at a regular monthly meeting Monday night.

C. C. Buchanan, who appeared at the session to deplore speeding on Kingshighway, said that frequently motorists travel as fast as 75 miles an hour on the street.

Councilmen plan to secure speed limit signs soon for erection on Kingshighway near the north and south city limits. Officers will be instructed to watch Kingshighway, Greer, Tanner, and other often traveled streets for violators of an existing ordinance, which prohibits driving more than thirty miles an hour on all streets within the city limits. Fines of from $1 to $50 and costs may be imposed on violators.

The Screen Reporter of Cape Girardeau

H. & L. Drug Store

PERSONAL

Mrs. Fern Vick, who had been visiting here for a few days with Mrs. L. L. Conatser, returned to her home in Bernie, Wednesday.

Mrs. E. A. Deaver and daughter, Miss Meryl Miller, of Illmo, visited here yesterday (Thursday) with Mrs. C. M. Taylor.

Miss Deloris Appell went to Oran last Friday where she will attend school. Miss Appell had spent the summer in Sikeston with her parents, Mr. and Mrs. Clifford Appell.

Mrs. H. L. Boaz of Parma is spending this week here with her daughter, Mrs. L. L. Conatser and family.

Edward Allard left Wednesday morning for Fulton, Mo., where he will attend Westminster College this school year. M. M. Beck, III, and Merlyn Taylor went as far as St. Louis with Mr. Allard, thence to Columbia to be present at rush week. They expect to return home the first of next week.

Mrs. Dora Suvers, Mrs. Ruby Hamby and son, Jesse Lee, were in Oran, last Friday, visiting Mrs. Jas. Snider and family.

Mrs. J. J. Reiss and daughter, Miss Audrey, went to Ironton, Sunday to attend the funeral of Mr. Standley, held there that afternoon. Mr. Standley was the father of L. D. Standley of this city.

Mrs. Lydia Stevens of Cape Girardeau is here this week, visiting her son, C. J. Stevens, and family.

Mr. and Mrs. L. L. Conatser, Mrs. C. E. Felker and son, John Russell, and Mrs. Fern Vick of Bernie attended the Duquoin (Ill.) fair, Monday.

Miss Sallie Hudson of Dexter spent the week-end here with her sister, Mrs. C. J. Stevens, and family.

Mr. and Mrs. Linnie Kernell and children and Miss Jessie Stacy spent the week-end in Paducah, Ky., visiting with relatives.

The Auxiliary of the American Legion will hold their regular meeting with Mrs. Loomis Mayfield, Friday evening, Sept. 6. All members are urged to attend as a report of the State meeting held in Columbia will be given.

Mrs. Clifford Appel surprised her daughter, Miss Deloris, with a farewell party, on last Friday evening, Miss Appell leaving later for Oran, where she will attend school. She received several nice gifts. Those present were Misses Joan Burrow, Mary Lou Nickel, Frances Oliver, Venita Noyes, Jewell Bishop, Colleen Williams and Pauline Bratton.

Edward Allard left Wednesday morning for Fulton, Mo., where he will attend Westminster College. He was accompanied to Columbia by Merritt Beck, Jr., and Merlin Taylor where Beck will attend Rush Week activities at Missouri University.

Mr. and Mrs. Paul Jones left by motor Wednesday afternoon for Hot Springs, Ark., where they will stay a month. Mr. Jones was released Monday from the St. Francis hospital in Cape Girardeau after receiving treatment for a hemorrhage he suffered Saturday.

Miss Elizabeth Schulzke of St. Louis arrived here Wednesday and Mrs. Emma Duncan and son and Mrs. Nellie Frawley and daughter of Chicago came Thursday for a visit of several days as guests of Mr. and Mrs. R. D. Mow and daughter, Miss Marjorie. Miss Schulzke was the former roommate of Miss Mow at William Woods College two years ago.

E. H. Heller returned Monday morning from St. Louis, where he had been visiting his mother, Mrs. Edward Heller, and his five children. Mr. Heller also went to Troy, Ill., to see his wife, who is staying at the home of her father, A. F. Rieder.

THE "TWO WITNESSES"

By Elder John B. Huffman

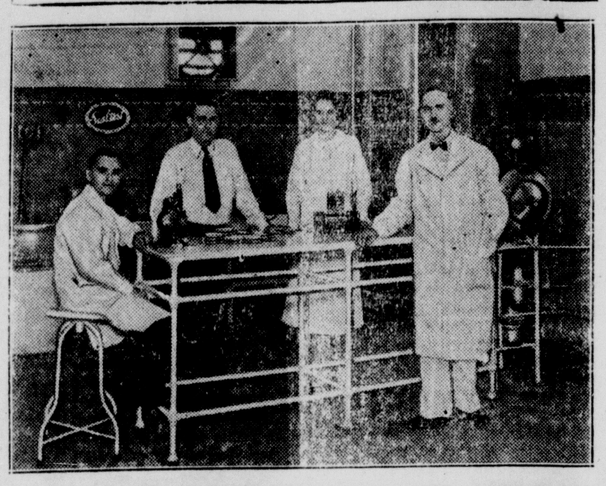

Elder John B. Huffman says he will lecture on the streets of Sikeston, Saturday afternoon, September 7, 1935, in the little park in front of Sterling's store, in Sikeston, Mo., on "The Two Witnesses" of Revelation, 11th chapter. This is very important and all Bible scholars should not fail to hear this lecture, he says.

Saturday afternoon, September 14, Elder Huffman says he will lecture on the streets of Sikeston again on "The Second Coming of Christ".

Everybody invited to attend these Bible lectures. He says, if you don't know it all you might obtain some knowledge about the deep things of the Bible.

All services commence at 2 o'clock. Everybody invited.

Ice Cream Now Manufactured Under Laboratory Supervision

Testing for Quality and Flavor. An Ice Cream Laboratory of the Sealtest System Laboratories, Inc.

2,500,000,000 Pounds of Milk Needed to Make America's Ice Cream

MANY a child has thought of perfect happiness in terms of a bottomless dish of ice cream. Frozen desserts have been cherished ever since they first tickled the palates of Christian warriors during the Crusades.

But today's ice cream, tested, checked, and supervised for quality and purity, is not merely a delectation to the taste, it is a nutritious product rich in food value. With the basic ingredient milk—in the form of cream—this frozen confection is particularly rich in vitamins A and G, proteins, carbohydrates and many minerals—notably lime and iron. Vitamin A is important in "toning up" the body—and mineral matter is required for healthy teeth and strong bones. Doctors have long recognized the merit of ice cream as a well-balanced food and prescribe it frequently for invalid diets.

The popularity of ice cream can be measured by the amount of milk needed to make this favorite American dessert. Last year some two and one half billion pounds of milk, the yearly production of 280,000 fairly high-producing cows, reached consumers in the form of sodas, sundaes, pie a-la-mode, and ice cream cones.

MUST RECORD TRANSFERS

Tax Exemption Certificates Are Otherwise Void

The transfer or assignment of cotton tax exemption certificates must be recorded in the office of the assistant in cotton adjustment says County Agent Broom. Otherwise these certificates are invalid and will not be accepted by ginners in lieu of the tax payment. The assistant in cotton adjustment may be found at the county agent's office.

It is the duty of the assistant in cotton adjustment to take up the certificate to be transferred or assigned and to issue instead a new certificate in the name of the person to whom the certificate is to be transferred. Ginners will not accept certificates from any person other than the one to whom the certificate was originally issued or reissued.

Any certificate which is transferred without recording is subject to cancellation. In the event of cancellation all persons who were a party to this action or to the acceptance of such certificate in lieu of the tax are responsible for the full payment of the amount of the tax.

Individual producer sales of exemption certificates, as well as purchases from the national surplus certificate pool, are to be made at 5c a pound. Payment at this rate in the case of individual producer sales must be witnessed by the assistant in cotton adjustment.

Those Movie Trailers

You would have no reason to suspect it, but motion picture exhibitors have to pay for the trailers—those between-the-features advertisements on the screen—by which spectators are told about the excitements of the coming films. Among patrons of films one seldom hears a good word for these trailers. "They are enough to drive one out of the theater" is the most frequent comment. Others say: "I saw the trailer and knew that I didn't want to see that film."

Far too often these trailers give a sensationalized notion of the coming film, a notion that is all out of proportion to the picture's contents. Some are so freakish in assembly as to be dizzying to watch. Such trailers are a detriment to the thing they are supposed to advertise. One might suppose that the theater managers would at least receive these advertisements without charge. But no. They have to pay for them. $1.50 apiece. It is even reported that presure is applied to exhibitors to make them take the trailers. It would seem that something should be done about that.—Christian Science Monitor.

Statistics on the lumber industry continue to show up favorably, according to the National Lumber Manufacturers' Association, each week since the start of the third quarter production showed gains over the preceding week. Shipments for the week ended August 17 were the highest for any week. Shipments for the week ended August 17 were the highest for any week since 1931, barring two periods in April. Production was the heaviest reported for any week since June, 1931.

Announcement--

We wish to announce to our former patrons and friends that we have again opened a grocery and market in our old stand, Olive and Daniel streets. We will as in the past handle a complete line of

STAPLE AND FANCY GROCERIES, FRESH AND CURED MEATS, FRESH EGGS, ETC.

Our stock of groceries and meats will be the highest quality and sold at the lowest prices consistent with quality merchandise.

THE EDITOR SAYS—

Let me tell you about the fish fry to be given in Malone Park Friday of this week beginning at 5:30 o'clock. The managers have pledged their word to have sufficient facilities to cook the fish to a turn, to keep it hot until server, and to serve their patrons in order as they come. Before the church people were so rushed and crowded they couldn't give the proper attention to their patrons. Rev. Collins and his wife will watch over the fish fry and promise the best of service and invite a liberal patronage as the money will go toward paying the note they owe on their church.

* * *

The Standard editor was doing a rushing business as long as the old-age assistance application blanks held out. From Tuesday morning until 9:00 Wednesday forenoon 116 of these blanks were givtn out in this office and the supply exhausted. However, a new supply has been called for and there will be sufficient to fill all requests long before the money is available. The Board will meet in Benton Tuesday next, at 1:30 o'clock to pass on applications presented.

* * *

It is with regrets that we have to make a few caustic remarks about quite a few of our laborers of the city who we have been told are doing considerable knocking and criticizing of the official force who they class as "white collared force who draw good pay for doing nothing", while they are not permitted to do "stout backed work." In every undertaking of any magnitude it is necessary to have an organization to prepare plans for the work to be done and especially when the Federal Government is paying the bill. When the four billion dollars appropriation was made available at Washington it was necessary to have organizations throughout the land to handle the projects for which the money was to be used. These district organizations, such as we have in Sikeston, is one of many to handle all projects in the counties composing the districts. The white collared force in the office here was organized to handle the projects in the eight Southeast Missouri Counties, and they have got to perfect the plans before they are sent to the main office in Jefferson City for approved there then to Washington for final approval. This white collared outfit is the busiest place you ever visited and some of the force has been putting in 18 hours a day to get the project plans ready in order to put our laborers to work. To criticise them is wrong and we believe the majority of the laborers are not doing so, but do hope work will soon be available. We believe some of the projects for Sikeston will be ready at an early date.

* * *

It was with sincere regrets that we learned of the death of Mrs. W. H. Deane, Sr., of Matthews, which event occurred in Brandon Hospital, Poplar Bluff, Tuesday morning of this week. To the neighbors and acquaintances of her community she was held in high regard for the Christian life she lived, and to her family she was a true wife and loving mother. For years she was the Matthews correspondent of The Standard and as such was highly regarded by the management. May her soul rest in peace.

ANNOUNCES RULES FOR DOVE SEASON

Important rules for hunters observing the dove season were announced Wednesday by F. I. Jones of Charleston, game warden for this district. The season opened September 1.

Doves may be shot only from 7 in the morning until sundown, Mr. Jones said. Hunters are limited to ten in the bag and fifteen in possession each day. Persons using automatic shotguns may fire only three shots.

SEMO SCHOOL HEAD TO TEACH AT UNIVERSITY

With his wife and daughters, R. A. Moyers left his home in Cape Girardeau this week to move to Albuquerque, N. Mexico, where he will be assistant professor of history and education at the University of Mexico.

Mr. Moyers has been affiliated with Southeast Missouri schools for thirty years, serving at different times as superintendent in Morley, Oran, Portageville, and Hayti. He has attended the Cape Girardeau teachers' college and Peabody College in Nashville, Tenn. During last year he worked on his doctor's degree at the University of Missouri.

Mrs. Moyer is also a former student at the University of Missouri and at Peabody College. She had taught twelve years, the last five in the primary department at Gray Ridge.

The Moyers' daughters are Misses Marjorie and Montelle.

Miss Marcia Weber of Bloomfield is spending this week as the guest of Mr. and Mrs. Robert Mow, Jr.

Junior Chamber Will Contribute $100 For Armory Building Site

At a regular meeting Tuesday night, members of the Junior Chamber of Commerce voted to set aside $100 as a donation toward buying a lot for a combination armory and community building here providing a proposed WPA project for its construction is approved. The money will also be contributed only if the balance necessary for purchasing a lot is raised here.

The junior chamber is the first organization to announce a donation for an armory tract. Members of the planning board, who recently completed specifications for a $50,000 building for Sikeston, are now considering two lots here. If the project is finally approved and money for it allotted in Washington, they will begin a short drive to secure funds to buy ground.

To raise the money already pledged, the junior chamber will this fall stage a series of entertainments. First will be a dance at the armory, scheduled for Friday, September 13. Jack Stallcup and members of his orchestra will play. Lacy Lewis has charge of arrangements.

Dr. Howard A. Dunaway, president of the chamber on Tuesday appointed Frank Miller as second vice-president. Mr. Miller succeeds Mr. Dunaway, who was made president when Kemper Bruton resigned.

Councilmen Approve Intoxicating Liquor Act

An ordinance concerning the regulation, sale, and distribution of intoxicating liquor and providing license fees was passed by councilmen Tuesday night.

The new ordinance, which nullifies the present one regulating liquor, was first introduced in July.

Wholesale dealers must pay $50 a year for handling intoxicating liquor containing not more than 5 percent alcohol; $60 for liquor not exceeding 22 per cent; and $100 for handling liquor of all kinds.

Groceries and other businesses that sell 5 per cent liquor in the original package direct to consumer and not for resale or consumption on the premises must pay licenses of $15 a year. Twenty dollars will be charged annually to persons selling 5 per cent liquor by the drink. These licenses will be issued only if applicants do not have permits to sell intoxicating liquor, other than malt, n the original package.

For retailing liquor in the original package residents will pay $100 a year. Holders of such licenses must operate either a drug store, a tobacco store, a general merchandise business or a confectionery and must each have a stock of goods showing a value according to invoices, of at least $1000, exclusive of fixtures and intoxicating liquors.

Violators of these and of additional provisions of the new ordinance may be fined a maximum of $500 and sentenced to ninety days in jail.

At the meeting Tuesday night, councilmen accepted a court order sent by J. Sherwood Smith, clerk of the county court, granting a back tax compromise on a lot in the McCoy-Tanner second addition here. The city will refund $21.38, the amount granted in the order, to the Scott County Building and Loan Association, which paid taxes in full before the compromise was accepted. The lot is owned by Mrs. Carrie Fisher.

Policemen were instructed to notify the Righter Truck Company to have streets and alleys near the terminal kept clean.

Mrs. W. H. Deane, Sr., Dies After Two-Week Illness

Mrs. W. H. Deane, Sr., of Matthews died Tuesday morning in the Brandon hospital at Poplar Bluff, where she had been a patient for ten days.

Mrs. Deane had been ill two weeks, suffering from a complication of diseases, including aheart ailment and an intestinal obstruction. She was 64 years old.

Funeral services were conducted at 2:30 Wednesday afternoon at the Matthews Methodist Episcopal church, of which Mrs. Deane was a member. The Rev. D. M. Margrave officiated. Burial was in the Matthews cemetery.

Mrs. Deane was born at New Madrid on December 25, 1870, the daughter of Mr. and Mrs. Nathan Fox. On December 16, 1901, she was married in Charleston to W. H. Deane, Sr., who survives her. She had spent her entire life in New Madrid county.

Besides her husband, Mrs. Deane is survived by two daughters, Mrs. Willa Alsup and Mrs. Robert Binford, both of Matthews; a son, W. H. Deane, Jr., also of Matthews; a brother, Pleas Fox of New Madrid; a grandson, William Deane, III; a foster daughter, Mrs. Wes Depro of Matthews; a stepson, A. F. Deane of Matthews; and a step-grandson, Ralph Deane, also of Matthews. Albritton service.

Missouri Fills WPA Quota of Projects

JEFFERSON CITY, Sept. 3—Matthew S. Murray, State administrator for the Federal Works Progress Administration, today announced that a total of approximately $63,000,000 in projects in Missouri, representing 78,230 "man years" of employment, had been approved by his office for submission to the WPA in Washington.

He said these projects would complete the quota for his department for WPA work in Missouri. In fact, the projects approved exceed by about $7,000,000 the total of $56,000,000 directly assigned to WPA work in the State. Murray said the excess would be cut down however, by rejections of projects by the Works Progress Administration in Washington.

A total of $95,000,000 was allotted to Missouri from the Federal appropriation of nearly five billion dollars for public works and relief. Of this $95,000,000, Murray said, about $22,000,000 was assigned to Conservation Corps camps, $12,000,000 to highway work, $5,000,000 for miscellaneous purposes and the remainder for the WPA projects.

Murray said a project involving expenditure of $19,559,000 for "feeder" roads, in every county of the State, would be approved today and forwarded to Washington tonight. The construction work will be done on roads not a part of the present State highway system proper, or the supplementary system, but each will connect with the State system or supplementary system, Murray said.

The roads to be built will be gravel surfaced and the work will be broken up into a large number of small projects, Murray said. He estimated this construction would provide 34,594 "man years" of employment.

Projects are to be submitted, he said, for expenditure of approximately $3,000,000 for improvement of the State parks, including construction of roads, trails, cabins, dams, clearing of underbrush, and other improvements. He said these projects would provide a year's work for about 1800 men.

The WPA recently made provision for construction of National Guard armories in 10 cities and towns in Missouri at a cost of not to exceed $25,000 each. Murray today said the number of armories would be increased to 20, but the additional sites have not been selected.

M. U. Attorney Short in Accounts

A discrepancy of $3769 in accounts on Southeast Missouri land which he handled for the University of Missouri resulted in the dismissal Monday of Orville M. Barnett, attorney for the university during the last sixteen years. The shortage was discovered when the government sought to buy part of the university's 40,000 acres of rough land in this district for forestry projects. The university had acquired the land by a federal grant. Barnett did not deny the discrepancy.

Paul Jones, Jr., left Monday for Cape Girardeau, where he will enroll in the Southeast Missouri State Teachers' College.

DR. T. L. CHIDESTER TO OPEN OFFICE SEPT. 16

Dr. Tom L. Chidester will open his dentist's office in the Peoples Bank building on September 16. He will occupy a suite of rooms formerly used by the late Harry A. Smith.

Dr. Chidester is a graduate of St. Louis University. Soon his wife and young daughter will move here from the Chidester home in Camden, Ark.

BAKER RETURNS FROM OZARKS WITH FOSSILS

K. K. Baker returned here Tuesday after an extended visit in several Ozark counties, where he found numerous fossils. The collection he made during his trip is now on display at White's drug store.

Leaving Sikeston on August 13, Mr. Baker went through Stoddard, Wayne, Reynolds, Carter, Butler, and Shannon counties. In the course of walks along Black river and McKenzie creek in Wayne and Logan creek in Reynolds, he discovered many specimens of fossils.

His collection includes a hickory nut shell, snails, hard and soft shell oysters, a bone, and a periwinkle.

MONAN IS FINED AFTER PLEA ON FIGHTING CHARGE

Malcolm Monan was fined $5 and costs Monday afternoon when he appeared in the city police court to plead guilty to a charge of being drunk and fighting, filed against him after his encounter with Bill Thompson August 18. Monan secured the fine.

Disposition of Monna's case was delayed because of injuries he sustained in the fight when Thompson struck his head with a claw hammer. Witnesses said that Monan precipitated the quarrel by resurrecting an old family argument and that Thompson struck only in self-defense after Monan had knocked him down.

Monan recovered at his home. He had been free on a $100 bond signed by C. E. Felker.

VANDUSER CHILD DIES

Gladys Irene McCormick, the 2-year-old daughter of Mr. and Mrs. Edward McCormick, died near Vanduser Tuesday, acute malaira aggravated by acute complications of bronchitis and colitis. The McCormick home is located a mile and a half west of the town. Burial was in the Carpenter cemetery near McMullin, Wednesday.

MISS IRENE NASH'S NIECE WED AT DEXTER SUNDAY

Miss Irene Nash went to Dexter Saturday evening to attend the wedding of her niece, Miss Rubye Allen to Gordon Ford of Louisville, Ky.

The ceremony was performed at 8 o'clock Sunday morning by the Rev. Ford at the home of the bride's mother, Mrs. G. C. Allen. Only relatives and close friends attended.

Immediately after the marriage, a wedding breakfast was served. Mr. and Mrs. Ford left Sunday for a thirty day trip to California. Next month they will be at home in Louisville, where Mr. Ford is an accountant.

Mrs. Ford is a graduate of the Dexter high school and was formerly a student at Business University in Bowling Green, Ky., where she met Mr. Ford. Before her marriage she left her position in the state school superintendent's office at Jefferson City.

Son Born to Henry Killians

A nine-pound son was born at 4:55 o'clock Monday afternoon to Mr. and Mrs. Henry Killian.

Spark Causes Roof Damage

A spark from the flue caused minor roof damage Tuesday afternoon at the Boyd Scillian home at 309 Kathleen avenue. Firemen extinguished the flames with a small hand pumper.

The Sikeston Standard $2 per year

Five WPA Projects For Scott County Approved

Five WPA projects for Scott county are among those for which federal funds totaling $302,000 have been allotted. The projects were sent to Washington after their approval here by C. L. Blanton, Jr., ninth area WPA director, and in Jefferson City by Matthew S. Murray, state administrator.

Allocation of $12,608 has been made for the construction of a concrete storage reservoir at the municipal light and water plant and $5320 for laying water mains here.

Other projects approved for Scott county are in Chaffee which was granted $7400 for cleaning 6381 yards of ditches and for cutting a new ditch in the town; Miner Switch, $464 for painting and repairing the community building; and Oran, $6000 for cleaning off sluff and widening ditches within the town.

Only one other project was approved for WPA work in the ninth area: School and athletic ground improvements at Malden, which was granted $4400. Dunklin county will contribute $224.

The reservoir project which will be undertaken here is one proposed last December for completion under the FERA. It will be constructed in front of the Plant on East Center street.

According to specifications made last winter, the reservoir will be 12 feet deep, 112 feet long, and 45 feet wide. Workmen will excavate only 10 feet, since the tank will protrude 2 feet above the ground. The tank will have a 400,000 capacity and will be fitted with a reinforced concrete top and 12-inch walls.

Use of the tank will serve three purposes: It will make the plant engines carry a more uniform load; it will save fuel; and it will provide better fire protection. When it is built, water will be pumped into the reservoir from the city well between 12 midnight and 7 o'clock in the morning when the power load is comparatively light. Before it is placed in the tank, water will be run through the filtration system.

Now water must be pumped all day from the well, then into the filter and immediately to the tower. Approval of the project will permit engineers to pump water to the tower only in the daytime. Since enough filtered water to last twenty-four hours will be put in the eank each night.

The water main project grant will aid the city in completing extension of lines authorized by $15,000 bond issue at the city election last April. Work was started under the FERA.

Gray Ridge Man Given Ten Years For Murder

Virgil Crouch of Gray Ridge was sentenced to ten years in the penitentiary Wednesday when a Stoddard county circuit court jury found him guilty of murdering Jacob Walker after a card game in Gray Ridge, November 4.

Jurors received the case Tuesday afternoon when testimony of defense and state witnesses ended. Crouch's attorneys tried Tuesday to prove a self-defense theory, calling fifteen persons to the stand, most of whom were character witnesses. All men except Crouch who were present at the shooting had testified for the state.

On the stand, Crouch said that he became angry when Walker struck him with a whisky bottle in a dispute during a card game. He left the stock pen, where the game was held, got his revolver, and returned. When he approached, Walker moved as if for a weapon, he said, contending he shot only in self-defense.

Crouch's trial began Monday. Until 10 o'clock that night, when its case was closed, the state sought to prove Walker's murder was in "cold blood". Ten state witnesses said that Crouch and Walker argued about a bottle of whisky and that Walker struck the defendant with the bottle. Crouch left, then returned and fired without warning. Walker lived only a short time.

Cape Corps Wins Again At State Legion Meet; Sikeston Men Return

With a near perfect rating of 98.2 the Cape Girardeau Legion Drum and Bugle corps won the state championship Monday night, for the third successive year.

Their score, seven-tenths of a point higher than last fall's, set a new high record for the state. The contest was held during the state Legion convention in Columbia this week.

The Joplin corps won second place with 92.7; the Independence group, third with 92.6; and Greater St. Louis, fourth with 86.9.

The Cape Girardeau corps will compete at the national Legion convention in St. Louis from September 23 to 26.

Marshall captured the Class B championship with a score of 74.7 points. The St. Louis county group, only other entrant, left the contest field without completing its maneuver.

The Sikeston corps, which had planned to compete, did not enter chiefly because proper substitutes were not available to take the places of three regulars who were unable to attend the convention. Further, members were unable to stay in Columbia until the contest was ended since they were forced to leave at 6:30 Monday afternoon in order to reach Sikeston in time for work Tuesday morning. They arrived at 4:30 in their chartered bus.

Earl Johnson was elected district committeeman and Harry C. Blanton was chosen as a delegate to the national convention during business sessions of the state meeting. Earl H. Shackleford of Hannibal was elected state commander, succeeding William A. Kitchen of Kansas City.

Delegates to the national convention, besides Mr. Blanton; the commander, and the retiring commander, are Lowell Johnson of Kansas City; Brigadier-General E. M. Stayton of Kansas City, commander of the Missouri national guard; Jesse W. Barrett of St. Louis; Senator Harry S. Truman of Independence; Dan Nee and O. A. Armstrong of Springfield; B. Marvin Casteel of St. Joseph, head of the state highway patrol; Richard R. Nacy of Jefferson City, state treasurer; and Mayor Bernard Dickmann of St. Louis.

The 1936 state convention will be held in Springfield.

M. U. To Open Monday; 3 To Enroll As Freshmen

The University of Missouri will begin its 96th annual session in Columbia Monday.

At 10 o'clock in the morning freshmen will gather at Jesse auditorium for their first convocation, and in the afternoon they will take aptitude tests. In the evening they will attend a mass meeting and later a dance. Registration and additional pre-school activities will be held Tuesday and Wednesday. Class work will start Thursday.

Sorority rush parties began yesterday afternoon and will end Sunday afternoon with pledging. Fraternity rushing will be held for scarcely more than twenty-four hours, beginning Saturday noon.

All students who enroll in the university this fall as freshmen will be seniors during the centennial celebration of the founding of the oldest state university west of the Mississippi, when the 100th anniversary of the University is celebrated four years from now.

Charles McMullin and Bill Donnell left for Columbia by train early Wednesday morning; and John Wilson left Thursday afternoon. He went to St. Louis with Don Robinson, who later this month will attend Central College in Fayette. McMullin, Donnell, and Wilson will enroll as freshmen at the university.

Mrs. Milton Mann, Mr. and Mrs. Wash Howard and Mr. and Mrs. Hal Hunter, all of New Madrid, were in Sikeston Tuesday.

Born to Mr. and Mrs. Dan McCoy, Jr., last Saturday, a son, who has been named Dan McCoy, III. Mrs. McCoy and son are at the St. Francis Hospital in Cape Girardeau.

Relief Clients to Get Identification Cards Tuesday for WPA Work

All certified relief clients who expect to secure employment on works progress administration projects are urged to report at the city hall Tuesday morning to receive identification cards.

E. R. Ryan, the Scott county representative of the national re-employment service, will be in the city hall lobby from 9 until 12 o'clock Tuesday to issue cards to relief workers living in the Sikeston district. A former FERA associate well-acquainted with clients will remain with him to identify them.

Issuance of cards will constitute the first step toward assigning men to work on WPA projects. All clients must obtan cards before they can secure employment.

School Enrollment To Near 1500 This Term

More students than ever before were enrolled in the grammar and high schools Tuesdays, Superintendent Roy V. Ellise announced.

On that day 657 pupils were entered in courses at each of the schools, making a total of 1314. Last year's first month enrollment was 1284 and the peak for the white schools by the middle of the year was only 1313.

Total enrollment this fall will near 1500, Mr. Ellise said. One hundred and twenty negro students are attending the Sunset school.

The present high school enrollment of 330 is 40 above last year's. Enrollment by classes is listed below.

Senior, 70; junior, 90; sophomore, 88; freshmen, 82; eighth grade, 99; seventh, 123; sixth, 105; fifth, 139; fourth, 109; third 151; second, 130; and first, 128.

Between 40 and 50 students are attending the St. Francis Xavier school, which also opened Monday.

GEOLOGICAL SURVEY OF STATE APPROVED

An allotment of $279,727 out of federal works funds has been approved by President Roosevelt for a geological engineering and mineral research project in Missouri.

The survey, which will be under the direction of Dr. H. A. Buehler, state geologist, will be divided into three divisions. They will be investigation of mineral resources in which mineral district will be outlined ; investigation of of ground water resources; and completing topographical maps started under the FERA and under which about one-third of the work was finished.

The project will furnish a year's work to 262 engineers, chemists, computers, geologists and draftsmen. The total cost will be $333,863, of which Missouri will pay $54,137.

TAKES LARGE SPLINTER FROM SWOLLEN FOOT

Dr. Howard A. Dunaway Wednesday morning removed a large thick splinter that had been imbedded in James Cohen's right foot during the last four weeks.

The splinter about an inch and a half long, entered Cohen's foot directly beneath the large toe when e stumbled on a plank while he was walking at his farm home near Crowder.

In trying to remove the splintr, Mrs. J. H. Cohen, James' mother, broke the wood. Members of the family thought the entire splinter had been taken out, however, until the foot began to swell noticeably.

NEW MADRID NEGROES CHARGED WITH ROBBERY

R. L. Harris and Noah L. Farr, New Madrid county negroes, were bound to the Cape Girardeau county circuit court Wednesday when they waived preliminaries on charges of highway robbery. They were placed in the Jackson jail.

Farr and Harris are accused of stealing $25 from a third negro, Ed Dunn, near his house on Highway 74 Monday night after they had held him up with a shotgun. The two negroes had played at a picnic Dunn gave at his residence Monday evening.

Harris was arrested at Portageville and Farr at New Madrid.

Day Appeals to Supreme Court

William Day of Cape Girardeau, formerly of Sikeston was granted an appeal to the supreme court Tuesday after Judge Frank Kelly had refused a motion for a new trial in the Mississippi county circuit court on a charge of receiving stolen property. Day was found guilty of the charge in July and was sentenced to two years in prison. Day was accused of buying stolen cigarettes from negroes.

John McCray was critically injured in an automobile accident in Kalamazoo, Mich., While in an ambulance en route to the hospital he asked an accompanying police officer to take a bit of dictation. On the back of an envelope the officer wrote McCray's will, leaving his entire estate to his wife, except $1 to a daughter he had not seen in 15 years.

Assault Charges Filed Against 3 After Fight

Assault and battery charges were filed Wednesday against R. B. Oliver, Alfred Carter and Grover Jenkins following a fight near a Frisco cafe the night before. Oliver is recovering from severe stab wounds on his left shoulder and face.

The fight was allegedly started because of an argument about a woman. The three men were arrested by W. M. Masterson, who took them to Judge Joseph W. Myers' court, where preliminaries will be held next Thursday.

Jenkins is charged with assault and battery with a knife; Carter with assault and battery on Jenkins; and Oliver with disturbing the peace by fighting and rioting. Carter and Olicer are free on $50 bonds, Carter's signed by C. C. White and Buck Carter and Oliver's by himself and Roy Oliver. Jenkins bond was set at $100 since he supposedly cut Oliver with a knife. It was signed by himself, J. S. Wallace, and Walter Hughes.

Dr. Howard A. Dunaway closed Oliver's wounds with fifteen stitches.

OWNER HAS RESPONSIBILITY

Landlord Must Contribute Share of Tax Certificates

Any landowner having an interest in cotton to be marketed must contribute his portion of the tax exemption certificates issued to him in the same proportion as the cotton crop is divided between landlord and tenant, says County Agent Broom on recent advice from Washington.

Rules and regulations under the Cotton Act of April 21, 1935 provide a penalty in the event any landlord fails to surrender his proportional share of tax evemption certificates in lieu of tax payment. Failure to comply with this provision may result in temporary or permanent cancellation by the State Allotment Board would be followed by the reissuance of such certificates to the tenant or share cropper operating the producer unit for which the certificates were originally issued to the Landlord.

Grant Sought for Cleaning Lake

Mississippi countians have prepared a WPA project for clearing Brewer's Lake of stumps and brush, according to F. I. Jones of Charleston, Southeast Missouri game warden. Sponsors are seeking a grant of $15,000 for the work. The project has been submitted to the ninth area WPA office here.

Living costs in the United States in July was 1 per cent less than in June, the National Industrial Conference Board announces. Living costs at this time are 17.4 per cent less than in July, 1929.

SIKESTON STANDARD

C. L. BLANTON, EDITOR

NATIONAL EDITORIAL ASSOCIATION Member 1935

Yearly subscription in Scott and the adjoining counties .. $2.00
Yearly subscription elsewhere in the United States $2.50

Aunt Jane Peal, of Blodgett was one of the many who attended the Baptist Association in Sikeston during the week. It was our pleasure to have a visit from her Tuesday afternoon. Though she is 84 years of age, her eyes are as keen and bright as ever and her cheerful disposition sheds sunshine wherever she goes.

J. F. Altom, of the McMullin vicinity, raised some extra choice watermelons this season, these great big striped fellows. Four of them were presented to The Standard editor, who shared them with Harry in St. Louis and Ben in Kansas City. It was a nice remembrance and duly appreciated.

* * *

Funny things happen to some men when they begin to grow old. We have never contacted one that didn't like to gaze upon a pretty girl, and some not so pretty, but the story goes that a posmaster not a thousand miles from Sikeston and who is in the above class, became so absent minded, or something, that he gave 50 3-cent stamps too many to a beauty.

* * *

Bingo, a 6-year-old French bulldog, died last week, one of the most famous dogs in America. Owned by Dr. and Mrs. Edward P. Thomas of Frederick, Md., he gained wide publicity a few years ago when his mistress took him to a veterinarian one day to be treated for an infected ear. For the next two weeks Bingo made daily unaccompanied trips to the doctor for treatment and when the infection healed, quit his visits voluntarily. Last week he was killed by an automobile.

Mr. and Mrs. A. J. Heuiser and children and Mr. and Mrs. Walter Crowell spent Sunday afternoon with Mr. and Mrs. Fritz Chism and children, of Blodgett.

Mr. and Mrs. Walter Crowell spent Sunday evening with Mr. and Mrs. A. J. Heuiser and children.

HESSIAN FLY MENACE TO WHEAT IN SEMO

The Southern two-thirds of the state is in the Hessian fly danger zone and offers at the present time a threat to the wheat crop of 1936. The "Fly free date" for New Madrid county is October 18. The southern third and the southeastern part particularly are badly infested.

How to control Hessian fly and reduce its damage to a minimum:

1. Plow ground early and prepare good seed bed.
2. Keep down volunteer wheat.
3. Delay seeding wheat until "fly free date."
4. Get neighbor wheat grower to delay seeding until right time.
5. Where grain crops are to be used for fall pastures use barley or rye since the fly does not tend to build up as badly in these grain crops as in wheat.. People who plan to follow the crops department suggestion in the year round pasture program should be urged to follow the recommendations and use barley or rye.

THE BUCKNER RAGSDALE CO.
SIKESTON, MO.

Ask For Poll Parrot Money

Buckner-Ragsdale BRINGS TO WOMEN OF SIKESTON THE SHOE SENSATION THAT IS SWEEPING AMERICA!

HOLLYWOOD SAYS IT'S "STAR" STYLE!

PAULA STONE AMONG SCREEN STARS THRILLED BY RHYTHM STEP

"It's a New Sensation, So Amazingly Light! So Buoyant" . . . exclaimed smart young Miss Stone.

"Your Rhythm Step Styling is the Smartest I Have Ever Seen"

SAYS . . . FAMOUS DANCING DAUGHTER OF FRED STONE

WHEN Rhythm Step shoes made their Premiere appearance in Hollywood smart young stars agreed that this was "big time" style. But even blasé Hollywood was amazed to discover that there was something really new in shoes—a dual personality! "I'd never dream such light lovely shoes could be health shoes until I learned how Invisible Rhythm Treads support the foot at three strain points in every stride" was Paula Stone's surprised comment! Young dancing stars, who guard their twinkling toes with care, were especially enthusiastic in their praise of a shoe that could actually play the lead in style and cushion the foot so gently that you get a sensation of amazing, delightful buoyancy that really rests the foot in action. And it's a new pace in style and thrilling comfort that any smart woman can afford to follow, now!

Rhythm Step Shoes Introduce Revolutionary Comfort in the Smartest of Styles with Invisible Rhythm Treads!

"I SEEM TO BE FLOATING ALONG! *It Takes the Pavement Pounding Out of Walking"*

How Invisible Rhythm Treads Support the Foot at Three Strain Points in Every Stride

As your heel pounds the pavement Rhythm Treads cushion the shock and protect delicate nerve centers.

As weight shifts to your arch all strain is absorbed and cushioned . . . in addition to the usual built-in arch.

As full weight centers on ball of foot the metatarsal arch is supported, keeping delicate bones in position.

ONE . . . TWO . . . THREE STEP *Is Newest Way to Walk!*

Modern pavement pounding has been ruining women's nerves, tiring their feet and entire bodies long enough, decided the makers of Rhythm Step shoes. So they invented the one, two, three step that acts as a shock absorber to the foot and entire nervous system—Invisible Rhythm Treads. Circled numbers show how your foot is protected, at the three important strain points. Gone is that tiring pound, pound . . . instead it's like walking on clouds and you can one, two, three step on Invisible Rhythm Treads for hours without feeling fatigue.

SAYS GOODBYE TO "COMFORT" SHOES LAUGHS OFF FRIEND'S WARNING!

IT'S NEWS *For the Fashion Magazines*

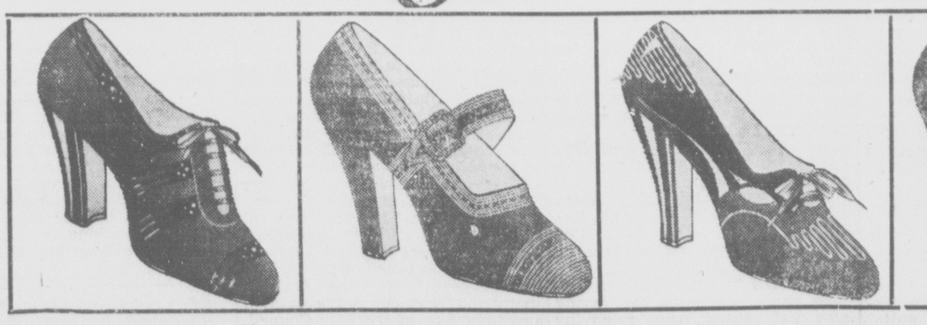

Announced in Vogue and Harper's Bazaar, the thrilling news of Rhythm Step shoes will be read by America's smartest women from New York to Hollywood. And now you too can wear these smart shoes that are bringing a new sensation in comfort to fashion-right women everywhere—in styles that are perfect complements to all the newest fall fashions.

Rhythm STEP STYLE and HEALTH SHOES

Starts New "WOMAN'S QUESTION"

Young women who have their eyes wide open for the latest fashions state very firmly that Rhythm Step is a style shoe. Older women who couldn't be fitted comfortably in anything but a health shoe insist it's a comfort shoe! And both are right! Daughters can walk in trim young style and actually protect their feet from the effects of strain and mothers can keep in step with daughter's idea of style, with comfort! You'll revel in the style and enjoy the comfort of Rhythm Steps—call them what you will!

Phoenix and Belle-Sharmeer Hose in all the New Shades

THOUSANDS WELCOME NEW "FREE FEELING" MINUS THAT OLD TIME "SENSIBLE" LOOK!

Tired feet or heavy sensible shoes? That's an out-of-date question with women of today! The "lure" of trim, dainty footwear is no longer a peril to foot health now that Rhythm Steps are here! In appearance you can't tell them from the frivolous affairs that were made to be looked at—and not walked in! But what a difference there is! Three extra comfort features—besides the usual built-in arch—give the foot additional support and make thick leathers, blocky heels and heavy shanks unnecessary to ease the strain of body weight. Women who have been wearing comfort shoes for years will turn to Rhythm Steps with enthusiasm. And women who demand the most dashing of styles will greet them with cheers of delight!

Exclusive with **BUCKNER RAGSDALE** SIKESTON MISSOURI

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Greer avenue from the east line of South Johnson Street, commonly known as U. S. Highway 61 to the west line of Lion Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Greer Avenue from the east line of South Johnson Street, commonly known as U. S. Highway 61 to the west line of Lion Street all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1265, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Scott Street from the south line of Malone Avenue to the North line of Gladys Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Scott Street from the South line of Malone Avenue to the north line of Gladys Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1285, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Lake Street from the east line of Moore Avenue to the west line of North Johnson Street, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Lake Street from the east line of Moore Avenue to the west line of North Johnson Street, otherwise known as U. S. Highway 61, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1266, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Matthews Avenue from the east line of South Johnson Street, otherwise known as U. S. Highway 61, to the west line of Lion Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Matthews Avenue from the east line of South Johnson Street, otherwise known as U. S. Highway 61, to the west line of Lion Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinnace number 1270, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave,curb, and gutter Lake Street from the east line of North Johnson Street, commonly known as U. S. Highway 61 to a point 400 feet in an easterly direction.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows;

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Lake Street from the east line of North Johnson Street, commonly known as U. S. Highway 61 to a point 400 feet in an easterly direction.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1296, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Explains Two-Bale Certificates

Special two-bale cotton tax exemption certificates will be issued to producers on those farms in New Madrid county that have produced no more than an average of two bales a year during the base period of 1928 to 1932, says County Agent Broom.

These two-bale certificates are printed on a different colored paper from other certificates and are plainly marked "non-transferable." Ginners will not accept these special certificates from any person other than the one to whom they were originally issued or to his duly authorized agent.

If any producer receiving such a certificate has any surplus certificate poundage which remains unused after his entire crop has been ginned, he may request the issuance of a new transferable certificate for the unused portion. Such a request should be made to the assistant in cotton adjustment who is located in the County Agent's office.

New Boston, a town of Mercer county, on the Mississippi River, was invaded by Mormon flies the night of July 28 and they were so thick that motorists were unable to see the front of their cars and progress was halted as the wheels says the Nauvo (Ill.) Independent. spun upon the slippery pavement, Sunday morning eleven wagon loads of bugs were hauled off two blocks—LaPlata Home-Press.

Carol Ann Barry, 7-year-old pianist prodigy of Altadena, Cal., was the victim of an unusual accident. A hunter, far up the canyon from her playground, shot and killed a bobcat. The bullet pierced the head of the animal and continued on, striking the girl in the head and killing her almost instantly.

Bank clearings again show a considerable increase. The total for leading cities for the week ended Wednesday, August 21, as reported by Dun and Bradstreet, Inc., was $5,086,968,000, against $4,191,207,000 a year ago, an increase of 21.4 per cent. For the preceding week the advance was 7.2 per cent.

SEQUOIA

Pronounced "SEE-QUO-YAH"

Adapted by BEATRICE FABER from the Metro-Goldwyn-Mayer Picture

Based on the novel "Malibu" by Vance Joseph Hoyt

SYNOPSIS: *Toni Martin, vacationing in the Sierras with her father, an author, has, with the aid of Bob Alden, a forest ranger, (now a little in love with Toni) taken a young fawn, Malibu, and a lion cub, Gato, to raise together. Her father is writing a book about the interesting experiment. Then Malibu and Gato start battling and Martin is compelled to break some bad news to Toni. She is waiting to hear what he has to say.*

DEATH IN THE NIGHT

Chapter Four

"Toni," Martin continued gravely, "do you know what Gato *really* means?" Toni shook her head. "It means, 'Outlaw — murderer!' "

Toni gasped. "But Bob said—"

"I know. But he was wrong. I happened to be looking through an old reference book just now and ran across it."

Toni's chin went up. "Well, let's forget it. It's a nice name anyway." She went to the two animals and shoved them together. "Come on now—kiss and make up. *You're* going to redeem that name of yours," she told Gato determinedly. But even as she spoke, Gato made a quick nasty little move at the fawn.

A few months later, Bergman stood before his open-front chicken coop, ruefully inspecting some recent damage to it. "If you'd a'layed them traps like I told you," he growled at Joe, "this wouldn't a' happened."

Joe pointed. "I did — but looka' here. There's his tracks. Smart, that's what he is. He stepped right over it."

Some time later Gato made his silent return again through Sang Soo's window.

"Aw—what's the use of arguin'—" Bergman said angrily, "I'm goin' out and get him.

That afternoon, in the woods, Bergman stood frowning over some footprints of a year old puma, cursing softly as he lost the tracks at the side of a brook. He looked up to see Alden on horseback nearby.

"Hello," he called. "Seen anything of a puma around here?"

The only one's I've seen are those you've collected bounty on." Alden answered. "Don't tell me you've missed one."

Bergman nodded morosely. "Yeah, and a smart one too. Raided my chicken coop last night and I'm out for him."

'About how old would you say he was?" Alden asked. His eyes had narrowed.

Bergman indicated the footprints. "I'd judge around a year from his tracks. Wish you'd pass the word along to the boys to keep an eye out for 'im. Maybe they can get a line on his hideout. I ain't had much luck."

"I'll get busy on it," Alden said, with over-readiness. "So long." He rode off, half convinced that Bergman's poacher might be Gato, and as he thought of Toni, his concern mounted.

That night Martin was lazily taking his rest on the front porch.

The peace of the night was broken however, by the even hoofbeats of a horse. In a moment Alden had ridden up, and was swinging off his horse.

"How's Toni?"

"Fine as ever."

"And — Malibu?"

Martin chuckled, sensing what Alden was driving at. "Nearly ready for high school. And — " there was a twinkle in his eye, "Gato's all right too, in case you don't care." He leaned forward. "Seriously, Bob, you'd be surprised. Gato's gentle as a kitten. Toni actually had him on a vegetable diet for a week."

Alden picked his next words carefully. "Don't you ever figure he might—suddenly *revert to type* — and hurt somebody?"

Martin gestured. "Not a chance. He's been raised a gentleman."

"A puma raided Bergman's chicken coop last night," Alden stated with studied nonchalance.

"Yes?"

"Yes!"

Martin laughed lightly. "Too bad he didn't have Gato's education." He stopped abruptly. "Listen Bob," he said, perturbed, "you don't seriously think — wait — come on over here and look at something." He drew Alden to the window.

Through it, they could see Malibu licking his chops as if in anticipation, while stretched out almost full length on the rug, lay Gato, taking his ease.

Toni now placed three dishes of ice cream on the table, each with a burning candle in the center. "Look what I have for you gentlemen," she announced grandly, then knelt before them with the ice cream. "Happy birthday to you," she sang "and you—and one for me"

Then, as eagerly as a child, she dug her spoon into the ice-cream, and ate it with obvious relish.

Malibu was lapping away at his dish in such haste to devour the delicacy that his plate was nearly overturned. Toni reached out to straighten it. "Umm. Good," she said to him.

Then, to her complete amazement, she noticed Gato. He was watching her, a completely bored expression on his face. It seemed to say, "Such childish things are not for men like me."

She could hardly believe her eyes. "Gato!" she exclaimed, "that's ice cream." She was almost tearful. "Why you *love* ice cream!" But Gato merely turned over and yawned. 'What's the matter Gato?" Toni pleaded, "don't you feel well? You haven't eaten a thing for the last three days."

At this, Alden nudged Martin significantly.

Toni continued to rebuke Gato "Very well," she said with simulated severity, "I am not going to *make* you eat it. And don't sulk, because the *big* surprise is yet to come." Gato just licked his left foot contemplatively. Toni now brought out a box and a toy balloon. She placed the balloon before Gato and the box in front of Malibu.

As the jack popped out of the box Malibu shied away in fright, but when Toni had opened it a few times, he began to sniff at it curiously.

Gato had turned his attention to the balloon. As his sharp claws dug into it, it exploded in his face with a loud report. He stood still, in startled surprise, then fastened his gaze on Toni.

She scratched the fawn's neck, at the same time stifling a slight yawn. 'I think it's time for all good little boys to be in bed. Off you go!" Malibu started off. "Come on." Toni beckoned to Gato who did not move. She tweaked his ear. "If I let you sleep here tonight," she said, "remember—no snoring."

When she had left, Martin faced Alden with a troubled look on his face. "Just because the poor cat didn't want his ice cream doesn't prove anything."

Alden ignored this. "See that Gato is *shut in tonight*, will you, Mr. Martin?"

"You won't say anything to Toni?"

No," Alden answered unhappily, "not until I have to. Goodnight."

It was well past midnight and the living room was alternately streaked with darkness and bright moonlight. Seemingly, the room was deserted until Gato moved out into the light. Sniffing first at one closed window and then at another, he moved against the kitchen door and opened it. Here again, he encountered a closed window. Walking away from it, his great cat's body disappeared for a moment into the darkness. Only his eyes could be seen, gleaming like red hot coals.

Now he had found the door to Sang Soos bedroom, where the Chinese cook and his baby slept peacefully. With one leap Gato was at the window sill and out of the open window into the night.

Padding swiftly over the ground, he was soon crouched on the roof of the low shed on Bergman's ranch. Some pigs could be heard squealing and stirring restlessly. With a silent feline movement Gato dived in under the shelter. The next second there was the scream of a pig in agony.

Some time later, Gato made his silent return again through Sang Soo's window. Just as he was about to pass through the door, he suddenly turned, and crawling along the baby's bed sniffed it long and carefully. Then, with a swift twist of his body, he moved lightly over Sang Soo's bed until, his eyes dilated and glistening, he brought his face down, closer and closer to that of Sang Soo.

(Gato has attacked once in the night. Is he about to justify his name of 'murderer' completely by killing the Chinese cook? Be sure to read tomorrow's thrilling installment).

NEW CAREERS FOR BREAD CRUMBS!

"Living off the crumbs" would not be such a bad living at that, since bread and its crumbs have adopted so many interesting occupations. Bread has proved to be amazingly versatile, and its long-established position on the bread plate at meals is now only one of its many interests.

This we discovered recently, by chance, when we received in the mail a new recipe book from a large manufacturer of bread. A recipe book of dishes using bread didn't sound very promising to us, but what a wide range we discovered, from canapes to bread-and milk!

There were hot and cold sandwiches, gay party favors made of bread, sauces and soups made with bread crumbs, as well as muffins, stuffings, croquettes, cutlets, fritters, casserole dishes, puddings, pie crusts, frozen desserts, baked desserts, and cookies! There were even eight recipes for toast!

One of the things that interested us most was that crumbled bread can be used to make a good white sauce, a pie crust and a frozen tortoni!

Scalded milk cooked with bread crumbs and seasoned with butter, salt and pepper makes an excellent white sauce for casserole dishes and vegetables. Bread crumbs with butter and powdered sugar make a fine pie-crust, patted into the bottom and around the sides of a buttered pie-tin and placed in a hot oven for 15 minutes. Bread crumbs also make a very fine frozen pudding, in the freezing trays of the automatic refrigerator.

It takes very little "dressing" to make bread look as though it's going to a party. When a cookie cutter and a smooth, fine-textured piece of white bread get together, you hardly recognize the result as just plain bread, especially after a pastry tube and garnishes have worked their theatrical effects.

A bowl of soup is thrice appetizing, if its butter-dapplied surface has a few crisp, golden brown croutons floating upon it. Not just squares, but interesting shapes such as diamonds, clubs and hearts can be cut out of bread with tiny garnish cutters before they are dried and browned in the oven, or sauteed in butter, or fried in deep fat.

A most attractive way to serve hot creamed dishes or an Irish stew is in the attractive bread baskets made from a whole, unsliced loaf of white bread. Cut the crusts from the sides and top of the loaf and hollow out the inside of the loaf, leaving a thick shell. Use for a filling any combination of seafood, ham, veal, pork or vegetables with white sauce which you choose, or which department of refrigerator leftovers seems to recommend. Brush outside of the loaf with melted butter before filling it with the piping hot mixture. Then place the "basket" in a hot oven until it has browned.

Little "boxes" of white bread hollowed out of two-inch thick slices, then brushed with butter and browned in the same way, are called "croustades", and make attractive cases for individual servings of any hot creamed mixture.

Baked Stuffed Tomatoes

Do not peel tomatoes. Scoop out center and cut the center meat fine. Add finely chopped onion and celery and blend in bread crumbs and one egg beaten light. Heat through and until egg has thickened. Stuff back into tomatoes and cover with buttered bread crumbs. Bake in moderate oven until tomatoes are tender.

Brown Betty

Put a layer of dry bread which has been broken in to small pieces in a pudding pan. Over this a layer of tart apples sliced thin. Dot with butter and springle with brown sugar and a little cinnamon. Repeat until dish is full. If bread is very dry, a little water or milk may be added. Cover tightly and bake in a moderate oven one hour. Serve with caramel or lemon sauce.

Fried Stuffed Carrots

Select rather short, thick carrots. Scrape and cook in boiling salted water until tender. Cool to handle, remove center with apple corer and stuff with the following mixture: 1 tbsp, melted butter, 2 tbsp, minced parsley, 1 beaten egg. Brown onion in butter and add other ingredients. Stuff carrots and roll in flour, then beaten egg and last the sifted bread crumbs. Brown in deep fat and serve hot.

The wife of William Larson, 47, of Chicago believes there is a limit to indulging a husband. It was bad enough when he was plain drunk around the house, but when he pawned her false teeth and spent the proceeds for whisky, she had him arrested. He was fined $200.

Some Whole Wheat Recipes

In many parts of the country people are using whole wheat, either home-grown or bought at the feed store, to help feed the family at low cost. Whole wheat is a very nutritious food, since it contains proteins, minerals, and vitamins in addition to the proteins and carbohydrates that are the chief constituents of white flour. It is recommended especially for vitamin B. To save time and fuel in cooking, the wheat may be cracked. Perhaps the feed store will crack it. At home a coffee grinder or a meat grinder can be used. If the whole grain is used, soak it overnight and then boil gently for 3 or 4 hours to make it tender. The cracked wheat can be cooked in a shorter time and needs no soaking.

For the recipe of beef and whole wheat, cooked whole wheat is used. Cracked or ground wheat is used for the scrapple and muffins.

Beef and Whole Wheat

2 cups finely ground whole wheat.
2 tsp baking powder
1-2 tsp salt
3 tbsp brown sugar
1 egg
3-4 cup milk
2 tbsp melted fat

Melt the fat and cook the onion a few minutes, then add the meat which has been lightly rolled in flour. When the meat has browned somewhat add water. Partly cover and simmer until the meat is tender. Stir in the chili pepper and the wheat, and add salt to taste.

Whole Wheat Muffins

2 tbsp fat
4 tbsp chopped onion
1 lb of beef diced
Flour
3 cups water
1-4 of a chili pepper .
2 cups of cooked whole wheat
Salt.

Mix all the ingredients thoroughly. Beat the egg, add the milk, and stir with the fat into the dry ingredients. Do not stir the batter any more than is necessary. Bake in greased muffin pans for 25 to 30 minutes in a hot oven (400 to 425 degrees F). If desired omit the egg and increase the milk to 1 cup.

Scrapple

OUTSTANDING EVENTS IN U. S. NAVAL HISTORY

Battle of Jutland, May 31, 1916

—Greatest naval battle of World War. Admiral Scheer planned to reduce British Naval strength by a raid in the North Sea. A crusier bombardment of the English coast was to draw out a portion of the British fleet which would be trapped and destroyed by the entire German fleet. He planned to have zeppelins with his fleet to warn him of the approach of the British main fleet; but on the day of the battle the weather was too bad for them to operate. To avoid having his fleet destroyed by the entire British fleet, if he should meet them, he carefully drilled his ships in a maneuver in which they could retreat by all reversing their courses at the same time. Admiral Jellico was warned of the German activities by the large number of radios which they sent; and so he put to sea with the entire British fleet. On May 31, 1916 the visibility was poor and the advance forces of the two fleet met by accident. The German advance force, under Vice-Admiral Hipper, retreated, leading Vice-Admiral Beatty and his battle cruisers into range of the main German fleet. Then Beatty retreated and brought the German fleet into contact with the main British fleet. Twice Jellico started to lead his ships across the head of the German fleet but each time Scheer escaped by having all his ships reverse their courses at the same time. Both times this maneuver was a complete surprise to the British. At dark the two fleets separated and Scheer led his ships back to their base with no opposition save for a few intermittent engagements with the British light forces. The British lost 3 battle cruisers, 3 armored cruisers, and 8 destroyers, while the Germans lost only 1 battle cruiser, 1 pre-dreadnaught, 4 light cruisers, and 5 destroyers. However, the British retained control of the sea, the loss of which would have probably meant the loss of the World War.

"Tropical Valley" in Canada's Northland Found on Flight

WINNIPEG, Man., Aug. 31—Stories which have become almost legends tell of a mysterious valley in Canada's northland where warm springs feed the verdure and there is luxuriant vegetation while all around is a wilderness of ice and snow.

Now comes at least a partial verification from Dr. Charles Camsell, deputy minister of mines and natural resources for the Dominion. He has returned from flights over the "Forbidden Territory" in the course of which he landed close to the tropical valley and explored it to some extent.

It is "forbidden territory" only because nature has closed it in with almost unscalable mountains Dr. Camsell for more than a month has been flying and mapping the territory which is virtually unexplored. Within the last 20 years there have been several single and two or three men expeditions, but they brought back practically no records.

In his latest trip, Dr. Camsell said that he not only had established the existence of a "tropical valley" but had found that there were three or four of them.

One of Dr. Camsell's principal purposes on his flights was to map the northerly end of the Rocky Mountains. It has been supposed generally that the great Rocky Mountain Range carried on somewhat indefinitely to the north, but the topographical pictures taken and the exploration work done by Dr. Camsell will show, he said, that the Rocky Mountains loss themselves in a plateau while two degrees to the east of a new range commences, the McKenzie Mountains.

Numerous construction projects to cost hundreds of thousands of dollars are being advanced in Missouri towns and cities. Columbia is planning water and light plant improvements costing $281,-000; Kirksville will build a light and power plant at a cost of $639,-000; Iron County wants a new $127,000 courthouse; Hayti plans a $40,000 sewer system; Clarksdale is asking for a city hall to cost $15,273; Cole County is preparing to build a $65,000 jail; and Gallatin wants a new high school building costing $59,968. All will be made possible by federal funds.

There were 157,058 fewer families on relief rolls in the United States in July than in June of this year. The reduction from 3,822,-252 to 2,655,194 in one month's period saved the government $9,500,-000.

For the first seven months of this year new residential construction in the United States amounted to 42,026 family dwelling units, which was 146 per cent greater than the number of home units provided in the corresponding period in 1934. This volume of residential building is more than 10,-000 dwelling units in excess of the grand total of all residential units constructed in the entire year of 1934.

MOSQUITOES CAUSE MANY DEATHS IN U. S.

Yellow fever is gone but Malaria still takes big toll—Sir Patrick Manson Estimates the Affliction causes more deaths than all other parasitic diseases combined.

Because so much publicity has been given to the remarkable eradication of yellow fever thruout the world by control of the particular mosquito which causes that disease, the erroneous belief has sprung up that mosquitoes no longer are important agents of disease, points out the American Institute of Sanitation.

"Close to 3,000 persons in the United States die annually from malaria, which is caused solely from the bite of anopheline mosquitoes whereby microscopic parasites are introduced in the body to live in the red blood cells," says the institute.

"But the death rate from malaria is no true index of the human misery caused by mosquitoes. For every person who dies from malaria there are dozens who are partially incapacitated by the affliction. A person may suffer from the disease the greater part of his life with reduction of productive capacity of 50 per cent or more, yet he finally succumbs to an entirely different ailment. Although rarely fatal, malaria undermines the constitution and resistence, with the result that the victim easily contracts other ills. Many of the chronic ailments of older age may be due to malaria," continues the institute. "Thus the death rate while impressive, represents only a fraction of the deaths that can be traced to the mosquito in this country.

"After many years study of malaria in various parts of the world, Sir Patrick Manson declared that the disease causes more deaths, directly and indirectly, than the total of all other parasitic diseases to which human flesh is heir.

"Although there are more than 1,500 species of mosquitoes in the world, fortunately only a few are carriers of disease." However, comments the institute, "the bite of any mosquito stings and is annoying, and should be avoided if only for personal comfort."

Neighborhood Personal News From Big Opening

Mr. and Mrs. Ray Pine and family of Iowa, visited Mr. and Mrs. Jodie Kem and family Monday afternoon.

Among those who shopped in Sikeston were Mr. and Mrs. Roy Crawford, Mr. and Mrs. Jerald Akers and family, Mrs. Charles Calhoun, Mr. and Mrs. Ferrell Bradford, Mrs. Mary Brown.

That users of newspaper space always reap good returns.

Ads produce sales.

Well written ads always give the public a good impression of the business that it advertises.

People who realize the value of a dollar always read the ads; they know they save by buying advertised goods.

People know the business concern that advertises sells the largest amount of quality goods to the greatest number of people and by having a big turnover they are able to sell at the lowest possible price.

There never was or never will be any form of advertising as good as newspaper advertising.

The greatest service in business is newspaper advertisements. They serve both the buyer and the seller.

Successful business men attribute a large amount of their success to the proper use of newspaper space.

Steady, consistent advertising backed by reliable merchandise always makes a successful business.

Time lost can never be regained. Don't lose time. Keep busy. Advertise.

W. R. Caruthers, editor of the Whitehorse (Yukon Territory) Star, says:

"Few people ever stop to think of the work that goes to make the newspaper the most effective advertising medium yet devised in this up-to-the- minute world of ours.

"A newspaper is a welcome visitor in every home because it carries such a varied and descriptive interpretation of every day and world news. Local happenings are vividly read by the hometowners at home and away from home.

"A newspaper is the most effective advertising medium because it creates a responsive reception for the advertising it carries. That people are more susceptible to the buying urge in their own paper is a factor that is many times overlooked.

"Remember—It takes time, money, effort and organization to keep the newspaper the most effective medium yet devised."

City Proposes to Pave 31 Streets Under WPA

Plans to seek approval of WPA projects for paving Sikeston streets were made this week by councilmen and residents who attended meetings at the city hall on Monday, Tuesday and Wednesday evenings.

By late yesterday, plans and specifications for surfacing a total of thirty-one streets were to be completed so that proposed projects might be submitted to the ninth area WPA office by the deadline this afternon. Curb and guttering projects will also be sponsored.

Since early last week, when announcement was made that property owners might secure cement bound macadam pavement for $1.-10 a front foot, residents have been busy circulating petitions requesting submission of projects for work on their streets. At a council meeting Monday evening ten petition were read and a movement started for securing others.

C. L. Blanton, Jr., area WPA director, advised councilmen to designate streets they want paved, to hire an engineer to prepare plans, and to determine a method of financing the property owners' share of the work.

On the recommendations of Murray Phillips, E. H. Smith, and Lynn Waggener, a committee appointed by Dr. G. W. Presnell, Harry Kerr, final plans engineer at the division office of the state highway department, and Harvey Johnson were engaged to complete measuring work and specifications for inclusion in projects to be sent to the WPA office.

A. W. Swacker, J. Otto Hahs, and Hubert Boyer, members of a finance committee, will determine a finance plan as soon as they learn definitely the projects' total cost to property owners, if they are approved and the amount that will be paid in cash at once. Tax bills will be issued after resolutions are published for two weeks if a majority of property owners does not object to the proposed paving and curb and guttering work.

No tax bill can be issued, however, until each improvement is finished and accepted by the council. Consequently, projects that are approved must be underwritten for the period between the start and completion of work since the owners' share of the total cost must be given to the works progress administration before projects can be started. Mr. Swacker intends to go next week to St. Louis to confer with loan agents about financial aid.

At Monday night's meeting, petitions carrying the names of a majority of property owners who asked that these streets be paved: Trotter from South Kingshighway to Scott; North Kingshighway from Center to Tanner; Gladys; Greer avenue; North street from North Kingshighway to North New Madrid; Park avenue; North Ranney; Matthews from South Prairie to Highway 61; Moore from Hunter to Highway 60; Kendall.

On Tuesday evening, councilmen designated these streets for paving under the WPA: North street from North New Madrid to the Frisco railroad tracks; Ruth; New street; Kathleen from Highway 61 to Lion; Kathleen from South Kingshighway to Highway 61; School from Prosperity to Dorothy; Scott from Malone to Dorothy; South New Madrid from end of the pavement to Gladys; North Prairie from Center to Tanner; Gladys from Highway 61 to Lion; South Ranney from Malone to Greer; Greer from Highway 61 to Lion; Matthews from Highway 61 to Lion; Lake from North Kingshighway to Highway 61; Harris from North New Madrid to Cleveland avenue; the alley running between North New Madrid to North Kingshighway behind the Bank of Sikeston.

When councilmen met Wednesday night to pass resolutions ordering paving done, proposals for this additional work were submitted: Widening Malone ten feet from Prairie to forty feet east of the Frisco tracks; Dorothy from New to Delmar; Williams from New to Delmar, Daniel from New to Delmar; Lake from Highway 61 to a point 400 feet east of Cleveland from Harris to North Kingshighway; the alley running behind the city hall between New Madrid and Kingshighway.

The cost to property owners of curbing and guttering along streets here will be 13 cents a front foot. Curbing and guttering projects have already been submitted to Jefferson City for a consideration are for Park, Moore, Ranney, North, Greer, Matthews, Kathleen, Ruth, Gladys Dorothy, School, Scott, New Madrid, New, Shelby, Prairie, East, Wakefield, Daniel, and Williams. Additional curb and guttering projects proposed by residents and councilmen Monday night were for all other streets to be paved except two which have curbs.

The property owners' share of the cost could be paid either when projects are completed or during a several-year period. Cement bound macadam is built by spreading and compacting coarse stone to a desired depth, filling open spaces in the gravel with cement grout, and finishing the surface as on any other concrete pavement. The cost of $1.10 a front foot is for a thirty-foot street and would include alley entrances and intersections. Residents living on more narrow streets would be asked to pay less. Labor and the remainder of the cost would be furnished by the works progress administration.

THREE GROUPS REQUEST PWA GRANTS FOR SEMO

Applications for public works administration loans and grants in three Southeast Missouri counties were received in the St. Louis office Wednesday, twenty-four hours before the deadline for submitting projects.

Cape Girardeau is seeking approval for construction of a $132,-971 sanitary sewer system; the Butler county school district, a school building to cost $38,100; and the Dunklin county school district a school structure to cost $112,700.

Oran planned this week to apply for a PWA grant of $21,000 for a waterworks system. Residents approved a $26,000 bond issue as the city's share at an election Tuesday.

Sinclair Station to Be Built Here

With the closing of a deal Thursday for purchase of the northwest corner of Center and North Kingshighway, preparations are being made for starting construction of a new service station. Workmen will begins this morning to move the former Tanner home about fifty feet north to clear the corner for the station.

Bought by L. F. Brenneisen of Cape Girardeau, the lot will be leased to the Sinclair Oil Company for erection of a building exactly like the one shown above, located in St. Louis at the corner of Delmar and Hanley. Seven weeks will be required to complete the work.

MRS. LOU BOWDEN WEDS OKLAHOMA RESIDENT

Mrs. Lou Bowden of Sikeston and Jack Robertson of Oklahoma City, Okla., were married in New Madrid last Thursday morning. Mrs. Robertson, a daughter of Mrs. Friendly Thomas of Kennett, was formerly employed at Graber's here. Mr. Robertson is a traveling representative of a stove company. Immediately after the wedding, Mr. and Mrs. Robertson left for Oklahoma City, where they will live.

MISS COLLEEN CONVERSE WED TO AMOS HARGRAVES

Miss Colleen Converse was married in St. Louis Monday afternoon to Amos Hargrave.

The service was read by the Rev. H. H. Brower, pastor of the Lafayette Park Methodist church. Mr. and Mrs. Everett Hargrave of St. Louis, a brother and sister-in-law of the bridegroom, were the only attendants.

Mrs. Hargrave is a daughter of Arthur B. Converse of San Francisco, Calif., and a granddaughter of Mrs. N. A. Martin of Charleston. She is a graduate of the Charleston high school and of a Cape Girardeau beauty academy and is now employed at Sam Graham's beauty shop.

Mr. Hargrave, a son of Mrs. Maud Hargrave, works at the International shoe factory. He and Mrs. Hargrave are now at home at 222 Kathleen avenue.

NAZARENE CHURCH WORK TO BE COMPLETED SOON

Plastering and painting at the Church of the Nazarene will be started as soon as present debts are settled, the Rev. C. F. Transue said Thursday.

The cost of remodeling now totals $3100, all of which has been paid except a $675 lumber bill. For this debt, members last Sunday pladged $400 to be contributed in next month. During the same period they will secure the remainder from additional pledges.

Crowds are rapidly increasing since carpentering work was finished recently. A congregation larger than any in three months attended strvices Sunday night.

7 TO ATTEND NAZARENE ASSEMBLY IN ST. LOUIS

Seven members of the Church of the Nazarene will leave Monday for St. Louis, where they will attend sessions of a woman's missionary society convention and of a district assembly.

The missionary society meeting will be held at the First Church of the Nazarene from Monday evening until Tuesday night, when the assembly will convene. Although the assembly will extend through Sunday, Sikestonians will return Saturday.

Members of the party will be the Rev. and Mrs. C. F. Transue, Mrs. George Johnson, Miss Marie Price, Curtis Cline, and Mr. and Mrs. Herbert Finney.

On account o f a large number of resolutions in this issue, local and personal items were left out.

Miss Marcia Weber of Bloomfield is spending this week as the guest of Mr. and Mrs. Robert Mow, Jr.

Slack Buys Corner Lot

T. A. Slack late Thursday afternoon closed a deal for purchase of a lot and a half at the northwest corner of Prairie and Lake streets. The ground was bought from Maggie Tanner estate.

The transaction involves a lot 120 by 145 feet, on which is one house. Mr. Slack plans to build three modern residences on it next spring.

Christian Ladies Aid to Meet

Members of the Christian church Ladies' Aid society will meet at the church at 2:30 next Thursday afternoon, Mrs. Glenn Matthews, the president, has announced. Thursday will be annual dues day. Plans for winter work will be discussed. All members are urged to attend.

Gust Zacher will leave Sunday for Fulton, Mo., where he will enroll in Wesminster College. He will be taken to Fulton by Mr. and Mrs. Gust Zacher.

SPECIAL MUSIC TO BE SUNG AT M. E. CHURCH

A special musical program will be given during the morning services Sunday at the Methodist church. The choir, under the direction of Mrs. R. A. Moore, will sing Jordan's anthem, "In Thee O Lord Do I Put My Trust". Mrs. Clarence Keaton of Cairo will be soloist Sunday, singing "Fear Not Ye O Isreal" by Dudley Buck.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Moore Avenue from the North line of Center Street to the North line of Malone Avenue, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Moore Avenue from the north line of Center Street to the north line of Malone Avenue, otherwise known as U. S. Highway 61, all constituting a continuous imprivement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1302, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Matthews Avenue from the east line of Prairie Avenue to the west line of South Johnson Street, otherwise known as U. S. Highway 61.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Matthews Avenue from the east line of Prairie Avenue to the west line of South Johnson Avenue, otherwise known as U. S. Highway 61, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1295, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter South New Madrid Street from the north line of South Street to the North line of Gladys Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter South New Madrid Street from the north line of South Street to the north line of Gladys Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1290, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Dorothy Street from the west line of New Street to the east line of Delmar Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Dorothy Street from the west line of New Street to the east line of Delmar Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and by removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1304, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering and engineering expense shall be done at the expense of the owners of property deriving benefit therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4: That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H Presnell,
Mayor.

CURRENT EVENTS PHOTOGRAPHED FOR

THE STANDARD

CLOSE HARMONY — The pretty Pickens sisters from Georgia, popular singing stars, prepare to hear their latest phonograph recording on a remarkable little record player no larger than a cigar chest, which plays records through any electrically operated radio set. The new mechanism is a recent RCA-Victor Co. development.

WELCOMES VISITORS TO MEXICO — Primo Villa Michel, Minister of National Economy, in charge of the tourist trade in Mexico. More people from the U. S. than ever are traveling there.

FEDERAL ADMINISTRATOR AND BRIDE—James A Moffett and his bride, the former Mrs. Adeline Moraft, were secretly married in New York and started on their honeymoon to Florida aboard the bride's palatial yacht

THE BIG BERTHA OF FLASHLIGHTS — Donald Ayer receives the new 10-cell Bond Flashlight that has a mile range, and which was used for the first time in the Treasure Adventures of Donald Ayer, afternoon radio program sponsored by Bond Electric Corporation.

JOSEPH STROBLE of Los Angeles tastes soap for a living. His principal duty is the exacting one of tasting the product as it cooks in huge cauldrons.

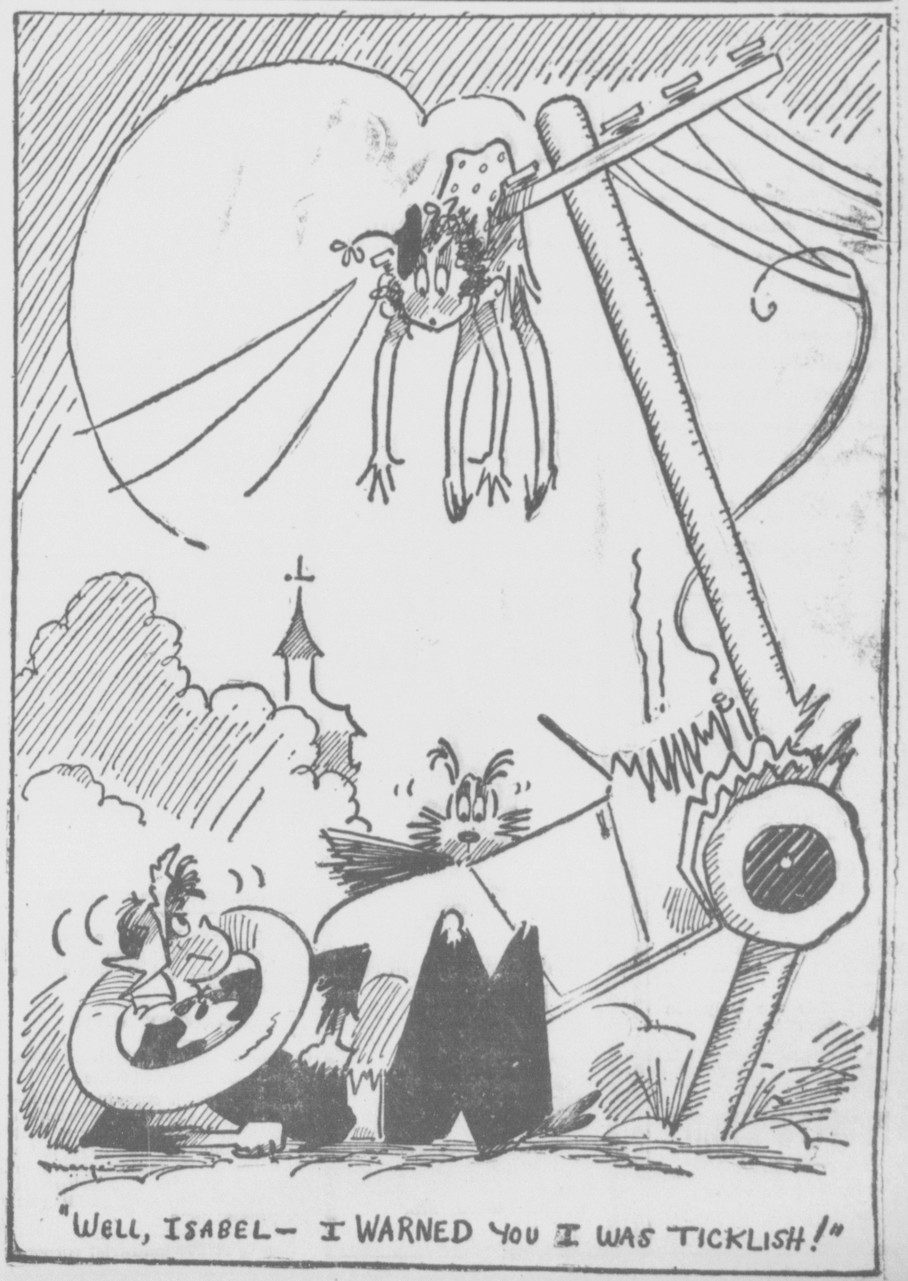

LONG'S FOOTBALL Senator Refuses to Serve — Abe Mickal, Louisiana State University football star, who has created a furore in Baton Rouge.

NAVY ADVANCES—Borries makes a short gain through the line—as 60,000 watched the Navy eleven defeat Notre Dame at Cleveland.

THERE'S NOTHING LIKE FINDING OUT FOR SURE

Trial of One Alleged Carlton Killer Begins

The Scott county circuit courtroom was filled Thursday morning when the state began questioning witnesses in its trial of Floyd Smith of Cape Girardeau, who is charged with murdering W. T. Carlton on May 8.

Smith is the first of three defendants to be tried on murder charges. His hearing was begun Thursday morning after a jury had been chosen the day before. By noon Thursday, four state witnesses had testified and although the state expected to complete its case by late Thursday, many believed testimony would necessarily extend into today.

A mild sensation was caused in court Thursday when Prosecutor W. P. Wilkerson and Stephen Barton of Benton, state's representatives, introduced as evidence the door and door frame thru which Carlton was shot to death. The door and frame were taken into court to show jurors how bullets were fired through the closed door into Carlton's body.

The evidence was introduced chiefly to counteract the defense contention that Smith shot in self-defense when he thought Carlton intended to kill him. Evidence at the trial Thursday was given to prove that Smith fired to kill without knowing whether Carlton had a gun. Splinters in the door were found only on the side on which Smith was standing.

Mrs. W. T. Carlton, Miss Juanita Carlton, and Mr. and Mrs. Wiley Silcox, neighbors of the Carltons, testified for the State Thursday morning, relating incidents about the murder.

Carlton, a Cotton Belt railroad pumping station operator was killed when he returned home at night and surprised men waiting to rob Mrs. Carlton of $425 she carried with her constantly. He was shot in the station as he started to open a side door into the house living room to investigate noises his wife had heard. While he lay dying, Mrs. Carlton, their daughter, Juanita and later Mr. and Mrs. Silcox, were held prisoners for more than half an hour by one bandit who made them execute various errands for him.

The day following the murder, Smith, Claude McGee and John B. Manor, and Ira Collins were arrested in Cape Girardeau and charged with the murder. Collins, Manor, and McGee made written confessions admitting the attempted robbery and the killing and implicating Smith. Later Collins was charged with burglary and larceny since he was not directly involved in the shooting.

Six damage suits filed in court against the Scott County Milling Company as an outgrowth o a collision of the Benton school bus and a milling truck last spring will be taken from the Scott court on a change of venue, probably to New Madrid county. Plaintiffs are Charles Bollinger, Jr., Leola Bertrand, James M. Kurn, Harold Woolridge and R. H. Venable .

WPA DISTRICT REQUESTS AID FOR PENSION BOARDS

A project for old age assistance clerical help in the ninth area has been approved in Jefferson City, Matthew S. Murray, State WPA administrator, announced Wednesday. The district has asked a grant of $7032, furnishing eight man years, for assistants to aid county boards in their work. Final approval must be secured in Washington.

Among other projects Murray has recommended are two in Cape Girardeau: a home-making project involving $2054 in federal money and furnishing thre e man years; and razing the old Lorimer school building and grading the grounds. The grant sought for this project is $19,248. It would furnish thirty-seven man years.

By this week Murray had approved and sent to Washington 450 projects to cost a total of $54,739,093 and to furnish a year's work for 79,045 persons. Statewide projects costing $37,330,230 constitute the largest unit.

Included in it are projects for repairing the state capitol and eleemosynary and penal institutions; state park improvements; professional and clerical aid, state planning board research; educational work; national guard armories; sewing centers; and farm-to-market roads.

Thirty-one projects involving a cost of $2,303,769 and furnishing 4338 man years in the ninth area have been approved by Murray. Only one other district in the State at Kansas City has had projects approved totaling more money. Rapid co-operation of C. L. Blanton, Jr., area WPA director, with the Jefferson City office is responsible for approval of such a large expenditure.

The SNAPSHOT GUILD

Prove Your Angling Ability

TODAY'S Snapshot Guild is directed to all wives, husbands, daughters and sons who follow the great outdoor sport of fishing. What has fishing to do with amateur photography? Just this. The Chicago Izaak Walton League, according to news dispatches, has included in its curriculum, in the fishing school conducted in Wisconsin, a "course of truthfulness." War has been declared against the angler who persists in telling about the "big one that got away." The law of the Izaak Walton League of Chicago regarding this phase of the art of fishing is very brief and to the point. Here it is. "Get your fish, *take his picture* or keep quiet."

No one in particular is being accused of telling little white lies about the "whopper" that got away but Chicago's Izaak Walton League law should be recognized throughout the country. "The old adage about the cake might be revised to—"You *can* have your fish and eat it too" for although the fish may end its days in frying pan or broiler, a picture of it will live forever.

There is one thing to remember in taking snapshots on fishing trips. Just as you use different kinds of bait for catching various species of fish so you must vary your methods of taking snapshots under different lighting conditions.

Suppose, for instance, that you are deep sea fishing or out in the middle of a lake under the glare of a mid-July sun. One of your party gets that long-hoped-for jerk on his line. If you have one of the average folding cameras it should be ready for action with the diaphragm opening set at *f*.11 and the shutter speed set at 1/100 of a second. This setting of the diaphragm and shutter will serve two purposes. First—you will have the proper exposure and second—at 1/100 of a second you will stop the action as your lucky angler friend pulls the fish out of the water and into the boat.

If you have a box type camera use the second stop opening. In snapping the picture with this type of camera you will get the best results if you wait until the fish is safely in the boat and then snap the picture after the catch and when your subject is not in motion.

Let me caution you, however, against a common error. Don't forget to set your camera for distance if it is of the focusing type. If you have a fixed focus camera don't get closer to your subject than about eight feet unless you use a portrait attachment.

Now—suppose you are fishing on a river where the trees obstruct much of the light. Snapshooting under such conditions requires a different technic. Unless you have a camera with an *f*.6.3 lens or faster you had better forget about fast action pictures and confine your efforts to taking your subjects when not in rapid motion.

If you have a box type camera you should open it to a large stop and with the average folding camera open the diaphragm to *f*.8 or *f*.11 and set the shutter speed at 1/25 of a second. And remember—"Get your fish, *take his picture* or keep quiet."

JOHN VAN GUILDER.

"Distortion is possible if you want it (left) or it can easily be avoided"

WHAT would your girl friend or wife say if you made your appearance with her picture after the Sunday outing, showing her with enormous feet such as those in the picture to the left?

War would probably be declared when you made the familiar statement, "Well, dear, the camera never lies." But the truth is that the camera *didn't* lie for it caught just what the lens saw.

Evidently the amateur who took this picture held the camera quite low, and probably less than three feet from the two feet of the attractive young lady. Her head and shoulders were at the right distance from the camera to give good perspective but her feet were perhaps thirty-six inches nearer the lens.

Perspective in a picture is determined by the point of view from which the lens makes the picture, so after all the camera did not tell a little white lie, but portrayed exactly what it saw and just about what the eye would see if one looked at the subject from the same point of view.

True, this is a much exaggerated example of bad perspective, but in making portraits, or indeed, "close-ups" of any object, we should be careful to see that no part of the subject is very much nearer the camera than the rest.

In making portraits we are sometimes likely to permit our subject to place a hand well forward on the arm of the chair. If working within three or four feet from your subject the hand will appear abnormally large. Better have the hands in the lap in a natural position and close to the body, with most of the fingers folded under.

Now you should know how and how not to get distortion in your portraits so let your conscience be your guide.

JOHN VAN GUILDER.

RECOVERY NOTES

Compiled by Dwight H. Brown, Secretary of State

Mexico, Mo., is enjoying a building boom. A $500,000 construction program is now under way in that city, the building industry there experiencing its busiest season in years. Incidentally, Mexico is without a vacant store building at the present time.

Reprts of 260 industrial corporations for the first six months of 1935 showed combined net profits less deficits, of $313,000,000, as compared with $265,000,000 a year ago, a gain of 17.9 per cent. The annual rate of rteurn over the same period was 6.5 per cent, against 5.5 per cent a year ago.

The National Forest Reservation Commission has authorized the purchase of 117,753 acres of forest land in the eight National Forest units of Missouri, announces Paul Kelleter, State Forest Supervisor. The land will cost the federal government $313,160.

Car loadings of revenue freight for the week ending August 24 totaled 514,973 as compared with 506,640 a week ago and 501,319 in the same week a year ago. Virtually every road reported a gain of loading durink the week.

Better times are seen in the near future by Jerome D. Barnum president of the American Newspaper Publishers' Association. "There are definite signs of an upturn for fall in manufacturing and retail lines," he says. "The emergency is over. Business can now go ahead just from the natural demand for goods."

The Missouri State Building Commission has approved plans for a $170,000 administration building at the Algoa Reformatory and work will start on the new structure in the near future. Other projects under consideration are a $52,000 cottage at the Carrolton Children's Home and the fireproofing of two ward wings at the St. Joseph State Hospital at a cost of $107,000.

Business failures in the United States continue to show a falling off. The total for the week ending August 22, as reported to Dun & Bradstreet, was 198. These figures compared with 203 in the preceeding week and 218 for the corresponding week in 1934.

St. Louis, Mo., Sept. 4— Jimmie Wilson's battling Philadelphia Phillies, whose victories over the New York Giants during August were of material aid to the Cardinals in their recent spurt to first place in the National League pennant race, will come to Sportsman's Park next Sunday (September 8) for a double-header. The Phillies will also meet the Cardinals on Monday, Tuesday and Wednesday of next week, playing single games.

Although the Cardinals have won 12 out of 17 games from the Phillies this summer, Jimmie Wilson's men have provided plenty of tough opposition for the World Champions and are regarded as far from easy marks.

The Phillies show a lot of power when traveling at top speed and are expected to furnish some close battles here.

Philadelphia will be preceded at Sportsman's park by the Boston Braves who complete their stay here with single games on Friday and Saturday of this week.

The Giants will follow the Phillies here and will be the only team to come to Sportsman's Park this month with a clearly defined edge over the World Champions with a record of 11 victories against 7 defeats. This series promises to be a high spot of the entire season.

The Cardinals will meet the Giants in single games on September 12, 13, 14 and 15, the final game coming on Sunday.

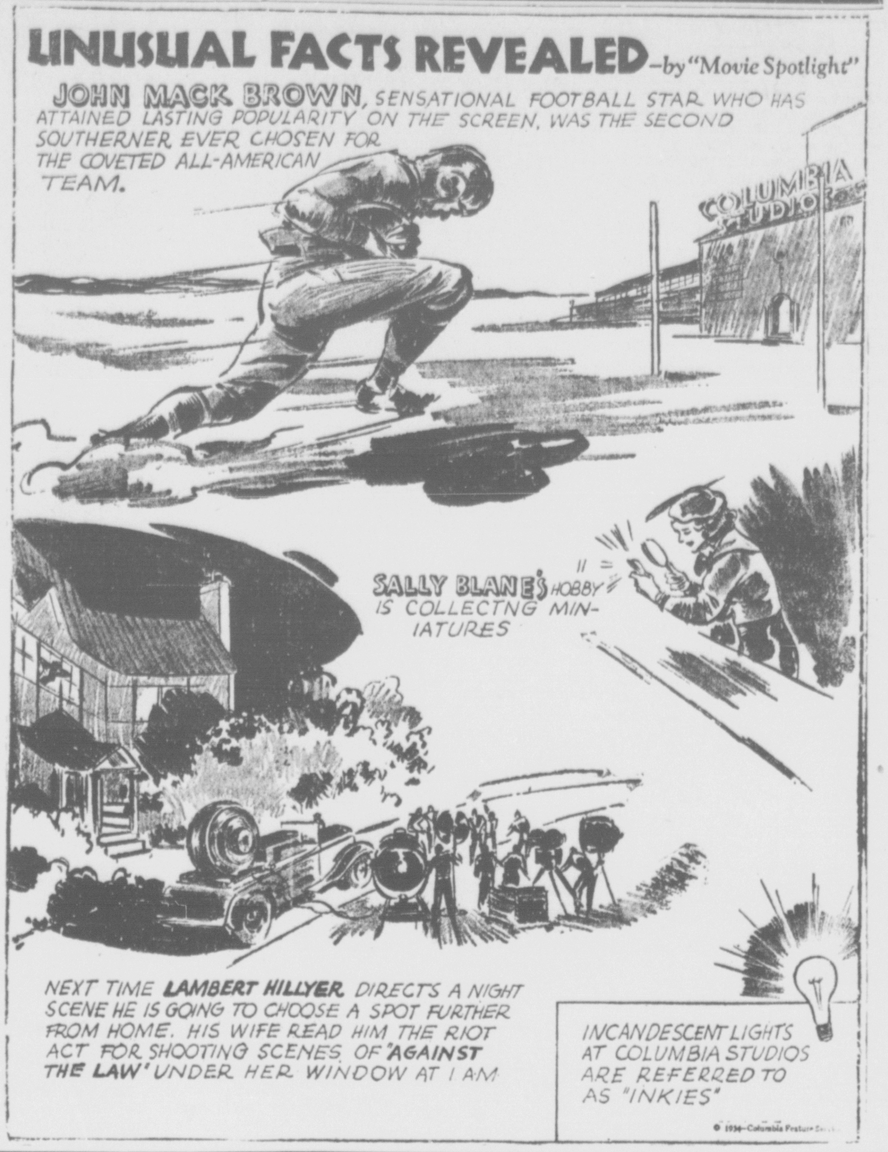

The Brooklyn Dodgers will come to St. Louis next, to play a five game series. The Cinminnati Reds will follow for three games, completing their stay with a double-header on Sunday, September 22. The Pittsburgh Pirates will then pay their second visit of the month, coming here for single games on September 23 and 24. The Chicago Cubs then move in to play single games until the end of the season on Sunday, September 29.

Because of the heavy demand for tickets during September, a special long distance telephone line has been installed in the Cardinal ticket office for the convenience of out-of-town fans. Fans living at a distance can make their reservations by calling Long Distance 99.

Car Catches Fire in Collision

A Plymouth coach driven by E. C. Pancoast, an employe of the state highway department, caught fire Wednesday afternoon when it collided at the corner of Malone avenue and North New Madrid street with a model A Ford driven by an International shoe factory worker. The accident happened as Pancoast started to turn south into New Madrid. Both cars were slightly damaged, but flames in Pancoat's machine were extinguished before members of the fire department arrived.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Harris avenue from the west line of New Madrid street to the South Line of Cleveland avenue.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as Follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Harris Avenue from the west line of New Madrid Street to the south line of Cleveland Avenue, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1282, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter North Street from the west line of North Kingshighway to the east line of North New Madrid Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Street from the west line of North Kingshighway to the east line of North New Madrid Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1280, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Scott Street from the south line of Gladys Street to the North line of Ruth Sreet.

Be it resolved by the City Council of the City of Sikeston, State of Missouri as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Scott Street from the south line of Gladys Street to the north line of Ruth Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1287, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter Ruth Street from the east property line of the St. Louis San Francisco railroad to the west line of New Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter Ruth Street from the east property line of the St. Louis and San Francisco Railroad, to the west line of New Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council by ordinance number 1286, and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the general revenue fund of the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

RESOLUTION

A resolution declaring it necessary to pave, curb, and gutter North Street from the east property line of the St. Louis and San Francisco Railroad, to the west line of New Madrid Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Street from the east property line of the St. Louis and San Francisco Railroad, to the west line of New Madrid Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council, by ordinance Number 1279 and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Read first, second, and third times and passed and approved this fourth day of September, 1935.

Approved: G. W. H. Presnell
Mayor

Attest: A. C. Barrett, City Clerk.

RESOLUTION

A resolution declaring it necessary to pave, North Kingshighway from the North line of Center Street to the south line of Tanner Street.

Be it resolved by the City Council of the City of Sikeston, State of Missouri, as follows:

SECTION 1: That the City Council of the City of Sikeston deems and declares it necessary to pave, curb, and gutter North Kingshighway from the north line of Center Street to the South line of Tanner Street, all constituting a continuous improvement.

SECTION 2: The said improvement shall be made by laying curb and gutter, and removing the present earth roadway, and placing therein a six inch layer of crushed rock, and then placing thereon a 1½ to 2 inch layer of cement. For a further and fuller description of the work to be done hereunder, reference is hereby made to plans, specifications, and estimate of costs covering this work, adopted by the City Council, by ordinance Number 1279 and now on file with the City Clerk at the City Hall.

SECTION 3: That the cost of said paving, curbing, guttering, and engineering expense shall be done at the expense of the owners of property deriving benefits therefrom, because in the opinion and judgment of the City Council, the City is not in a condition to warrant an expenditure therefrom to pay for said work, engineering or any part thereof; and said paving, curbing, guttering, and engineering shall be included in the estimate of the cost of the improvement of said street and the whole cost levied as a special assessment or tax against the property deriving benefit from said improvement, and that tax bills shall be issued therefor.

SECTION 4. That the City Clerk is hereby authorized and directed to furnish the Sikeston Standard, a weekly newspaper of general circulation, published in the City of Sikeston, a copy of this resolution, so that it may be published and appear consecutively in the two next weekly publications of said newspaper following the passage and adoption of this resolution.

Mayor

Attest: A. C. Barrett, City Clerk.

NEW WHEAT PLAN IS SAFE

Is So Characterized by Davis, Chief of the Triple-A

In announcing last week that the new wheat contract would call for a reduction from the base acreage of 15 per cent, Chester C. Davis, Administrator of the Agricultural Adjustment Act assured farmers that they need feel no hesitation about signing the new contract because of court cases pending which involve the Adjustment Act. The contract is expected to be ready in final form some time this month. As soon as the contract is available, it will be explained to New Madrid county farmers, according to County Agent Leslie B. Broom. Several reasons why farmers should feel free to sign contracts were emphasized by Mr. Davis as follows:

First, the new amendments to the adjustment act, as passed by both houses of Congress, specifically enact the rates of the processing tax, thus meeting fully the question of delegation of legislative power, which was decisive in every instance in which lower courts held the processing tax provisions of the original act unconstitutional.

Second, the provisions of the new contract permitting termination by the Secretary of Agriculture at the end of any year, and allowing grower withdrawal at the end of the first two years, give ample machinery for ending the program in the event of an adverse decision by the Supreme Court.

Third, signers will be fully protected as to compensation for actual performance of compliance with the contract, up to the time of termination.

"The Government would have both a moral and legal obligation to compensate farmers for performance up to the date of such a decision," Mr. Davis said. "The Government, in fairness and honesty, would pay, and legally would be bound to pay in full for their compliance up to that time, but not beyond that time."

56 BABY SNAKES MET DEATH WHEN MOTHER WAS CRUSHED

When A. G. Booker ran over a snake Monday morning, he had no idea he was to bring about the death of some 56 other reptiles, but on getting out of his car to view the 46-inch long water mocassin, he saw som smaller snakes crawling from the body of the mother snake. His curiosity was aroused and he began counting his little snakes as they came out, and altogether there were 56 of them, all about 11 1-2 inches long. Mr. Booker gathered all of them up in a bucket and brought them into town. With him in his car at the time were his father, T. M. Booker, and a son-in-law, A. D. Hawkins. Sam White and Marshall Gilliam were in a wagon at the bridge over Ditch 75 when the car ran over the snake and witnessed the unusual spectacle. The men all live about 2 1-2 miles southeast of Kennett on "Hemphill Deadening."—Kennett Democrat.

NUDE WOMAN RESCUED IN LONG ISLAND SOUND

Bridgeport, Conn., Sept 2 — A nude woman, swimming but nearly exhausted was rescued by two fishermen far out in Long Island Sound yesterday before dawn. She was four miles from shore.

Police said the woman told them she was Miss Alice Wetzel, 30 years old, and had lived in New York, that she was married and has one child. She refused to say where her husband and child were and would give no other information. She said she went in swimming at Seaside Park, nearly six miles from the scene of her rescue, shortly after midnight but did not explain her action in swimming so far into the Sound. She was taken to Bridgeport Hospital.

FIRST BALE GINNED AT SENATH MONDAY

Bertig's Gin at Senath ginned the first bale of cotton in this county for the 1935 season on Monday. The 1565-pound load of cotton, grown by W. D. Campbell of near Senath, ginned out a 485-pound bale.

Two bales of cotton were ginned on Monday by the Southern Gin Co. gin at Bakerville, the cotton being grown by J. W. Morgan and Harry Robbins, sharecroppers on the Bert Richardson farm, south of Bakerville.—Kennett Democrat.

Girl Rider Is Greatest Of All Equestriennes

HARIETTA, FAMOUS EQUESTRIENNE, AND KI KI

Less than 20 years of age yet the greatest of all the equestienne stars in Spangleland. That is the way "Who's Who" in the realm of "white tops" characterizes Harietta, the dainty Viennese girl whose breath-taking accomplishments on the back of a galloping horse eclipses all riding achievements in the circus world.

The list of Miss Harietta's accomplishments is a long one, but there are two things in which she excels. She is the only rider among either women or men who can do a "forward somersault" on a running steed.

Harietta is of a family of famous riders who compose what is known in the cities of the Austria-Hungary as the "royal riders of the ring". She will be seen in solo riding numbers in which she will perform her most difficult feats, when the Cole Bros.,-Clyde Beatty Circus exhibits in Sikeston, Saturday, September 14.

Harietta will prove the star of a score of other riders who will appear from time to time. Spectators will see her perform somersaults from one galloping horse to another and see her jump to the back of another etshrdluetaoshsn back of others going at swiftest pace with her feet tied in market baskets. And through it all she will smile, smile and smile again. Miss Harietta will appear early in the program. First will come the tremendous spectacle of romance and chivalry, the "Serenade of Spain," with a cast of nearly 1,000 characters. It is the biggest spectacle ever produced in America.

An immense street parade, nearly three miles in length with scores of elaborately carved and gilded allegorical floats and tableau wagons together with nearly 500 horses, will be seen on the downtown streets at 11 a. m., circus day. There will be five trumpeting bands, five herds of elephants and two caravans of humping Siberian and Asiatic camels. Doors to the big show will open at 1 and 7 p. m. The big show starts promptly at 2 and 8 p. m.

NOTICE OF ADMINISTRATION

Notice is hereby given, That Letters of Testamentary on the estate of Amanda J. McKinney, deceased, were granted to the undersigned on the 21st day of August, 1935, by the Probate Court of Scott County, Missouri.

All persons having claims against said estate are required to exhibit them to me for allowance within six months after the date of said letters, or they may be precluded from any benefit of such estate; and if such claims be not exhibited within one year from the date of said letters, they shall be forever barred.

Hazel McGinnis, Excutrix.

Witness my hand and seal of the Probate Court of Scott County.

O. L. Spencer,
Probate Judge.

MILLIONS FOR MISSOURI FARMERS FROM THE AAA

Rental and benefit payments totaling $28,202,878 were made to Missouri farmers cooperating in the agricultural adjustment program during the fiscal year ending June 30, the AAA offices at Washington announces. Signers of corn-hog contracts received $24,293,389 of the Missouri payments. Other payments were as follows: Cotton, $2,237,476; wheat, $1,552,911, and tobacco, $119,100.

The Sikeston Standard $2 per year

Harold Litke, 28, a Chicago gardner, was cycling along the Des Plaines River bridle path when at a turn in the lane he suddenly encountered an equestrian. In order to avoid a collision, he swerved to the right and he and his bicycle catapulted into the river below. His clothes became entangled in the wheels of the vehicle and before guards could reach him he was drowned.

There can be only one FORTUNE'S

—and here's why!

It takes more than fine ingredients to make ice cream like Fortune's. It takes years of experience in blending and freezing by exclusive Fortune methods. This is what gives Fortune's that delicious, distinctive flavor that makes it the daily choice of thousands.

Hollywood Star-Lites

By Chuck Cochard

Hollywood, Calif., September 4—Where do the movies stand right now on color?

Color pictures seem to be definitely on the upgrade in Hollywood. A few knots have yet to be untied, but if these are accomplished you can expect to see the movies adopt color on a large scale.

Color on the screen is, of course, constantly improving and certain producers are convinced of its great future, especially those persons producing short subjects. Harold Lloyd says "The difficulties of photographing color are more than technical. It is necessary to know as much about color as a mural painter. You must avoid disharmonies. If certain matters pertaining to the high cost of colored pictures can be adjusted and this film adapted to studio needs, universal color will soon sweep the screen the way sound did in 1928."

Will Rogers' memory will be perpetually commemorated at the 20th Century-Fox studios where the beloved star worked. By the decision of Darryl F. Zanuck, vice-president, the new $200,000 sound stage now rising at the Westwood Mills studio will be dedicated to the late Will Rogers.

STAR-LITES—Jeanette MacDonald and Nelson Eddy, the screen's newest singing pair of "Naughty Marietta", will be paired again in what yours truly believes is a "natural". I mean the operetta "Rose Marie" . . . The platinum blonde "pluse increaser", Jean Harlow, tells me she's all thrilled about changing the color of her hair for her new picture, "Riff Raff", in which she is costarred with Spencer Tracy. She can't decide whether she wants to be a red head or a plain brunette. Personally I think she'll have her hair turned a soft brown . . . The recent heat wave in Hollywood caused Carole Lombard to go stockingless throughout her latest picture "Hands Across the Table". Her skin is so tanned that the camera cannot detect their absence.

BEAUTY HINTS BY JEAN HARLOW—Miss Harlow says that it is a matter of studying yourself in order to keep beautiful in spite of strenuous work. She said, "In matters of food, exercise, recreation, and sleep you have to determine just how much you can take—and how much you can go without." In Jeans diet her don'ts are potatoes and breads. In place of bread she eats Melba toast or rye crisp. Here's her diet:

Breakfast: Fruit juice, coffee, rye crisp and an occasional soft boiled egg.

Lunch: A clear, vegetable meat broth.

Dinner: Two vegetables, a salad, either meat or cottage cheese, a dessert of fruit.

Setting up exercises are tabu with Jean. Golf, tennis, swimming, and dancing are her favorite exercises. Next week Jean Harlow will reveal the secrets of how she keeps her lovely complexion.

DO YOU KNOW: That Fredric March, who plays opposite Greta Garbo in "Anna Karenina", started his career as a commercial photographer's model? He and Norma Shearer first met when both posed for the same artist.

ON PARADE: Mae West just smiling when questioned about who gave her that gorgeous diamond bracelet for her birthday . . . Shirley Temple has arrived home from a vacation trip to Hawaii with her parents . . . her next will be "The Littlest Rebel" . . . Dick Powell is taking singing lessons. "I'm not studying to be another Lawrence Tibbett" he explained to me, "but I am taking singing lessons to improve my crooning. I'm a microphone crooner and that's what I want to stay."

INSIDE GOSSIP: That world famous motion picture star I mentioned last week is none other than Mary Pickford and the object of her affection is Buddy Rogers, orchestra leader and film star.

What two famous stars, who are considered the latest screen combination, skipped off to Santa Barbara last week end to do some personal shopping? The young lady is now wearing a large diamond ring, but refuses to answer when asked about who gave it to her. Wait till next week. Thats all for today. Cut.

MAXINE SELLARDS TO COMPETE IN NEIGHBOR DAY QUEEN CONTEST

Miss Maxine Sellards, a senior at the high school was chosen Tuesday morning as Sikeston's candidate for the Benton neighbor day queen's crown. Miss Sellards was selected by her classmates.

This (Friday) evening she will compete for the title of queen at the Scott county courthouse with other high school sudents from throughout the county. The successful candidate will preside at the neighbor day celebration in Benton, October 3.

Miss Henrietta Moore is the only Sikeston resident who has been selected queen during the ten years of neighbor day's existence. Miss Moore reigned in 1932.

This afternoon, members of the Sikeston high school band will give a short concert in Benton.

Softball Game Called Off

The Sikeston-Cape Girardeau Lions clubs softball game, scheduled for Tuesday, has been called off, according to Clay Mitchell. The action was taken because of work which will be done immediately on the high school athletic field for the opening of the football season.

Mr. and Mrs. J. Ben Blanton, Mr. and Mrs. Gilcrest, and Mr. and Mrs. Banroff Terry of Kansas City were the week-end guests of Mr. and Mrs. C. L. Blanton, Sr.

Big Show That Is Truly Different

Presenting Very Latest in Sensational Circus Acts

The "World's Best Amusement Institution"—thus it has been officially acclaimed. Internationally famous, favored beyond all compare, Sterling Brothers Circus and Capt. William Seils Trained Wild Animal Shows Combined stands by itself as a gigantic entertainment for circus patrons. The merging of these two great shows comes as great news. To the Sterling Brothers, sole managers and directors of this Great Enterprise, the consolidation stands as the realization of a life-long ambition; to gather all that is wonderful and all that is novel in circus achievements into one vast ensemble and present it on a single program.

Day after day, in town after town, the Combined Shows exhibit such marvels as the world has never seen before. Fifty cars are required to transport its thousands of wonders. Yet with all the immensity of it—in spite of the fact that Capt. William Seils Trained Animal Exhibition has now been added for good measure—all is presented for the price of one single admission ticket!

The Seils-Sterling Circus has come to be the accepted circus. It is the standard circus, the all satisfying circus. The public turns to it for its amusement. The newspapers of America devote many columns each year describing the marvels of it, and often dwell upon its many wonders on their editorial pages. It is a circus that is truly different.

Miss Rose Heller, "Riding Sensation of the Age', will give local circus fans a thrill when Seils-Sterling Circus plays Sikeston on Monday, September 9, afternoon and night.

The newest European sensation first time in America and can only be seen with this all feature circus. Mlle. Donzelle, in her daring graceful and difficult achievement, The Plunge of Death.

Personal And Society Items From Morehouse

Mr. and Mrs. Harry Chatron and children of St. Louis visited the latter's parents, Mr. and Mrs. George McFarling, over the week end.

Mrs. Jim Reeves visited her daughter, Mrs. Charles Legate at Essex, last week.

Mr. and Mrs. Ira Menees attended the Fair, at Anna, Ill., last Friday.

Mrs. Thomas Trigg of Malden visited her mother, Mrs. Joe Hight here, Friday.

Mrs. Rudy Broch and Mr. Russell Leming were guests of their parents, Mr. and Mrs. Fred Leming, the week-end.

Mr. and Mrs. Aaron Newton of St. Louis visited relatives here, Sunday.

Earl Hackins of East St. Louis, Ill., was a visitor here, Saturday.

Miss Vinita Edwards and mother, Mrs. O. D. Edwards, of this city, and Mr. Parrish Robins of Piggott, Ark., visited Mrs. A. Cerny at Fornfelt, Mo., Sunday.

Allen Mocabee, Jr., who is attending Coyne Electric School, Chicago, Ill., is spending this week here with his parents, Mr. and Mrs. Allen Mocabee.

Mr. and Mrs. Ernest Menees of Royal Oak, Mich., who has been visiting here several weeks, returned home Monday. They were accompanied by Eileen Meness of here, who will spend an extended visit.

W. P. Comer transacted business in Metropolis, Ill., Tuesday.

Mr. and Mrs. Melvin Sullivant spent Sunday in Paducah, Ky., visiting Mr. and Mrs. Edgie Sullivant and Mr. and Mrs. Charles Sullivant. They were accompanied home by Rev. and Mrs. A. C. Sullivant, who spent last week in Paducah.

Mr. and Mrs. Bub Donahue and Mrs. J. D. Dunn of Kalamazoo, Mich., were guests of Mr. and Mrs. Jim Reeves, Sunday.

Mr. and Mrs. R. J. Masterson of San Antonio, Texas, visited Mr. and Mrs. Jim Wallace over the week-end. They departed for home Monday.

The Bridge Club was entertained by Mrs. Dorcy Brown last week. Mrs. Virgil Owings received high score and Miss Vinita Edwards second high. They will meet at Mrs. W. T. Woffords this week.

Bill Duncan of Sikeston was the guest of Mr. and Mrs. P. P. Ferrell, Sunday.

Mr. and Mrs. Hubert Schoffer and family of St. Louis visited relatives here Sunday.

Mr. and Mrs. Jewel Johnson of Royal Oak, Mich., who have been visiting here several weeks, returned home Monday. They were accompanied by the latter's father, Mr. Charles Sherrard, who will remain for an extended visit.

Mrs. Ruth Wilson of Columbia, Tenn., visited her parents, Mr. and Mrs. A. Averett the week-end.

Mr. and Mrs. Oscar Smith and family, and the former's mother, Mrs. Kittie Smith, spent Sunday with relatives in Grand Chain, Ill.

Dorris Hearon was a business visitor in Caruthersville, Saturday.

Mr. and Mrs. J. D. Frank of Aid, Mo., spent Sunday here with their son, Mr. and Mrs. Monte Frank.

While working at the Himmelberger-Harrison Lumber Co., Saturday, Charles Crozier got his head caught between two lumber stacks, and his right ear was split seven stitches were taken. He was treated by Dr. C. H. Pease.

Paul Castleberry is nursing a sore thumb, which was slightly injured at the mill last week.

Emory Legate is looking after farm interest in Biggers, Ark., this week.

Mr. and Mrs. Forrest Hearon and daughter Barbra Sue are visiting relatives in Fulton, Ky.

Born to Mr. and Mrs. R. R. Givens, Saturday, August 30, a 10 1-2 lb. boy.

Mr. and Mrs. Clifford Pinkstaff of Risco and Miss Edna Evans of Cape Girardeau visited his parents here Saturday, and called on Mrs. Lucretia Vick.

STRIKE OF COTTON PICKERS THREATENED

MEMPHIS, Tenn., Sept. 2—H. L. Mitchell, secretary, said today the executive council of the Southern Tenant Farmers' Union had decided upon a strike of day labor cotton pickers, but growers evidenced no concern over such a move.

Mitchell said the union did not set a definite date for ta walkout but left that up to local srike committees. He said that 11,186 of 13,500 union members answering a questionnaire voted in favor of a strike and 450 opposed it.

Workers in Arkansas, Oklahoma and Texas would be affected, he said.

At Burdette, Ark., however, J. S. Tompkins, a cotton grower said, "I don't think we're going to have any trouble at all." Of the strike he said, "We haven't heard anything about it.'" No day labor picking will start for about 10 days in that area, he reported.

It was reported that cotton picking wages of $1 per 100 pounds would be asked for. Cotton pickers, said the union leader, have been offered from 50 to 60 cents per hundred pounds of picked cotton this year, with some planters offering up to 75 cents.

Mr. and Mrs. H. G. Cathy, Judge and Mrs. X. Caverno and Miss Ellen Caverno of Canalou shopped in Sikeston Tuesday.

Sikeston's thirty-mile-an-hour speed limit on city streets will be enforced, councilmen decided at a regular monthly meeting Monday night.

C. C. Buchanan, who appeared at the session to deplore speeding on Kingshighway, said that frequently motorists travel as fast as 75 miles an hour on the street.

Councilmen plan to secure speed limit signs soon for erection on Kingshighway near the north and south city limits. Officers will be instructed to watch Kingshighway, Greer, Tanner, and other often traveled streets for violators of an existing ordinance, which prohibits driving more than thirty miles an hour on all streets within the city limits. Fines of from $1 to $50 and costs may be imposed on violators.

The Screen Reporter of Cape Girardeau

It is with pleasure and pride that we give to you the program of the

BROADWAY THEATRE

for the coming week:

FRIDAY AND SATURDAY

afternoon and nights continuous from 2:15 p. m. (Sept. 6 & 7)

PERSONAL

Mrs. Fern Vick, who had been visiting here for a few days with Mrs. L. L. Conatser, returned to her home in Bernie, Wednesday.

Mrs. E. A. Deaver and daughter, Miss Meryl Miller, of Illmo, visited here yesterday (Thursday) with Mrs. C. M. Taylor.

Miss Deloris Appell went to Oran last Friday where she will attend school. Miss Appell had spent the summer in Sikeston with her parents, Mr. and Mrs. Clifford Appell.

Mrs. H. L. Boaz of Parma is spending this week here with her daughter, Mrs. L. L. Conatser and family.

Edward Allard left Wednesday morning for Fulton, Mo., where he will attend Westminster College this school year. M. M. Beck, III, and Merlyn Taylor went as far as St. Louis with Mr. Allard, thence to Columbia to be present at rush week. They expect to return home the first of next week.

Mrs. Dora Suvers, Mrs. Ruby Hamby and son, Jesse Lee, were in Oran, last Friday, visiting Mrs. Jas. Snider and family.

Mrs. J. J. Reiss and daughter, Miss Audrey, went to Ironton, Sunday to attend the funeral of Mr. Standley, held there that afternoon. Mr. Standley was the father of L. D. Standley of this city.

Mrs. Lydia Stevens of Cape Girardeau is here this week, visiting her son, C. J. Stevens, and family.

Mr. and Mrs. L. L. Conatser, Mrs. C. E. Felker and son, John Russell, and Mrs. Fern Vick of Bernie attended the Duquoin (Ill.) fair, Monday.

Miss Sallie Hudson of Dexter spent the week-end here with her sister, Mrs. C. J. Stevens, and family.

Mr. and Mrs. Linnie Kernell and children and Miss Jessie Stacy spent the week-end in Paducah, Ky., visiting with relatives.

The Auxiliary of the American Legion will hold their regular meeting with Mrs. Loomis Mayfield, Friday evening, Sept. 6. All members are urged to attend as a report of the State meeting held in Columbia will be given.

Mrs. Clifford Appel surprised her daughter, Miss Deloris, with a farewell party, on last Friday evening, Miss Appell leaving later for Oran, where she will attend school. She received several nice gifts. Those present were Misses Joan Burrow, Mary Lou Nickel, Frances Oliver, Venita Noyes, Jewell Bishop, Colleen Williams and Pauline Bratton.

Edward Allard left Wednesday morning for Fulton, Mo., where he will attend Westminster College. He was accompanied to Columbia by Merritt Beck, Jr., and Merlin Taylor where Beck will attend Rush Week activities at Missouri University.

Mr. and Mrs. Paul Jones left by motor Wednesday afternoon for Hot Springs, Ark., where they will stay a month. Mr. Jones was released Monday from the St. Francis hospital in Cape Girardeau after receiving treatment for a hemorrhage he suffered Saturday.

Miss Elizabeth Schulzke of St. Louis arrived here Wednesday and Mrs. Emma Duncan and son and Mrs. Nellie Frawley and daughter of Chicago came Thursday for a visit of several days as guests of Mr. and Mrs. R. D. Mow and daughter, Miss Marjorie. Miss Schulzke was the former roommate of Miss Mow at William Woods College two years ago.

E. H. Heller returned Monday morning from St. Louis, where he had been visiting his mother, Mrs. Edward Heller, and his five children. Mr. Heller also went to Troy, Ill., to see his wife, who is staying at the home of her father, A. F. Rieder.

THE "TWO WITNESSES"

By Elder John B. Huffman

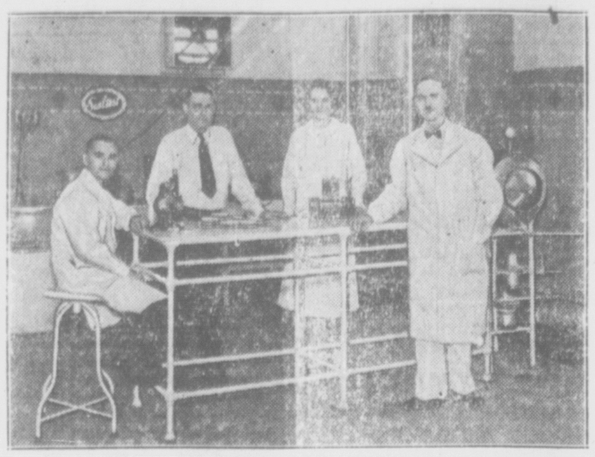

Elder John B. Huffman says he will lecture on the streets of Sikeston, Saturday afternoon, September 7, 1935, in the little park in front of Sterling's store, in Sikeston, Mo., on "The Two Witnesses" of Revelation, 11th chapter. This is very important and all Bible scholars should not fail to hear this lecture, he says.

Saturday afternoon, September 14, Elder Huffman says he will lecture on the streets of Sikeston again on "The Second Coming of Christ".

Everybody invited to attend these Bible lectures. He says, if you don't know it all you might obtain some knowledge about the deep things of the Bible.

All services commence at 2 o'clock. Everybody invited.

Ice Cream Now Manufactured Under Laboratory Supervision

Testing for Quality and Flavor. An Ice Cream Laboratory of the Sealtest System Laboratories, Inc.

2,500,000,000 Pounds of Milk Needed to Make America's Ice Cream

MANY a child has thought of perfect happiness in terms of a bottomless dish of ice cream. Frozen desserts have been cherished ever since they first tickled the palates of Christian warriors during the Crusades.

But today's ice cream, tested, checked, and supervised for quality and purity, is not merely a delectation to the taste, it is a nutritious product rich in food value. With the basic ingredient milk—in the form of cream—this frozen confection is particularly rich in vitamins A and G, proteins, carbohydrates and many minerals—notably lime and iron. Vitamin A is important in "toning up" the body—and mineral matter is required for healthy teeth and strong bones. Doctors have long recognized the merit of ice cream as a well-balanced food and prescribe it frequently for invalid diets.

The popularity of ice cream can be measured by the amount of milk needed to make this favorite American dessert. Last year some two and one half billion pounds of milk, the yearly production of 280,000 fairly high-producing cows, reached consumers in the form of sodas, sundaes, pie a-la-mode, and ice cream cones.

MUST RECORD TRANSFERS

Tax Exemption Certificates Are Otherwise Void

The transfer or assignment of cotton tax exemption certificates must be recorded in the office of the assistant in cotton adjustment says County Agent Broom. Otherwise these certificates are invalid and will not be accepted by ginners in lieu of the tax payment. The assistant in cotton adjustment may be found at the county agent's office.

It is the duty of the assistant in cotton adjustment to take up the certificate to be transferred or assigned and to issue instead a new certificate in the name of the person to whom the certificate is to be transferred. Ginners will not accept certificates from any person other than the one to whom the certificate was originally issued or reissued.

Any certificate which is transferred without recording is subject to cancellation. In the event of cancellation all persons who were a party to this action or to the acceptance of such certificate in lieu of the tax are responsible for the full payment of the amount of the tax.

Individual producer sales of exemption certificates, as well as purchases from the national surplus certificate pool, are to be made at 5c a pound. Payment at this rate in the case of individual producer sales must be witnessed by the assistant in cotton adjustment.

Those Movie Trailers

You would have no reason to suspect it, but motion picture exhibitors have to pay for the trailers—those between-the-features advertisements on the screen—by which spectators are told about the excitements of the coming films. Among patrons of films one seldom hears a good word for these trailers. "They are enough to drive one out of the theater" is the most frequent comment. Others say: "I saw the trailer and knew that I didn't want to see that film."

Far too often these trailers give a sensationalized notion of the coming film, a notion that is all out of proportion to the picture's contents. Some are so freakish in assembly as to be dizzying to watch. Such trailers are a detriment to the thing they are supposed to advertise. One might suppose that the theater managers would at least receive these advertisements without charge. But no. They have to pay for them. $1.50 apiece. It is even reported that presure is applied to exhibitors to make them take the trailers. It would seem that something should be done about that.—Christian Science Monitor.

Statistics on the lumber industry continue to show up favorably, according to the National Lumber Manufacturers' Association, each week since the start of the third quarter production showed gains over the preceding week. Shipments for the week ended August 17 were the highest for any week. Shipments for the week ended August 17 were the highest for any week since 1931, barring two periods in April. Production was the heaviest reported for any week since June, 1931.
